Definitions

Abandoned Property – Any privately-owned personal property which has come into the custody or control of any military department and which is unclaimed by the owner (DOD 4160.21-M).

Acceptable Quality Level (AQL) – A deviation from the standard. AQL is the minimum percentage of acceptable outcomes permitted by the Government without reduction to contractor fee or other action.

Accountability – The obligation to keep accurate and complete records of property, documents, or funds. Important data elements may include, but are not limited to identification data, gains, losses, due-ins, due-outs, and balances on hand or in use.

Accountable Officer (AO) – Person officially appointed in writing to maintain a formal set of accounting records of property or funds. This person may or may not have physical possession of the property or funds. Person also serves as the primary point of contact for technical guidance and is sometimes referred to as the Government AO. There are three types of logistics AOs.

a. Installation Transportation Officer (ITO) – may also be referred to as the Transportation Officer (TO) and is accountable for property entrusted to him or her for shipment.

b. Stock Record Officer (SRO) – accountable for supplies being held for issue from time of receipt until issued, shipped, or dropped from accountability.

c. Property Book Officer (PBO) – accountable for property upon receipt until subsequently turned-in, used (consumed) for authorized purposes, or dropped from accountability (hand receipt holders are not considered AO). Refer to AR 710-2, DA Pam 710-2-1, DA Pam 710-2-2, and AR 735-5.

Aerial Port of Embarkation/Debarkation (APOE/D) – A station that serves as an authorized port to process and clear aircraft and traffic for entrance to or departure from the country where located.

Army Oil Analysis Program (AOAP) – Program that provides specific information on types and amounts of contaminants present in engine and automatic transmission oils (water, antifreeze, dirt, and trace metals).

Astray Freight – Shipments or portions of shipments found in a carrier's possession or delivered to a Government activity for which billing is not available, or which is being held for any reason except transfer.

Annex E - Definitions, Acronyms & Abbreviations

Authorized Stockage List (ASL) – A list of items authorized to be stocked at a specific echelon of supply. This includes, but is not limited to prescribed load lists (PLL), Field Maintenance unit stockage lists, installation stockage lists, and maintenance shop stockage lists.

Automated Information Systems (AIS) – A collection of various logistics-related information management systems.

Basic Issue Item (BII) – Those essential ancillary items required to operate a piece of equipment and to enable it to perform the mission and function for which it was designed or intended.

Basis of Issue Plan (BOIP) – A planning document listing 100 percent of wartime requirements for units in which a new or improved item will be required. This includes the number of items to be assigned to each organizational element and other equipment/personnel changes needed to operate, maintain, or transport the item.

Bill of Lading (B/L) – Documentation used for transportation of shipments. It includes the commercial procedures related to the use of such documentation, and includes but is not limited to Government (GBL) and commercial bills of lading (CBL) issued by the Army as defined in DOD 4500.9-R.

Blocking, Bracing, Packing, Crating and Tie-Down (BBPCT) – Materials used to contain and immobilize materiel and equipment and provides for protection from damage during transportation. Also, personnel who control BBPCT materiel and perform blocking, bracing, packing, crating and tie-down functions.

Bulk Issue – An issue of bulk fuel into a transportation vehicle or storage tank that will subsequently be issued to a consuming end item of equipment (AR 710-2).

Calibration – The comparison of an instrument (measurement standard or item of test, measurement and diagnostic equipment) of unverified accuracy for detection and correction of any discrepancy in the accuracy of the unverified instrument.

Center of Excellence (COE) – A maintenance activity which repairs a Sustainment Maintenance repairable line for other installations in the III Corps Region under the National Maintenance Program.

Certification – One who has received a certificate or license stating he or she has met the minimum requirements for packaging and certification of hazards; fabricating, servicing, or repairing certain specific items; or the process of evaluating and validating oil analysis laboratory equipment and personnel.

Clearance – Authority permitting individuals performing Department of the Army work, and having a legitimate interest therein, access to classified technical information,

materiel, or equipment, or admission to restricted areas where such information or materiel is located.

Common Table of Allowances (CTA) – An authorization document for items of materiel required for common usage by individuals and/or Table of Organization and Equipment (TO&E), Table of Distribution and Allowances (TDA), or Joint Table of Allowance Units and activities Army-wide.

Component/Module – A combination of parts mounted together in manufacture, which may be tested, replaced as a unit, or repaired, such as a starter, generator or fuel pump.

Configuration – The functional/physical characteristics of hardware/software set forth in technical documentation and achieved in a product.

Consignee – The recipient (unit, depot, or person) of cargo addressed or consigned for final delivery. The activity designated to receive the product.

Consumable Items or Supplies – Those items that are consumed in use such as ammunition, fuel, cleaning and preserving materials or supplies that lose their separate identity when used for their intended purpose such as repair parts and building materials.

Continental United States (CONUS) – All areas within the borders of the United States excluding Hawaii and Alaska.

Contract Data Requirements List (CDRL) – Data required to be submitted by the contractor to the Government.

Contract Discrepancy Report (CDR) – A report used to document unsatisfactory contractor performance in accordance with the Performance Requirement Summary. The CDR requires the contractor to explain, in writing, why performance is unsatisfactory; how performance shall be returned to satisfactory levels; and how recurrence of the problem shall be prevented in the future.

Contract Administrator – The official Government representative delegated authority by the contracting officer to administer a contract. This individual, normally working in an appropriate contracting or procurement career field, advises on all technical contractual matters.

Contract Discrepancy – A failure of the contractor to perform in accordance with contract requirements and specifications. A contract discrepancy may result from a failure of the contractor to provide, or provide on time, the required contract products or services; or it may result because delivered products or services do not meet specific contract standards.

