SECTION 1 – PERFORMANCE WORK STATEMENT

1.0 BACKGROUND AND OBJECTIVES

1.1 INTRODUCTION

The Defense Travel Management Office (DTMO), on behalf of the Department of Defense (DoD), requires Travel Management Company services from contractors knowledgeable in all areas of travel services to support official travel activities of authorized DoD travelers.

1.1.1 BACKGROUND

The Defense Human Resources Activity (DHRA) is a DoD Field Activity of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD (P&R)).

The DTMO was established in February 2006 to serve as the single focal point for commercial travel within the DoD, establishing strategic direction, setting policy, and centrally managing commercial travel programs. The DTMO Is part of the newly established Defense Support Services Center (DSSC) which falls under the organizational structure of the DHRA. The DTMO maintains central oversight for commercial travel management, travel policy and implementation, customer support and training, DoD travel card program management, and functional oversight for the DoD Online Booking Tool (OBT). The DTMO functions as the single customer representative for all designated United States Forces Korea (USFK) activities and facilities requiring support to include Department of Defense Agencies located on the USFK bases/facilities and Joint Base personnel. The DTMO has overall responsibility for procuring Travel Management Company (TMC) services on behalf of DoD. TMC services managed by the DTMO are currently provided to DoD locations worldwide by multiple TMC service providers, comprised of both large and small businesses.

1.2 OBJECTIVES

Contractors must have the ability, knowledge, and skills in the areas of information technology, call center services, Global Distribution Systems (GDS), Government travel suppliers, Government travel policy (Joint Travel Regulation [JTR], and the Defense Transportation Regulations [DTR]). Contractors shall ensure that TMC services performed are within policy guidelines and use Government preferred suppliers, unless a valid exception applies. TMC services shall provide the Government with the overall best value.

The USFK requires TMC services to be provided for DoD travelers to arrange official travel to include travel by civilians on invitational travel authorizations in connection with official business of the United States Government and performed under orders at the expense of Federal appropriated and nonappropriated funds, with the exclusion of Leave In Conjunction With Official (LICWO) travel. The awarded TMC shall provide support to DoD travelers by making reservations and issuing tickets for commercial modes of transportation, making reservations for car rental and lodging, and performing related services such as reporting and maintenance of records. TMC services shall include the following services:

- TMC Assist Travel Arrangements
- DoD OBT Travel Arrangements
- Centrally Billed Account (CBA)/ Unit Card (UC) Reconciliation
- Movement of Human Remains
- Pet Travel
- Delivery of Reports
- Providing Global Distribution System (GDS) Terminals / GDS Web Account Access Credentials
- Maintaining Security of Personnel Data/Privacy Act Enforcement
- LICWO
- Military Working Dogs
- Air Mobility Command Patriot Express (AMC/PE) arrangements

Transition to new service providers is a process that must be accomplished methodically and comprehensively to avoid service disruption. TMC services are not immediately transferable and require a period of transition to ensure seamless continuity of services.

1.3 SCOPE

DoD requires travel services that shall be compatible with the existing DoD OBT platform. The TMC shall have multiple reporting requirements for the existing DoD OBT. Based on the required level of performance incorporated in this solicitation, DoD expects vendors to propose robust Information Technology (IT) solutions that are sufficiently flexible to ensure compatibility with the existing DoD OBT and any revised versions.

The Contractor shall at a minimum:

- Provide all personnel, equipment, facilities, licenses, materials, resources, supplies, and services and perform all the tasks necessary to meet all requirements of the Performance Work Statement (PWS) as set forth below.

- Provide travel services for authorized travelers for designated USFK facilities located in Korea to include DoD Agencies located on these USFK facilities. All tasks shall be performed in accordance with the PWS including travel services and reservations made using the DoD OBT and TMC Assist/Non-DoD OBT. In the event that local business rules conflict with PWS requirements, the PWS will take precedence.
- Demonstrate the ability to process, receive, and send DoD OBT reservations upon successful completion of the required PNR Validation (Attachment 1) process.
- Demonstrate customer service to ensure the DoD traveler needs are met.

