Section M – Evaluation Factors for Award

Basis for award: Award shall be made to the responsible offeror submitting the lowest priced offer that is evaluated as acceptable all evaluation criteria.

Evaluation criteria:

The government shall evaluate the technical approach to determine if the approach is reasonable and supports the tasks in the statement of work. Areas of the SOW that are not addressed in the technical approach shall cause the offer to be evaluated as unacceptable. The technical approach may be used by the contracting officer to determine whether an offeror demonstrates sufficient understanding of the tasks and is able to complete the requirements under the contract, and/or whether discussions will be conducted.

The government shall evaluate pricing to determine whether proposed prices are complete and reasonable. Price will not be scored or rated. The government will evaluate price using one or more of the price analysis techniques in FAR 15.404-1(b).