Contracting Officer's Representative (COR) – An individual designated in writing by the Contracting Officer to act as an authorized representative of the Contracting Officer to

perform specific contract administrative functions within the scope and limitations as defined by the Contracting Officer.

Contracting Officer (KO) – A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer.

Contractor Acquired Property (CAP) – Property acquired or otherwise provided by the contractor with funding provided in the contract and to which the Government has title.

Contractor – The contractor, its subsidiaries, subcontractors, and affiliates, joint ventures involving the contractor, or any entity with which the contractor may have merged or any individual or entity that assisted or advised the contractor in the preparation of proposal under this solicitation.

Contractor-Furnished Equipment (CFE) – That equipment the contractor is required to furnish in order to perform the requirements of the contract.

Contractor-Furnished Property (CFP) – That property the contractor is required to furnish in order to perform the requirements of the contract. The contractor retains title to all CFP. The term CFP includes contractor furnished equipment (CFE).

Contractor-Owned, Contractor-Operated (COCO) Equipment – Contractor purchased or leased equipment which the contractor uses and maintains to perform tasks under this contract.
Controlled Inventory Item Codes – abbreviation CIIC. A code that indicates the security classification and/or security or pilferage controls for storage and transportation of DoD assets.

Code	Explanation
A	Confidential - Formerly Restricted Data
B	Confidential - Restricted Data
C	Confidential
D	Confidential - Cryptologic
E	Secret - Cryptologic
F	Top Secret - Cryptologic
G	Secret - Formerly Restricted Data
H	Secret - Restricted Data
K	Top Secret - Formerly Restricted Data
L	Top Secret - Restricted Data
O	Item contains naval nuclear propulsion information; disposal and access limitations are identified in NAVSEAINST C5511.32. Store and handle so as to preclude unauthorized access to this material.
S	Secret

T	Top Secret
U	Unclassified
7	Item displays sensitive information. Prior to disposal, all name plates, label plates, meter face plates, tags, stickers, documents or markings that relate items to weapons system/end-item application must be removed and destroyed.
9	This code identifies an item as a Controlled Cryptographic Item (CCI). CCI is described as secure telecommunications or information-handling equipment, associated cryptographic components, or other hardware items that perform a critical COMSEC function. Items so designated are unclassified but controlled and will bear the designation "Controlled Cryptographic Item" or "CCI."

SENSITIVE ITEMS CODE: Materiel that requires a high degree of protection and control due to statutory requirements or regulations, such as narcotics and drug abuse items; precious metals; items that are of high value, highly technical, or of a hazardous nature; and small arms, ammunition, explosives, and demolition material.

Code	Explanation
1	Highest Sensitivity (Category I) - Nonnuclear missiles and rockets in a ready-to-fire configuration (for example, Hamlet, Redeye, Stinger, Dragon, LAW, and Viper) and explosive rounds for nonnuclear missiles and rockets. This category also applies in situations where the launcher (tube) and the explosive rounds, though not in a ready-to-fire configuration, jointly are stored or transported.
2	High Sensitivity (Category II) - Arms, ammunition, and explosives.
3	Moderate Sensitivity (Category III) - Arms, ammunition, and explosives.
4	Low Sensitivity (Category IV) - Arms, ammunition, and explosives.
5	Highest Sensitivity (Category I) - Arms, ammunition, and explosives with a physical security classification of Secret.
6	Highest Sensitivity (Category I) - Arms, ammunition, and explosives with a physical security classification of Confidential.
8	High Sensitivity (Category II) - Arms, ammunition, and explosives with a physical security classification of Confidential.
Q	An item that is a drug or other substance determined by the Administrator, Drug Enforcement Administration, or Department of Justice, to be designated Schedule Symbol III, IV, V, as defined in the Controlled Substance Act of 1970. Other items requiring secure storage.
R	Precious metals, a drug or other controlled substance designated as a Schedule I or II item in accordance with the Controlled Substance Act of 1970. Other selected sensitive items requiring storage in a vault or safe.
$	Identifies Nuclear Weapons Use Control (UC) Ground Equipment which is CIIC unclassified but may require special controls. Use Control Ground Equipment is described as re-coders, verifiers, adapters, power supplies, cables, programmers, monitors, controllers, code processors, power

converters, computers and data modules which perform a Nuclear Weapon Use Control Function.

Note:
Items coded 5, 6, or 8 will be stored and transported in accordance with the provisions of DoD 5100.76-M or DoD 5200.1-R, Information Security Program, whichever is more stringent.

PILFERAGE CODE: A code indicating the materiel has a ready resale value or civilian application for personal possession and, therefore, is especially subject to theft.

Code	Explanation
J	Pilferage - Pilferage controls may be designated by the coding activity to items coded U (Unclassified) by recording the item to J.
I	Aircraft engine equipment and parts
M	Hand tools and shop equipment
N	Firearms
P	Ammunition and explosives
V	Individual clothing and equipment
W	Office machines
X	Photographic equipment and supplies
Y	Communication/electronic equipment and parts
Z	Vehicular equipment and parts

Controlled Inventory Items – Items with characteristics requiring special identification accounting, security, or handling to ensure their safeguard. These items, in order of degree of control normally exercised, are as follows.

a. Classified Items – Materiel requiring protection in the interest of national security.

b. Sensitive Items – Materiel requiring a high degree of protection and control because of statutory requirements; high value, highly technical, or hazardous; and small arms, ammunition, explosives, and demolition materiel.

c. Pilferable Items – Materiel having ready resale value or civilian application to personal possession and especially subject to theft such as binoculars.

