Synopsis – Notice to Sole Source:

NOTICE OF INTENT TO ISSUE A SOLE SOURCE CONTRACT FOR THE LAW ENFORCEMENT VEHICLE – FLEET 3 CAMERA SYSTEMS, TO INCLUDE ALL NECESSARY HARDWARE, 5 YEARS OF ALL NECESSARY SOFTWARE LICENSING TO INCLUDE FLEET LICENSE AND UNLIMITED CLOUD STORAGE PER CAMERA, 5 YEAR WARRANTY, INSTALL, DEPLOYMENT AND TRAINING OF THE SYSTEMS.

This Notice is issued in accordance with Revolutionary Federal Acquisition Regulation (FAR) Overhaul (RFO) Part 5.101, *Presolicitation Notice*. The U.S. Department of the Interior (DOI), Office of Acquisition and Property Management, National Park Service (NPS), Acquisition Operations Branch (AOB), is the contracting office for this procurement. The purpose of this Notice is to announce the government's intent to issue a sole source contract under the authority of RFO Part 12 to Axon Enterprises Inc., 17800 North 85th Street, Scottsdale, AZ, 85255, in accordance with RFO Part 6.103-1, *Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements*.

NPS has determined that Axon Enterprises Inc manufactures the Fleet 3 Camera System, the only vendor the NPS authorizes to supply body worn and in car camera systems. NPS requires specialized video evidence systems capable of supporting long term use, and interagency partnerships. These systems are compatible with and integrate with existing NPS video evidence management system and Axon body cameras. Axon body worn and in car camera systems are the only devices that fit these parameters that would not significantly duplicate costs to the government.

Due to the sensitive nature of protecting specialized video evidence systems, NPS law enforcement has strict restrictions over authorized law enforcement products and service in use.

No products exist, without a need to customize and reconfigure, which would be needed to enable other products to potentially meet the minimum requirements, and would come at an additional cost of services, contractor time, and significant time and cost of the Federal government.

The anticipated period of performance is 3 months from date of award.

PLEASE NOTE: This notice is not a request for quote (RFQ). However, any firm that believes itself capable of meeting the requirement described herein may submit a capability statement or quotation which may be considered if received by the agency by **12:00pm Eastern Time on 13 August 2026**. All submissions in response to this notice must be submitted in writing via email to the Contracting Officer at catherine_robertson@ios.doi.gov referencing 140P4226Q0045, on the subject line. A determination by the Government not to compete the Government's requirements described in this notice is solely within the discretion of the Government.
