Key Quality & Fitment Standards (Common Pitfalls to Avoid)

- No Veneers or MDF: The tabletop, apron, and legs must be constructed of 100% solid Mahogany lumber to ensure maximum durability and longevity.
- Wobble Prevention: Due to the 42" standing height, the corner joinery must be structurally reinforced (via the EasyBase or equivalent system) to prevent sway.
- Finish Uniformity: The finish must be applied evenly across all joints, undersides, and edges without pooling, runs, or rough spots.