Defense Fuel Automated Management System (DFAMS) – An integrated materiel management program for bulk petroleum, oil and lubricants (POL) that provides accounting for bulk fuel received from all sources.

Department of Defense Activity Address Code (DODAAC) – A six-digit code that gives a delivery address for supplies and equipment.

Annex E - Definitions, Acronyms & Abbreviations

Depot Maintenance – Maintenance involving overhaul of economically repairable materiel to augment the procurement program in satisfying overall Army requirements and, when required, to provide for repair of materiel beyond the capability of Field Maintenance organizations.

Discrepancy – Disagreement between the quantities or condition of property on hand and that required to be on hand, as shown by an accountability record of the property, stock record balance or bill of lading. Refer to DA PAM 25-30 for specific definitions of supply discrepancies, and to DOD 4500.9-R for specific definitions of transportation discrepancies.

DLA Disposition Services (DLADS) (formerly the Defense Reutilization Marketing Office (DRMO)) – Activity which receives, processes, controls and disposes of Government property classified as excess, obsolete, or not economically repairable for the Department of Defense.

Customer – Any person or organization authorized to secure support services.

Dunnage – Loose material placed beneath or wedged among objects or materiel carried by commercial and military modes of transportation, to prevent injury or damage from chafing, moisture or to provide ventilation.

Durable Item – Item not consumed in use, but retaining its original identity and not characterized as expendable or non-expendable.

Environmental Protection – Formalized responsibilities, policies, and procedures established to preserve, protect, and restore the quality of water, land, and air.

Equipment – Articles needed to outfit an individual or organization. Clothing, tools, utensils, vehicles, weapons, and similar items are articles of equipment. Term is synonymous with "supplies", "material", and "materiel." Equipment is mobile, as opposed to real property which is attached.

Equipment Concentration Site (ECS) – An area for support of USAR and other authorized unit during Inactive Duty Training (IDT), Annual Training (AT), and mobilization.

Expendable Items or Supplies – Items that are consumed during normal use such as paint, rations, and office supplies; or are merged into another entity when used for their intended purpose, such as nuts, bolts, construction materials, and repair parts.

Fair Wear and Tear (FWT) – The loss or impairment of the appearance, effectiveness, worth, or utility of an item that has occurred solely because of the normal and customary use of the item for its intended purpose.

Federal Acquisition Regulation (FAR) – A Federal regulation establishing uniform policies for acquisition by all executive agencies.

Field Maintenance – Maintenance operations performed in accordance with AR 750-1.

Fiscal Year (FY) – The Government fiscal year begins every October 1st and ends the following September 30th. The fiscal year is designated by the calendar year in which it ends. For example, Fiscal Year 2010, abbreviated FY10, begins 1 Oct 09 and ends 30 Sep 10.

Government-Furnished Equipment (GFE) – A tangible item that is functionally complete for its intended purpose, durable, nonexpendable, and needed for the performance of a contract. Equipment is not intended for sale, and does not ordinarily lose its identity or become a component part of another article when put into use. Equipment does not include material, real property, special test equipment or special tooling.

Government-Furnished Property (GFP) – Property in the possession of, or directly acquired by, the Government and subsequently furnished to the contractor for performance of a contract. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance, overhaul, or modification. Government-furnished property also includes contractor-acquired property if the contractor-acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract.

Government/Army-Unique Training – Training deemed necessary for performance of a Government or Army contract that is available only through Government or Army schools, seminars, or conferences.

Hand Receipt – A signed document acknowledging acceptance of, and responsibility for, listed items of property that are issued for use and are to be returned (AR 710-2, AR 735-5, DA Pam 710-2-1).

Hazardous Material (HAZMAT) – Any material which has been determined by the Occupational Safety and Health Administration, Department of Transportation or military regulations under conditions incident to transportation or supply as capable of posing an unreasonable risk to health, safety, and property. Includes material classified as explosive, flammable, corrosive, combustible, porous, poisonous, compressed gas, toxic, radioactive, or unduly magnetic.

Hazardous Waste (HAZWASTE) – Waste materials that are toxic or poisonous, corrosive, irritating or sensitizing, radioactive, biologically infectious, explosive, or flammable and that present a hazard to human health and the environment (40 CFR).

Independent Contract – A Government contract that provides support and/or services related to but separate from another contract with the same Government customer.

Individual Equipment – Personal clothing and equipment issued for exclusive personal use of one individual.

Information Assurance Security Officer – A person who disseminates and ensures implementation of information assurance policy, guidance and training requirements.

Installation Property Book Office/Officer (IPBO) – The office or Government officer accountable for installation property listed in the Installation Property Book.

Inter-service Support Agreement (ISSA) – Used to establish which materiel or services one Government agency has agreed to provide another Government agency, along with agreed reimbursement.

ISO 9000 – A series of standards and guidelines, published by the International Standards Organization (ISO), that define the minimum requirements for an effective quality system accepted internationally.

ISO 14001 – A series of environmental management standards developed and published by the International Organization for Standardization.

Issue Procedures – Procedures for processing issuance of supplies are contained in AR 710-2 and DA Pam 710-2-2.

Julian Date – Method of annotating a date using the Julian Calendar, which numbers the days of the year from 001 through 365 (or 366 in years divisible by 4). The Julian date uses the last digit from the current year plus the 3-digit number for the day. For example, the Julian date for November 3, 1995 would be 5307.

Left Behind Equipment (LBE) – Unit equipment that is left behind when the unit deploys, and the equipment is maintained by ASC.

Logistics Information Systems – A collection of various logistics-related information management systems.

