Due to this specific Piping and Structural Engineering design only the selected Duplex Strainer (72-48F-EQUIV) called out in drawing 175-WLM-256-006 must be utilized for this application. Through Market Research it was found that Fluid Filtration Corp has recently worked to duplicate the KRAISSL Duplex Stainers. Fluid Filtration Corp has manufactured versions of KRAISSL products that have been tested and approved by the Yard Pipe Shop & Engineering department for USCG cutter use. As such, the Duplex Strainers offered by Fluid Filtration are the only strainers that will meet the Yard's needs.