Back Office System – Accounting, invoicing, and customer service software. Frequently used to process and verify weekly sales reports. Types of reports include financial, customer travel patterns, settlement, general ledger, and accounting. An automated system interface with the Contractor's GDS that collects and reports data for management information reports and financial accounting.

1.7.3.7 **CONTROLLED UNCLASSIFIED INFORMATION (CUI) REQUIREMENTS FOR DoD CONTRACTORS**.

1.7.3.7.1 The following procedures will be used to protect Controlled Unclassified Information (CUI) documents and materials:

1.7.3.7.1.1 **HANDLING**: Access to CUI material shall be limited to those employees needing the material to perform their duties. The CUI marking is assigned to documents and material created by a DoD User Agency. CUI is not a classification but requires extra precautions to ensure it is properly safeguarded and disseminated and is not released to the public without government authorization.

1.7.3.7.1.2 **MARKING**: Mark unclassified documents containing CUI as follows: “CUI” at the top and bottom of each page, include the CUI warning box, and the CUI Designation Indicator Block as required in DoDI 5200.48.

1.7.3.7.1.3 Mark other records such as computer print outs, photographs, films, tapes, or slides in accordance with DoDI 5200.48 so the receiver or viewer knows that it contains CUI material.

1.7.3.7.1.4 Mark a message containing material in accordance with DoDI 5200.48. Unclassified messages containing CUI material must show the abbreviation (CUI) before the text begins.

1.7.3.7.1.5 Ensure documents transmitting CUI material call attention to any attachments containing CUI.

1.7.3.7.1.6 CUI material released to a contractor by a DoD user agency must have the following statement on the front page or cover:

THIS DOCUMENT CONTAINS CUI MATERIAL AND MUST BE REVIEWED BY A GOVERNMENT REPRESENTATIVE UNDER THE REQUIREMENTS OF DODI 5200.48, DODI 5230.09, and DODI 5230.29.

1.7.3.7.1.7 **STORAGE**: During regular duty hours, the Contractor shall place CUI material in an out-of-sight location if the work area is accessible to persons who do not have an authorized government purpose for access to the material. After regular duty hours, the Contractor shall store CUI material to prevent unauthorized access by filing it with other unclassified records in unlocked files or desks when internal building security is provided, and the file is marked as CUI. When there is no internal security, locked buildings or rooms usually provide adequate after-hours protection. For additional protection, store CUI material in locked containers such as file cabinets, desks, or bookcases.

1.7.3.7.1.8 **TRANSMISSION**: CUI documents and materials may be transmitted via first class mail, parcel post or for bulky shipments, fourth class mail. Within the CONUS discussion of CUI material on the telephone is authorized if necessary for the performance of the contract and no alternative is available. Electronic transmission of CUI (voice, data, or facsimile) should be by approved secure communications systems whenever practical. If there is a fax transmission, the sender must ensure the intended receiver is available to receive it or a cover sheet will be used to allow carrying it to the final recipient to avoid unauthorized disclosure of the CUI.

1.7.3.7.1.9 **RELEASE**: CUI material shall not be released outside of the contractor's facility except to the representative of DoD or GSA.

1.7.3.7.1.10 **DESTRUCTION**: When the CUI material no longer meets the threshold for safeguarding and dissemination, the Contractor shall immediately decontrol it, process it through the records management process, and destroy it by the approved methods identified in DoDI 5200.48 to preclude its disclosure to unauthorized individuals by rendering it unreadable, indecipherable, and irrecoverable.

1.7.3.8 **POSITION OF TRUST REQUIREMENTS.**

1.7.3.8.1 Provide personnel that are capable of meeting security requirements for non-sensitive and non-critical sensitive positions and are able to maintain favorable eligibility.

The instructions will be according to the installation security requirements to meet access. For DCSA Tier Background Investigation (BI) information visit National Background Investigation Services (NBIS) at https://www.dcsa.mil/is/nbis/.