~~Logistics Automated Information Systems (AIS) – A collection of various logistics-related information management systems.~~

Lock Out/Tag Out – Refers to the requirement to deactivate, disconnect, or otherwise render inoperative and tag to indicate this action has been accomplished any stored energy, such as electrical, hydraulic, spring tension, etc., while work is being performed on facilities or equipment affected by that stored energy (FBGA Reg385-1).

Logistics Support Services – Those activities that support a unit or installation through provision of transportation, subsistence, billeting, and equipment maintenance.

Maintenance Expenditure Limit (MEL) – MEL is the total allowable one-time cost to restore and end item, major component, or repairable component to a fully serviceable

condition as prescribed in the appropriate technical manual or technical bulletin (TB 43-0002 series).

Marking – The application of numbers, letters, labels, tags, symbols, or colors for handling or identifying during shipment and storage.

Materiel – Property necessary to equip, maintain, operate, and support military activities. May be used either for administrative or combat purposes.

Material Handling Equipment (MHE) – Mechanical devices for handling supplies with greater ease and economy, such as cranes, forklift trucks, and motorized pallet jacks.

Materiel Condition Status Report (DA Form 2406) – Report that gives the overall status of a unit's assigned equipment.

Materiel Maintenance – The function of sustaining materiel in an operational status, restoring it to a serviceable condition, or updating its functional usefulness through modification or other alteration.

Materiel System – An item, aggregate of items (system), or aggregate of systems of weapons, equipment, or related supplies.

Military Sealift Command – The single DOD operating agency responsible for providing DOD sealift services.

Military Surface Deployment and Distribution Command (SDDC) – The single DOD operating agency responsible for military traffic management, land transportation, and common-user ocean terminals.

Mobilization and Training Equipment Sites (MATES) – An ARNG TDA maintenance facility that provides support in conduct of maintenance training.

Movement Control Center (MCC) – A centralization location responsible for coordination and oversight of Division, Theater, or Installation military traffic.

National Maintenance Program (NMP) – The Army’s strategy to move to a centrally coordinated and controlled, repair-based logistics system. Distribution-based maintenance operations are identified as: operator and/or crew maintenance, field maintenance, and sustainment maintenance (formerly known as national maintenance). Sustainment maintenance consists of tactical, installation and depot activities and is characterized by repair to a single standard, that is, the national standard, and return to stock.

Operational Project Stocks – On-hand supplies above normal allowances to support specific operations, contingencies, and war plans.

Annex E - Definitions, Acronyms & Abbreviations

Operational Rations – Specially designed rations, normally composed of non-perishable items, for use under actual or simulated combat conditions.

Operational Readiness Float (ORF) – A quantity of selected end items or major components of equipment authorized for stockage at CONUS installations and overseas support maintenance activities to extend their capability to respond to the materiel readiness requirements of supported activities.

Organizational Clothing and Individual Equipment (OCIE) – Personal clothing and equipment issued for the exclusive personal use of an individual (CTA 50 900).

Overhaul – Restoration of an item to a complete serviceable condition, normally accomplished at a depot, as prescribed by maintenance serviceable standards.

Pass-back – Back-up maintenance support provided to tactical units that are unable to maintain their own equipment.

Performance Requirements Summary (PRS) – A synopsis of the scope of work and output performance measurements as described in the Performance Work Statement (PWS). The output and requirements in the PRS is the basis of the Quality Assurance Surveillance Plan.

Pilferable Items – See Controlled Inventory Items.

Prescribed Load List (PLL) – The quantity of combat-essential supplies and repair parts (other than ammunition) authorized to be on-hand in units and which is carried by individuals or on unit vehicles to enable a unit to sustain itself until re-supply can be effected.

Preventive Maintenance Checks and Services (PMCS) – Care, servicing, inspection, detection, and correction of minor faults before these faults cause serious damage, failure, or injury.

Productive Direct and Indirect Labor Hours – Historical labor hours used in the performance of contract tasks. These hours do not include supervision or management hours.

Property Administrator (PA) – The Government authorized representative of the contracting officer who is responsible for administering the contract requirements and obligations relating to Government property in the possession of a contractor.

Push Package – Pre-configured supply packages designed to meet specific customer needs or missions, require no requisition from customers, and are not demand supported.

Quality Deficiency Report – The authorized means of users of Army equipment to report faults in equipment design, operations, and manufacture.

Rebuild – To restore an item to a standard as nearly as possible to original or new condition in appearance, performance, and life expectancy.

Recycle Job – A job that was not accepted by the Government because a particular task was not identified in the contractor's inspection process and therefore no work was performed on that item.

Reimbursable Work – Work assigned to the organization from other Government organizations under various agreements or programs, such as ISSAs, for which the applicable organization is reimbursed by the customer organization.

Reorder Point – Minimum level of inventory at which a new order must be placed.

Repair – The restoration or replacement of parts and units to maintain efficient operating conditions.

Repairable – Class IX secondary items that carry maintenance repair code (MRC) "D," "F," "H," or "L."

Requisitioning Objective – The maximum quantities of materiel to be maintained on hand and on order to sustain current operations.

Responsible Officer – A contractor individual required to sign for facilities and furnishings.

Rework – Any effort required to be done based on rejection by Government Quality Assurance (QA) personnel or the customer. Rework is performed at an additional cost to resolve the QA or customer identified faults that represent a failure to meet the repair standard. Rework for maintenance efforts will be recorded in the LIS using status code 8 IAW GCSS-A end user manual.

Rework Job – A notification from the Government or customer to the contractor of tasks not performed to standard.

