NOTICE OF INTENT TO AWARD SOLE SOURCE:

IAW FAR 5.101 this notice is to advise the public that the Department of Veterans Affairs (VA) Network Contracting Office 15 (NCO15) intends to award a one-time purchase, sole source firm fixed price contract pursuant to:

- FAR 11.105, Items Particular to One Manufacturer.
- VAAR 819.7008, Sole source awards to verified service-disabled veteran-owned small businesses.

The BreezeConnect HL7 Interface Software is required by the Kansas City VA Medical Center to support the existing Medgraphics Pulmonary function lab.

Intended awardee:
Bravo, Inc.
UEI: HUN2LAYMAWA2
SDVOSB
1811 SE 5th Ave
Cape Coral, FL 33990

THIS NOTICE IS NOT A REQUEST FOR COMPETITIVE QUOTES; however, any firm responsible that believes it can meet the requirement may give written notification and capability statements prior to the response due date and time. Vendors shall indicate if they are the direct supplier or service provider of the items and/or authorized reseller/distributor. Supporting evidence must be furnished in sufficient detail to demonstrate the ability to fulfil the requirement and must include relevant corporate experience along with the applicable contract number, total contract dollar amount, contract period of performance, details of the relevant supply, and customer point of contact with corresponding telephone number and email address.
Responses must include the following information:

1. Company Name
2. SAM UEI Number
3. Company's Address
4. Point of Contact Information (title, phone number and email address)
5. Business Size

Responses received will be evaluated; however, a determination by the Government not to compete the proposed procurement based on responses to this notice is solely within the discretion of the Government. The information provided will not be returned.

The North American Industry Classification System (NAICS) code for this procurement is **541511 Custom Computer Programming Services**, with a size standard of $34 Million.

Responses are due by **11:00 AM (Central Time) on August 13, 2026**. This will be the only notice regarding the Government's intent to solicit and award a contract to a single source to meet this requirement. Any responses received will only be considered to determine the marketplace for future procurements. The Government will not pay for information submitted. Inquiries will only be accepted via email to cory.rosene@va.gov.

DEPARTMENT OF VETERANS AFFAIRS

Justification for Single Source Awards IAW FAR 13.106-1
For
Over Micro-Purchase Threshold but Not Exceeding the Simplified Acquisition Threshold

Acquisition Plan Action ID: 36C255-26-AP-2596

1. **Contracting Activity:** Department of Veterans Affairs, Network Contracting Office (NCO) 15, located at 3450 S. 4th St. Trafficway, Leavenworth, KS 66048, in support of VISN 15 Kansas City VA Medical Center, 4801 East Linwood Boulevard, Kansas City, MO 64128.

   Purchase Request: 589-26-3-1792-0235

2. **Brief Description of Supplies/ Services required and the intended use/Estimated Amount:**

   BreezeConnect HL7 Interface Software for ADT, Orders and Results, BreezeReview, Electronic Signature Software, Pulmonary Consult Software, One Year Network Software Support, Two Day Onsite Operator Training (up to 4 People).

   Estimated Amount: [redacted]

3. **Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:**

   The BreezeReview and BreezeConnect applications developed by MGC Diagnostics are proprietary. Because MGC Diagnostics maintains full control over its software and interfaces, only MGC can provide the HL7 server required for the Kansas City VAMC and ensure proper integration with VISTA. MGC Diagnostics is also the sole vendor capable of integrating its BreezeConnect interface with Somnoware, the Oracle Health–approved platform.

   The KCVA currently operates [redacted] MGC diagnostic devices using the Breeze Suite software, including [redacted] plethysmography box, [redacted] Ultima systems, and [redacted] spirometers. These devices, most of which were purchased within the last two years, depend on MGC's proprietary software. For this reason, the facility has only evaluated MGC's HL7 interface, as adopting a different vendor's solution would require replacing all [redacted] devices.

   While other brands, such as the [redacted] have been contemplated and could potentially be used in the future Federal EHR environment, pursuing this option

would result in substantial and unnecessary duplication of cost, effort, and time. A competitive procurement process would be required, and the outcome would almost certainly necessitate purchasing entirely new diagnostic equipment as well as a new interface.

Proceeding with the BreezeReview solution avoids these significant inefficiencies. It ensures continuity with existing equipment, maintains compatibility with the current software environment, and relies on the only vendor capable of meeting the KCVA's technical and clinical integration requirements.

4. Description of market research conducted and results or statement why it was not conducted:

Market Research was conducted using a generic keyword, HL7 Interface, to maximize potential sources. See results below:

a. Searched GSA Global Supply using keyword "HL7 Interface" – no relevant results identified.

b. Searched the National Acquisition Center using the following keyword "HL7 Interface" – multiple results identified:

[redacted]

Sources Sought Notice posted to identify potentially capable vendors.

c. Searched the High-Tech Medical Equipment database using keyword "HL7 Interface" – no relevant results identified.

d. Searched the Supply Chain Master Catalog (SCMC) using keyword "HL7 Interface" – identified the following potential contracts and vendors:

[redacted]

[redacted]

e. Searched ADDSUP using keywords “HL7 Interface” – multiple contracts/line items identified. A Sources Sought Notice will be posted to identify potentially capable vendors.

f. Searched GSA eLibrary using keywords “HL7 Interface” – multiple results identified under Category 54151; identified [redacted] A Sources Sought Notice will be posted to identify potentially capable vendors.

g. Searched GSA Advantage using keyword “HL7 Interface” – multiple results identified; a Sources Sought Notice will be posted to determine capability.

h. A Sources Sought Notice (36C25526Q0504) was posted to SAM.gov from 07/10/2026 – 07/16/2026. [redacted] However, as this is a sole source acquisition and the OEM confirmed only one capable SDVOSB, the recommendation is to award to the SDVOSB Authorized Distributor.

5. **Contracting Officer's Certification:** *Purchase is approved in accordance with FAR 13.106-1(b). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief.*