1.7.3.12.4.1 Non-U.S. Citizen Personnel:

1.7.3.12.4.1.1.Sponsors shall complete and sign Application for a USFK Installation Pass, USFK Form 82-E (Application for Installation Pass), available electronically at https://8tharmy.korea.army.mil/g1/forms#usfk. Applications must be completed in English using standard American measurements. Applications shall be

completed to issue an initial USFK Form 37EK (AUTO) (First-time pass), to renew a pass that has expired or is about to expire, or to request changes to approved access authorizations.

1.7.3.12.4.1.2 Non-DoD South Korea Status of Forces Agreement (SOFA) status Personnel:

1.7.3.12.4.1.2.1Sponsoring Organization:

1.7.3.12.4.1.2.1.1 The sponsoring organization for all non-DoD personnel who require a Defense Biometric Identification System (DBIDS)-produced USFK Form 37EK (AUTO) Installation Pass to gain access to USFK installations must be an U.S. organization assigned to, attached to, or supporting USFK and not a specific person (except short term visitors, personal service employees, and family members). For purposes of sponsorship, this includes The Exchange, Defense Commissary Agency (DeCA), General Services Administration (GSA), and the Corps of Engineers Far East District. For contractors, the requiring or using activity will serve as the sponsoring and requesting organization, and all requests will be coordinated with the COR who will validate the status of the contract prior to consideration by the approving official. Contract sponsors will carefully consider contractor requests for escort privileges and ensure there is a valid need prior to submitting the pass request.

1.7.3.12.4.1.2.1.2 Applicant Category. An applicant’s category will determine the type of installation pass that may be issued and the associated restrictions. Personnel will not possess more than one type of USFK Form 37EK (AUTO) installation access document. Personnel entitled to a DoD ID card will not receive a USFK Form 37EK (AUTO).

1.7.3.12.4.1.2.1.3 Background Checks. Background checks are used to determine if an applicant is a security risk. Background check requirements are based on an individual’s category. Local Pass and ID Officials will check and verify that a background check has been completed, or when applicable, that a background check has been initiated.

1.7.3.12.4.1.2.1.3.1 Completed background checks are valid for three (3) years. Passes may be renewed for existing pass holders whose background checks are older than three (3) years, as long as a local military law enforcement name check is completed and a new Korean National Police Agency (KNPA) background check has been requested.

1.7.3.12.4.1.2.1.3.2 Background checks in USFK consist of three (3) parts: (1) A local check through the local U.S. military law enforcement agency or USFK Joint Police Information Center (JPIC); (2) a check conducted through the KNPA; and (3) as required, an additional check through the National Crime Information Center (NCIC) or U.S. Embassy- Korea.

1.7.3.12.4.1.2.1.3.2.1 Local U.S. military law enforcement agency or JPIC. Required prior to initial issue of an Installation Pass and prior to renewal of an Installation Pass. Upon completion, the Pass & ID Office may issue the USFK Form 37EK (AUTO) Permanent Pass.

1.7.3.12.4.1.2.1.3.2.2 Korean National Police Agency (KNPA) Check. Valid up to three (3) years. This check is performed by both local and national divisions of the KNPA. Permanent passes may be issued and renewed as long as an updated KNPA check has been requested, and the required local U.S. military law enforcement agency/JPIC check is completed.

1.7.3.12.4.1.2.1.3.2.3 NCIC and/or U.S. Embassy. Non-DoD civilians may also receive a NCIC and/or U.S. Embassy-conducted background check, as requested by USFK, or by components through USFK, on a case- by-case or random basis.

1.7.3.12.4.1.2.1.3.2.4 Upon completion of the KNPA and/or U.S. Embassy background checks, any derogatory information will be provided to the pass approval authority for consideration as to whether or not the individual's access authorizations should be amended or revoked, and may result in immediate suspension of unescorted access privileges pending reconsideration by the approval authority.