Sea Port of Embarkation/Debarkation (SPOE/D) – Includes dock, wharf, pier, or berth at which cargo is loaded aboard or discharged from a ship, including the carrier's port terminal facility or warehouse serving the port.

Sensitive Items – See Controlled Inventory Items.

Source Requirements Document (SRD) –The basic document that describes an external customer's requirement for work to be performed within the scope of the PWS; becomes part of the documentation required to order tasks under or modify the contract.

Annex E - Definitions, Acronyms & Abbreviations

Specialized Repair Activity (SRA) – A GS maintenance unit or activity that performs depot levels of repair using authorized special tools and test equipment on DA-designated items coded “D” or “L” in maintenance allocation charts.

Standard Operating Procedures (SOP) –

a. External SOP – Standardized set of procedures developed by the contractor that must be adhered to by customers to ensure compliance with regulatory requirements and the PWS.

b. Internal SOP – Standardized set of work station procedures developed by the contractor which provides specific details about how work is to be accomplished by contractor personnel to maintain compliance with PWS requirements and ISO 9001:2008.

Stock Record Account (SRA) – A holding account for stocks in the pipeline used by activities with a supply support mission to service their customer units.

Supply Point Distribution – The method of distributing supplies in which the receiving unit is issued its supplies at a central location (depot, railhead, truck head, or distribution point) and moves supplies using organic transportation assets.

Supply Support Activity (SSA) – An activity assigned a DODAAC and having a supply support mission (field/sustainment maintenance, supply and transportation, supply and services).

Sustainment Maintenance – Maintenance operations performed in accordance with AR 750-1.

SYNCADA – A web based payment system that allows carriers to electronically monitor/report shipment status/receipt information and resolve invoice exceptions.

Table of Distribution and Allowances (TDA) – A table that prescribes the organizational structure, personnel, and equipment authorizations and requirements of a military unit to perform a specific mission for which there is no appropriate Table of Organization and Equipment.

Technical Manual (TM) – A publication providing detailed treatment of specific subjects considered necessary for full accomplishment of required training on, or proper use and maintenance of a particular piece of equipment. A technical manual also contains descriptions of materiel and instructions for operation, handling, maintenance, and repair.

Technical Inspection (TI) – Inspections of equipment and weapons to determine whether they are serviceable for continued use, whether repairs are necessary, whether repairs in process are being performed properly, and whether all required repairs were performed satisfactorily.

Temporary Work Places – All buildings external to the main designated buildings, to include motor pools used by the contractor while the unit is deployed. All buildings will be located on INSERT LOCATION HERE, and all places will be Government owned.

Test, Measurement, and Diagnostic Equipment (TMDE) – Any system or device capable of being used to evaluate the operational condition of a system or equipment to identify and isolate any actual or potential malfunction.

The Army Maintenance Management System (TAMMS) – The Army's prescribed method for preparation and administration of forms and records required to manage maintenance, control the use of, and report warrant actions and deficiencies on Army equipment (DA PAM 750-8).

Unit-Maintained Equipment – Equipment generally maintained by FORSCOM Units but may still require maintenance by the contractor if the unit doesn't have the necessary skills available.

Unit Maintenance – Maintenance operations that are normally assigned to the organizational category (AR 750-1).

Workload:

> Planned – Predictable work requirements that were previously planned or programmed. This includes cyclical multi-year surge requirements that result in normal workload fluctuations.
>
> Unplanned – Unpredictable work requirements that had not been previously planned or programmed but require prompt attention and must be added to, integrated with, or substituted for previously scheduled normal workloads.
>
> Surge – The ability to rapidly accelerate production to meet unplanned workload requirements due to a rapid or abrupt escalation in military requirements with existing facilities and equipment.
>
> Fluctuation – An instance of change (increase or decrease) in the normal workload that may require temporary shifting of personnel resources to satisfy the changing needs or priorities.

Acronyms & Abbreviations

A&E	Ammunition and Explosives
A/DACG	Arrival/Departure Airfield Control Group
AA&E	Arms, Ammunition and Explosives

Annex E - Definitions, Acronyms & Abbreviations

AAA	Army Audit Agency
AAR	Association of American Railroads or After Action Reports
ABF	Availability Balance File
ABF-UP	Availability Balance File Update
ACA	Airlift Clearance Authority
ACC	Army Contracting Command
ACIFS	Army Central Issue Facility System
ACL	Access Control List or Administrative Change Letter
ACO	Administrative Contracting Officer
ACOD	Actual Cost of Damage
ACOEI	Associated Components of the End Item
ACoS	Assistant Chief of Staff
ACRN	Accounting Classification Reference Number
ACSA	Acquisition and Cross-Servicing Agreement
ACSIM	Assistant Chief for Installation Management

CM	Consequence Management
CMB	Contractor Main Body
CMP	Contractor Management Plan
CMRE	CENTCOM Material Retrograde Element
CMSP	Consequence Management Support Plan
CO	Change Order
COA	Course(s)of Action
COB	Close of Business or Contingency Operating Base
COCO	Contractor-Owned, Contractor-Operated
COE	Center of Excellence, Corps of Engineers or Concept of Execution
COEI	Components of End Items

