- L. Bidders are cautioned to not rely on the DMV during the evaluation to discover and report to the bidder any defects and errors in the submitted documents. Bidders, before submitting their documents, should carefully proof them for errors and adherence to the SB Bid requirements.
- M. Where applicable, bidders should carefully examine work sites and specifications. Bidders shall investigate conditions, character, and quality of surface or subsurface materials or obstacles that might be encountered. No additions or increases to the contract amount shall be made due to a lack of careful examination of work sites and specifications.
- N. All documents submitted in response to this solicitation will become the property of the State of California and may be subject to the California Public Records Act (Government Code section 6250 et seq.). This includes any contact information within the documents, including that of references. Additionally, to the extent that a bidder believes its bid contains trade secret or proprietary information intended to be confidential, it is the bidder's responsibility to identify and redact such information. A separate redacted copy of the bid must be submitted along with the original unredacted bid, and it will be the bidder's responsibility to defend any redactions should a requester dispute them under the Public Records Act. In the absence of a pre-redacted bid, the DMV will treat the entire bid as a public record, except any information the DMV is required to redact under California law.

6. Disposition of Bids

- A. All documents submitted in response to this SB Bid shall become the property of the State of California, and shall be regarded as public records under the California Public Records Act (Government Code Section 6250 et seq.). However, the contents of all proposals, draft bids, correspondence, agenda, memoranda, working papers, or any other medium which discloses any aspect of a bidder's bid, shall be held in the strictest confidence until notice of award is released. The content of all working papers and discussions relating to a bid shall be held in confidence indefinitely, unless the public's interest is best served by an item's disclosure because of its direct pertinence to a decision, agreement, or evaluation of a bid.

7. Evaluation and Selection

- A. Each bid shall be checked for the presence or absence of required information in conformance with the submission requirements of this SB Bid.
- B. The DMV shall put each bid through a process of evaluation to determine its responsiveness to the DMV's needs.

- C. A bidder may be deemed not responsible and their bid may be rejected if they have previously been terminated for cause/breach for the same or similar services at the location designated in this SB Bid.
- D. All bids may be rejected whenever the DMV determines that the cost is not reasonable or otherwise in the best interest of the DMV. There is no requirement to award a contract if, in the opinion of the DMV, no bids were received containing a reasonable contract price or if there is another business-based reason not to make an award.
- E. Bids that contain false or misleading statements, or which provide references that do not support an attribute or condition claimed by the bidder, may be rejected. If, in the opinion of the DMV, such information was intended to mislead the DMV in its evaluation of the bid, and the attribute, condition, or capability is a requirement of this SB Bid, it shall be the basis for rejection of the bid.
- F. A bid may be rejected if it is conditional or incomplete. The DMV may reject any or all bids and may waive any immaterial deviation in a bid. The DMV's waiver of immaterial defect shall in no way modify the SB Bid document or excuse the bidder from full compliance with all requirements if awarded the contract.
- G. A bid may be rejected if it contains any alterations of form or other irregularities of any kind. **The DMV does not accept alternate contract language from prospective contractors.** Bids with such language shall be considered a counter proposal and shall be rejected. The State's General Terms and Conditions (GTC) are not negotiable. The GTC may be viewed on the internet at: <http://www.dgs.ca.gov>.
- H. The final selection shall be made on the basis of the lowest responsible responsive bid. In the event there is tie, each of the tied bidders shall be contacted by the contact person indicated on the cover page of this SB Bid regarding a date and time for a flip of a coin. The bidder whose bid was received first shall make the call. Bidders or their authorized representative(s) are allowed to be present for the flip of the coin.

8. Notice of Contract Award

- A. The DMV shall email or mail bidding contractors a written notice of contract award.

9. Standard Conditions of Service

- A. Following the release of the written notice of contract award, the DMV shall email or mail the awarded contractor a prepared contract for signature that includes a cover letter instructing the awarded contractor on how to proceed. The policy shall include coverage for liabilities arising out of premises operations, independent contractors, products/completed operations, personal and advertising injury, and liability assumed under an insured contract. This insurance shall apply separately to each insured against whom claim is made or suit is brought subject to the Contractor's limit of liability.
- B. The insurance policy shall include the following additional insured endorsement that shall be under form acceptable to DGS, Office of Risk and Insurance Management (ORIM):
- (1). The State of California, its officers, agents and employees are included as additional insured, but only with respect to work performed for the State of California.

2. Worker's Compensation

- A. Employer liability limits of not less than \$1,000,000.00 are required if the awarded contractor employs any person, in any manner, that is subject to the Workers Compensation Laws of California. The awarded contractor shall maintain statutory workers compensation and employer's liability coverage for all of its employees who will be engaged in the performance of the contract. If the awarded contractor does not employ any person, in any manner, so as to not become subject to the Workers' Compensation laws of California, the awarded contractor shall contact the DMV Contract Administrator to request a Workers' Compensation Exemption Certification form. This form shall be completed by the awarded contractor and submitted to the DMV prior to approval of the contract.

- B. The awarded contractor's workers compensation insurance policy shall be endorsed with a waiver of subrogation in favor of the State of California in the event the awarded contractor employs any person, in any manner, that is subject to the Workers Compensation Laws of California.

11. Generative Artificial Intelligence (GenAI)

- A. The State of California seeks to realize the potential benefits of GenAI, through the development and deployment of GenAI tools, while balancing the risks of these new technologies.
- B. Bidder must notify the State in writing if it: (1) intends to provide GenAI as a deliverable to the State; or (2), intends to utilize GenAI, including GenAI from third parties, to complete all or a portion of any deliverable that materially impacts: (i) functionality of a State system, (ii) risk to the State, or (iii) Contract performance. For avoidance of doubt, the term "materially impacts" shall have the meaning set forth in State Administrative Manual (SAM) § 4986.2 Definitions for GenAI.
- C. Failure to report GenAI to the State may result in disqualification. The State reserves the right to seek any and all relief to which it may be entitled to as a result of such nondisclosure.
- D. Upon notification by a Bidder of GenAI as required, the State reserves the right to incorporate GenAI Special Provisions into the final contract or reject bids that present an unacceptable level of risk to the State.
- E. Government Code 11549.64 defines "Generative Artificial Intelligence (GenAI)" as an artificial intelligence system that can generate derived synthetic content, including text, images, video, and audio that emulates the structure and characteristics of the system's training data.