1.7.3.12.4.1.2.1.3.2.5 Additional background check requirements for non-DoD Designated Country Personnel (DCP) are specified in Chapter 5, United States Forces Korea, Regulation 190-7, Military Policy - INSTALLATION ACCESS CONTROL (27 September 2017).

1.7.3.12.4.1.2.1.3.3. Number of installations to which access is required.

1.7.3.12.4.1.2.1.3.3.1 With the exception of the following categories of personnel who are automatically granted USFK-wide access, the installation access control program limits a person's access to the maximum number of installations/areas required for the person to perform their official duties based on their relationship with USFK.

a. SOFA status DoD ID cardholders assigned or attached to CFC/USFK/UNC.

b. Non-SOFA DoD Military personnel, military beneficiaries and their authorized family members.
c. DoD civilian retirees and their authorized family members.
d. U.S. Embassy U.S. citizen personnel and their assigned family members.
e. Korean Augmentation to the United States Army (KATUSA) personnel.
f. Military Members of the Republic of Korea (ROK) Armed Forces who are assigned or attached to the HQ, Combined Forces Command (CFC) or a subordinate CFC U.S. Command, and their command-sponsored family members.
g. Allied and neutral nation military personnel assigned to the United Nations Command, Military Armistice Commission (UNCMAC), Neutral Nations Supervisory Commission (NNSC), and USFK.

1.7.3.12.4.1.2.1.3.3.2 Days and Times Access is required. Requested days and hours of access must be consistent with the official relationship and duties of the individual.

1.7.3.12.4.1.2.1.3.3.3 Escort Privileges. USFK Installation and Base Commanders may grant escort authority to Korean General Service (KGS)/Korean Service Corps (KSC) employees (non-SOFA) as applicable. KGS/KSC employees are authorized to escort personnel onto their installations where they are employed unless otherwise restricted by this regulation or by an authorized commander. The maximum personnel and vehicle escort authorizations that may be approved are specified in Appendix E. Short-term visitor pass holders are not authorized escort privileges.

1.7.3.12.4.1.2.1.3.3.4 Force Protection Condition (FPCON) Restrictions. DoD ID card holders are authorized access during all FPCONs. For non-DoD ID card holders, the highest required FPCON will be requested by the sponsoring organization and, as approved, reflected on the USFK 37EK (AUTO). DBIDS registration offices will limit FPCON access to BRAVO if not specified by the sponsoring organization. During FPCON C or D, routine visitor operations will cease. Additional restrictions on installation access may be directed by the Commander, UNC/CFC/USFK, the geographical area Antiterrorism (AT)/Force Protection (FP) senior responsible officer, or by the Area Commander. When an Installation, Area, or USFK is at FPCON C or D, only personnel with the corresponding authorized FPCON C or D access may enter an installation.

1.7.3.12.4.1.2.1.3.3.5 Non-SOFA Vehicle Access. Sponsoring individuals/organizations and approval authorities will ensure that requests for privately owned vehicle (POV) access to USFK installations provide documentation to meet the minimum vehicle registration requirements of Korean road and traffic law and USFK policy (United States

Forces Korea, Regulation 190-1, Military Police - MOTOR VEHICLE TRAFFIC SUPERVISION [10 May 2012]).
This requirement applies to both temporary/daily visitors as well as permanent registration of Privately Owned Vehicles (POVs). Employment is not a condition that automatically grants installation access of POVs. Installation Commanders regulate vehicle access within their Area of Responsibility (AOR). Specific guidance for obtaining vehicle access to USFK installations is listed in 190-1, chapter 3. Sponsors will concurrently submit requests for vehicle access documents (USFK registration decals) and for passes [USFK Form 37EK (AUTO)]. Vehicle decal expiration for non-DoD personnel will not exceed the expiration date of the USFK Form 37EK (AUTO)/DoD CAC.