CofS	Chief of Staff
COIC	Command Operations Information Center
COIN	Counter insurgency Operations
COM	Chief of Mission
COMMZ	Communication Zone
COMPASS	Computerized Movement Planning and Status System
COMPUSEC	Computer Security
COMSEC	Communications Security
CONEX	Container Express
CONPLAN	Concept Plan
CONUS	Continental United States
COP	Common Operating Picture ~~or Coalition Out-Post~~
COR	Contracting Officer's Representative
COSCOM	Corps Support Command
COSIS	Care of Supplies in Storage/Stocks in Storage
COTR	Contracting Officer's Technical Representative
COTS	Commercial-off-the-Shelf
CPAC	Corrosion Prevention and Control
CPAF	Cost-Plus-Award-Fee
CPFF	Cost-Plus-Fixed Fee
CPIT	Corporate Phase-In Team
CPX	Command Post Exercise
CRAF	Civilian Reserve Air Fleet
CRC	CONUS Readiness Center
CRSP	Central Receiving and Shipping Point
CRSP	Central Receiving Shipping Point
CS	Combat Support
CSB	Contracting Support Brigade
CSC	Convention for Safe Containers
CSDP	Command Supply Discipline Program
CSIP	Contract Support Integration Plan
CSL	Cooperative Security location
CSR	Contract Service Request
CSRL	Customer Service Request Letter
CSS	Combat Service Support
CSSB	Combat Sustainment Support Battalion
CSSR	Cost/Schedule Status Report
CTA	Common Table of Allowances
CTASC	Corps/Theater Automated Data Process Service Center
CTE	Culminating Training Event
CTP	CLSS, TTM, Postal

CULT	Common-User Land Transportation
CUV	Commercial Utility Vehicle
CVE	Combat Vehicle Evaluation
CWC	Commission on Wartime Contracting
CY	Calendar Year
D&F	Determination and Finding
DA	Department of the Army
DA PAM	Department of Army Pamphlet
DAASC	Defense Automated Addressing System Center
DAMES	Defense Automated Message Exchange System
DAO	Defense Accounting Office
DAP	Designated Contractor Acquired Property
DARMS	Developmental Army Readiness & Mobilization System
DAU	Defense Acquisition University
DBA	Defense Base Act
DBOF	Defense Business Operating Fund
DCA	Defense Cooperation Agreements
DCAA	Defense Contracting Audit Agency
DCG	Deputy Commanding General
DCIS	Department of Consumer and Industry Services
DCMA	Defense Contract Management Agency
DCO	Deputy Commanding Officer
DDD	Desired Delivery Date
DDD	Drug Detection Dog
DDN	Defense Digital Network
DEIS	Defense Energy Information System
DEMIL	Demilitarization
DEMSTAT	Deployment/Employment Mobilization Status System
DES	Directorate of Emergency Services
DFAC	Dining Facility
DFAMS	Defense Fuel Automated Management System
DFARS	Defense Federal Acquisition Regulation Supplement
DFARS	Defense Acquisition Regulation Supplement
DFAS	Defense Finance Accounting System
DFSC	Defense Fuel Supply Center
DGR	Designated Government Representative
DLA	Defense Logistics Agency
DLADS	Defense Logistics Agency Disposition Services
DOC	Director or Directorate of Contracting
DOD	Department of Defense
DODAAC	Department of Defense Activity Address Code

DODD	Department of Defense Directive
DODI	Department of Defense Issuance
DODIC	Department of Defense Identification Code
DODIG	Department of Defense Inspector General
DODX	Department of Defense Extra (DOD rail car fleet)
DOL	Director of Logistics
DoS/DOS	Department of State or Day of Supply
DOT	Department of Transportation
DPD	Deputy Program Director
DPO	Diplomatic Post Office
DPW	Directorate of Public Works or Dept. of Public Works
DRCG	Deployment Rail Control Group
DRM	Director or Directorate of Resource Management
DRMO	Defense Reutilization and Marketing Office
DRRF	Deployment Readiness Reaction Field
DS	Direct Support
DTG	Date Time Group
DTR	Defense Transportation Regulations
DVD	Direct Vendor Delivery
DX	Direct Exchange
EAB	Echelon Above Brigade
EAC	Estimate At Completion
EAD	Estimated Arrival Date
EAGLE	Enhanced Army Global Logistics Enterprise
EBO	Embassy Branch Offices
E-BOM	Engineering Bill of Materials
ECA	Expeditionary Contract Administration
ECD	Environmental Compliance Designee
ECO	Emergency Change Order
ECOD	Estimated Cost of Damage
ECP	Engineering Change Proposal, Emergency Change Procedure or Entry Control Point
ECS	Equipment Concentration Sites
EDD	Explosive Detection Dog
EDRE	Emergency Deployment Readiness Exercise
EEM	Early Entry Module
EEO	Equal Employment Opportunity
EKT	Expeditionary Kitchen Tents
ELSG	Executive Level Steering Group
EMASSA	Embassy Military Attaché and Security Assistance Annex
EO	Executive Order
EOC	Emergency Operations Center

EOM	End of Mission or Month
EPA	Environmental Protection Agency
ESC	Expeditionary Sustainment Command
ESI	Energy Strategic Initiative
ESMD	Exercise Support Manning Document
ETS	Expiration Term of Service
EUCOM	United States European Command
FAR	Federal Acquisition Regulation
FARP	Forward Area Refuel Point and Forward Arming Refueling Point
FAST	Forward Area Support Team
FDCO	Forward Deployment Center Operations
FEDLOG	Federal Logistics
FEPP	Foreign Excess Personal Property
FERP	Foreign Excess Real Property
FEST	Forward Engineer Support Team
FIDC	Force Integration De-processing Center
FIFO	First in, first out
FISO	Force Integration Support Office
FM	Field Manual
FMC	Fully Mission Capable
FMMC	FORSCOM Materiel Management Center
FMO	Furnishings Management Office
FMS	Foreign Military Sale
FOB	Forward Operating Base
FOC	Full Operational Capability
FOI	Found on Installation
FORMDEPS	FORSCOM Mobilization and Deployment Planning System
FORSCOM	U.S. Army Forces Command
FOS	Forward Operating Site
FP	Force Protection or Force Provider
FPOP	Funded Period of Performance
FRA	Federal Railway Administration
FRC	FORSCOM Redistribution Center
FSA	Forward Support Area
FSR	Field Service Representative
FTE	Full-Time Equivalent
FTS	Federal Telephone Service
FTX	Field Training Exercise
FUB	Facility Utilization Board
FWT	Fair Wear and Tear
FY	Fiscal Year

