WARNING
Playground equipment installed over hard surfaces such as concrete, asphalt, or packed earth may result in serious injury or death from falls. Make sure that appropriate safety surfacing is present before allowing children to play.
Children have strangled and died when their clothes caught on slides and other playground equipment. Before allowing children to play, remove helmets, scarves, necklaces, hood cords, neck drawstrings, and mittens connected through the sleeves. Also remove any foreign ropes, strings or shoe laces that may be tied to the equipment.
Playing tag or running on or under playground equipment can lead to serious injuries from falls, collisions and head strikes. Do not run on or under playground equipment. Pay attention while playing and be careful.
All playground equipment and rubber surfacing may become hot enough to cause burns. Check for hot surfaces before allowing children to play. Children should wear appropriate shoes at all times.