1.7.3.12.4.1.2.1.3.3.6 Mandatory Defense Biometric Identification System (DBIDS) Registration. All USFK installation access passes and vehicle access documents will be processed and recorded using USFK DBIDS, which provides a centralized database to record personnel and vehicle access authorizations, and an identification verification system based on Door Frame Metal Detectors (DFMD).

1.7.3.13 **RETRIEVING IDENTIFICATION MEDIA**.

The list shall be updated within three (3) business days of changes or every 90 calendar days whichever comes first.

1.7.3.19.2 The Contractor shall submit confirmation via contractor-generated email to the QAE and the COR within three (3) business days of turning in the outgoing

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals–

(1) □ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) □ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) □ Are, □ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) □ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). The Contractor's mitigation plan will be determined to be acceptable solely at the discretion of the CO and in the event the CO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the CO may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI. The Contractor must protect any proprietary information received in performance of this contract from unauthorized use or disclosure for as long as it remains proprietary and refrain from using the information for any purpose other than performance under the contract.

Any potential conflict of interest issues will be considered prior to award of the work to be performed.

4.1 CONTRACTOR EMPLOYEES

The Contractor shall ensure that Contractor personnel identify themselves as Contractors when attending meetings, answering Government telephones, providing any type of written correspondence, or working in situations where their actions could be construed as official Government acts.

4.2 CONTRACTING OFFICER'S REPRESENTATIVE (COR)

The COR is designated by the Contracting Officer to perform technical liaison between the Contractor's management and the Contracting Officer in routine technical matters constituting general program direction within the scope of the contract. Under NO circumstances is the COR authorized to effect any changes in the work required under this contract whatsoever, or enter into any agreement that has the effect of changing the terms and conditions of this contract or that causes the Contractor to incur any costs.

In addition, the COR will NOT supervise, direct, or control Contractor employees. Notwithstanding this provision, to the extent that Contractor accepts any direction that constitutes a change to this contract without prior written authorization of the Contracting Officer, costs incurred in connection therewith are incurred at the sole risk of the Contractor, and if involved under this contract will be disallowed.

On all matters that pertain to the contract terms, the Contractor must communicate with the Contracting Officer. Whenever, in the opinion of the Contractor, the COR requests efforts beyond the terms of the contract, the Contractor shall so advise the Contracting

Officer. If the COR persists and there still exists a disagreement as to the proper contractual coverage, the Contracting Officer will be notified immediately, preferably in writing.

4.3 UNAUTHORIZED COMMITMENT

In no event shall any understanding or agreement between the Contractor and any Government employee other than the Contracting Officer on this contract be effective or binding upon the Government. The Government intends to utilize a Quality Assurance Surveillance Plan (QASP) (Attachment 5) to monitor the quality of the Contractor's performance. The QASP provides a means for evaluating whether the Contractor is meeting the performance standards/quality levels identified in the contract throughout the contract period of performance. The oversight provided in the contract and QASP will help to ensure that service levels reach and maintain the required levels throughout the contract term.

Further, the QASP provides the COR with a proactive way to avoid unacceptable or deficient performance, and provides verifiable input for the required Past Performance Information Assessments. The QASP will be finalized within ten (10) business days following award and a copy provided to the Contractor after award. The QASP is a living document and may be updated by the Government as necessary, but it will not be an attachment to the contract award.

5.1.3 Price: Using Attachment 10, submit your POS (Per Transaction) Pricing Model for the base, and each option year:

- In the narrative tab of Attachment 10, explain your pricing methodology and demonstrate your understanding of the incentive/disincentive structure.
- The total evaluated price used for award will be calculated by adding the total price for all services of the base period and all option years (including FAR 52.217-8 in the final

option period as described in the paragraph below). The evaluation of options does not obligate the Government to exercise the option(s).