G&A	General and Administrative
GAO	Government Accountability Office
GATES	Global Air Transportation Execution System
GCC	Geographical Combatant Command
GCSS-A	Global Combat Support System-Army
GENSET	Generator Set
GFE	Government-Furnished Equipment
GFF	Government-Furnished Facilities
GFM	Government-Furnished Materiel or Global Freight Management
GFM	Government Furnished Material or Global Freight Management
GFP	Government-Furnished Property
GLASS	Global Logistics and Acquisition Service Support
GOGO	Government-Owned, Government-Operated
GoI	Government of Iraq
GOSC	General Officer Steering Committee
GRD	Gulf Region District
GRM	Garrison Resource Management
GS	General Schedule
GSA	General Services Administration
GTN	Global Transportation Network
HAZCOM	Hazard Communication
HAZCON	Hazardous Condition(s)
HAZMAT	Hazardous Materials
HAZWOPER	Hazardous Waste Operations and Emergency Response
HCA	Head of Contracting Activity or Authority
HMCC	Hazardous Materials Control Center
HMIS	Hazardous Material Information System
HN	Host Nation
HNS	Host Nation Support
HQ	Headquarters
HQDA	Headquarters, Department of the Army
HR	Hand Receipt
HRC	Human Resource Command
HVAC	Heating, Ventilation and Air Conditioning
HW	Hazardous Waste
I&C	Inspection and Classification
I/TDA	Installation/Table of Distribution and Allowances
IAR	Inventory and Adjustment Report
IASO	Information Assurance Security Officer
IATA	International Air Transportation Association
IAW	In Accordance With

IBS	Integrated Booking System
ICE	Independent Cost Estimate
ICEMP	Individual Chemical Equipment Management Program
ICP	Inventory Control Point
ICW	In Conjunction With
ID	Identification
IDS	Intrusion Detection System
IG	Inspector General
IGCE	Independent Government Cost Estimate
ILAP	Integrated Logistics Analysis Program
ILSP	Integrated Logistics Support Plans
ILSS	Integrated Logistics Service and Support
IMMO	Installation Materiel Management Officer or Office
IMP	Integrated Management Plan
IMPAC	International Merchant Purchase Authorization Card
INL	International Narcotics and Law Enforcement
IOC	Initial Operational Capability
IOP	Internal Operating Procedure
IOT	In Order To
IPB	Installation Property Book
IPB	Installation Planning Board
IPBO	Installation Property Book Office/Officer
IPD	Issue Priority Designator
IPR	In-Progress Review
IRC	Initial Ready Company
IS3	Installation Supply Serialization System
ISB	Intermediate Staging Base
ISCP	Installation Spill Contingency Plan
ISM	Installation Support Module
ISO	International Standards Organization
ISO	Installation Supply Officer
ISO	In Support Of
ISR	Installation Situation Report
ISSA	Inter-Service Support Agreement
ISSO	Information Systems Security Officer
ITO	Installation Transportation Office/Officer
IVO	In Vicinity Of
JCASO	Joint Contingency Acquisition Support Office
JCC	Joint Contingency Contracting System
JCOP	Joint Combat Outpost
JCSB	Joint Contracting Support Board

JDC	Joint Distribution Center
JFC	Joint Force Commander
JFUB	Joint Facilities Utilization Board
JFUB	Joint Facility Utilization Board
JIC	Joint Information Center
JM&L	Joint Munitions and Lethality
JMMT	Joint Military Mail Terminal
JMR	Joint Movement Request
JNMF	Joint National Maintenance Facility
JOA	Joint Operations Area
JOAP	Joint Oil Analysis Program
JOC	Job Order Contract
JOCHQ	Joint Operation Corps Headquarters
JOPES	Joint Operational Planning and Execution System
JP	Joint Publication
JRTC	Joint Readiness Training Center
JRRB	Joint Requirements Review Board
JSLIST	Joint Service Lightweight Integrated Suit Technology
JTF	Joint Task Force
JTR	Joint Travel Regulation
KO	Contracting Officer
KTR	Contractor
KTR	Performance Contractor
LACO	Lead Administrative Contracting Officer
LAMS	Large Area Maintenance Shelter
LAN	Local Area Network
LAP	Logistics Assistance Program
LBE	Left Behind Equipment
LHS	Life, Health, Safety
LIN	Line Item Number
~~LIS~~	~~Logistics Information System~~
LIS	Logistics Information System
LMR	Land Mobile Radio
LMS	Logistic Management Specialist
LN	Local Nationals
LNTP	Limited Notice to Proceed
LO	Lubrication Order
LOA	Letter of Authorization
LOC	Lines of Communication
LOE	Lines of Effort
LOGCAP	Logistics Civil Augmentation Program