- The price evaluation will include the Government's unilateral option to extend services for an additional period up to six months under FAR 52.217-8; Option to Extend Services. The evaluation will consider the possibility that the option can be exercised at the end of any performance period for any length no longer than the total of six months. For this price evaluation, the Government will assume the price of any exercised option to extend services under FAR 52.217-8 will be at the same rates as those in effect under the contract at the time of exercise. As such, the Government will take one half of the average of the base and each option period price to evaluate the potential FAR 52.217-8. The Government will add this amount to the total proposed price for all services of the base period and all option years to determine a total overall evaluated price if this option is exercised. Evaluation of the FAR 52.217-8 option clause does not obligate the Government to exercise the option clause.

A complete proposal shall include the following:

Received by the Government on July 17, 2026

SECTION 6 – EVALUATION CRITERIA

6.0 BASIS FOR AWARD

Award of this contract will be made on a best-value basis to the Korean firm exhibiting the best value to the Government in accordance with Revolutionary Federal Acquisition Regulation (FAR) Overhaul Part 12, and Part 15, as well as supplemental RFO Agency Deviations for the DoD, Defense Federal Acquisition Regulation Supplement (DFARS) 215, and DFARS PGI 215.

- Proposals are ineligible for award if they fail TMC PNR Validation.(Pass/Fail) (Attachment 1)
- Technical and performance capability weigh more than price, but as confidence ratings for technical and performance capability converge, price may become more important to the best value determination
- Award will be made to a single eligible offeror with the proposal that represents the best value to the Government as determined by the Contracting Officer. In making this determination, the Contracting Officer will consider trade-offs between technical and performance capability and price.
- Offerors are ineligible for award if they are not a Korean firm.
- Final evaluation based on selected pricing methodology MSF or POS pricing model at award)

The Government maintains flexibility to ensure the best value selection.

6.1 Evaluation Criteria:

6.1.1 TMC PNR Validation (Attachment 1): Validation testing confirms the DoD OBT ability to exchange a PNR with the TMC. It is evaluated on a pass or fail basis. You must pass to be considered for an award.

6.1.2 Technical and Performance Capability: The Government will look for past performance data, automated reporting capabilities, how the Offeror will ensure 24/7 coverage and attainment of service level agreement standards, and quality control processes. Note: the Government may consider its own experience with an Offeror and may use other available past performance information/sources.

The Government will evaluate how confident we are that the TMC can consistently achieve the required performance standards using the following confidence rating scale:

("Offeror's proposal" in the following definitions refers to all aspects of the proposal and include oral presentations and associated question and answer session.)

- High Confidence: Offeror's proposal demonstrates an exceptional understanding of requirements, is little to no risk, and is highly likely to exceed requirements in

performance.

- Significant Confidence: Offeror's proposal demonstrates a strong understanding of requirements, has low risk, and is likely to meet or exceed requirements in performance.

- Satisfactory Confidence: Offeror's proposal demonstrates an adequate understanding of requirements; moderate risk may exist but is likely to meet requirements in performance with normal Government oversight.

- Limited Confidence: Offeror's proposal demonstrates a marginal understanding of requirements, has moderate to high risk, and there are concerns regarding the ability to meet requirements in performance.

- No Confidence: Offeror's proposal fails to demonstrate understanding of requirements, is high risk, and has major deficiencies or evidence of unsuccessful performance.

Price Evaluation Criteria: Best Value Determination

The Government will evaluate price using the offeror's completed Exhibit 10, looking at total evaluated price over the period of performance.

In accordance with RFO 12.204, the Contracting Officer must determine the price to be fair and reasonable. The Contracting Officer will utilize RFO 15.404-1 Price analysis. techniques to evaluate the proposals received and determine fair and reasonable pricing. The Contracting Officer intends to utilize RFO "15.404-1(b)(1) Comparison of proposed prices received in response to the RFP," "(2) Comparison of the proposed prices to historical prices paid, whether by the Government or other than the Government, for the same or similar items," "(4) Comparison with competitive published price lists," and "(5) Comparison of proposed prices with independent Government cost estimates."

Best value will consider whether or not the proposing firm is Korean, whether or not the firm was able to pass PNR validation, its technical and performance capability confidence rating, and price.