LOGMARS	Logistics Marking and Reading Symbols System
LOGSA	Logistics Support Activity
LOI	Letter of Instruction orLetter of Increase
LOJ	Letter of Justification
LOO	Lines of Operation
LOTD	Letter of Technical Direction
LOW	Letter of Warning
LP	Local Purchase
LRC	Logistics Readiness Center or LOGCAP Requirements Checklist
LSA	Logistics Support Area
LSB	LOGCAP Support Brigade
LSB	Logistics Support Base
LSE	Logistics Support Element
LSG	Logistic Support Group
LSO	LOGCAP (or Logistics) Support Officer
MAC	Maintenance Allocation Charts
MACOM	Major U.S. Army Command
MARCENT	Marine Central Command
MAT CAT	Materiel Category
MATES	Mobilization and Training Equipment Site
MC	Mission Command
MCC	Movement Control Center
MCTGD	Movement Control Team Ground
MDC	Magazine Data Card
MDEP	Management Decision Execution Package
MEDCOM	United States Army Medical Command
MEDDAC	Medical Activity
MEF	Marine Expeditionary Force
MEJA	Military Extraterritorial Jurisdiction Act
MEL	Maintenance Expenditure Limit
MEP	Mobile Electric Power
METT-TC	Mission, Enemy, Time, Terrain, Troops, and Civilians
MFGI	Mobilization Force Generation Initative
MHE	Material Handling Equipment
MIG	Metal-Inert-Gas
MILCON	Military Construction
MILSPEC	Military Specifications
MILSTAMP	Military Standard Transportation and Movement Procedures
MILSTRIP	Military Standard Requisition and Issue Procedures
MILVAN	Military Van
MIPR	Military Interdepartmental Purchase Request

MMC	Materiel Management Center
MMS	Materiel Management Section
MND	Multi-National Division
MNFI	Multi-National Forces Iraq
MOA	Memorandum of Agreement
MOC	Maintenance Operational Check
MOI	Memorandum of Instruction
MOOTW	Military Operations Other Than War
MOS	Military Occupation Specialty
MOU	Memorandum of Understanding
MP	Military Police
MRC	Maintenance Repair Code
MRD	Materiel Release Denial
MRE	Meals, Ready to Eat
MRF	Manager Review File
MRO	Material Release Order
MROCS	Material Release Order Confirmation System
MRT	Mobile Response Team
MSA	Mine Safety Appliance
MSC	Major Subordinate Command or Military Sealift Command
MSDS	Material Safety Data Sheet * SEE SDS
MSE	Mobile Subscriber Equipment
MSEL	Master Scenario Events List
MSL	Military Shipping Label
MSOW	Master Schedule of Work
MSR	Main Supply Route
MTTR	Mean Time to Repair
MWO	Modification Work Order
MWR	Morale, Welfare and Recreation
NATO	North Atlantic Treaty Organization
NAVFAC	Naval Facilities Command
NAVSUP	Naval Supply Command
NBC	Nuclear, Biological, and Chemical
NCR	Non-Conformance Report
NDAA	National Defense Authorization Act
NDI	Non-Destructive Inspection
NGO	Non-Governmental Organization
NICP	National Inventory Control Point
NISM	National Industrial Security Management
NLT	Not later than
N-M IRDO	Nonmilitary Individual Replacement Deployment Operations

NMC	Non Mission Capable
NMP	National Maintenance Program
NMSSA	National Maintenance Supply Support Activity
NORTHCOM	United States Northern Command
NRTS	Not Repairable This Station
NSCE	Negotiated Services Cost Estimate
NSN	National Stock Number
NTC	National Training Center
NTP	Notice to Proceed
NTV	Non-tactical vehicles
NTWV	Non-Tactical Wheel Vehicle
OBB	Operational Basing Board
OCAR	Office of the Chief, Army Reserve
OCF	Operation Continuing Freedom
OCIE	Organizational Clothing and Individual Equipment
OCO	Overseas Contingency Operations
OCONUS	Outside of Continental United States
OCS	Operational Contract Support
OCSDC	Operational Support Contract Drawdown Cell
ODA	Operational Detachment “A” (Higher Headquarters)
ODC	Office of Defense Cooperation
ODC	Other Direct Costs
OE	Operational Energy
OEF	Operation Enduring Freedom
OF	Optional Form
OGA	Other Governmental Agency
OIF	Operation Iraqi Freedom
OILs	Observations, Insights, and Lessons Learned
OJT	On-the-Job Training
OMA	Operations and Maintenance, Army
ONS	Operational Needs Statement
OOC	Operation Observant Compass
OOS	Other Organizational Support
MOOTW	Military Operations Other Than War
OP	Operation
OPA	Other Procurement, Army
OPCEN	Operations Center
OPFUND	Operational Fund
OPLAN	Operations Plan
OPORD/ OPORDER	Operations Order
OPS	Operations

OPT	Operational Planning Team
ORF	Operational Readiness Float
OSC	Objective Supply Capability or Office of Security Cooperation
OSD	Office, Secretary of Defense
OSHA	Occupational Safety and Health Administration
OY	Option Year
PACOM	United States Pacific Command
PAM	Pamphlet
PAP	Property Allocation Plan
PARC	Principal Assistant Responsible for Contracting
PAT	Process Action Team
PB	Patrol Base
PBO	Property Book Office/Officer
PBUSE	Property Book Unit Supply Enhanced
PCARSS	Plant Clearance Automated Reutilization Screening System
PCN	Post Closure Notification
PCO	Procuring Contracting Officer
PCS	Property Control System
PCSA	Property Control System Analysis
PDD	Part Delivery Date
PDMF	Packing Data Microform File
PDREP	Product Data Reporting and Evaluation Program
PDTE	Pre-Deployment Training Equipment
PEB	Performance Evaluation Board
PICA	Primary Inventory Control Activity
PII	Personal Identifying Information
PIM	Project Information Management
PLA	Project Level Accounting
PLL	Prescribed Load Lists
PM	Project Manager
PMCS	Preventive Maintenance Checks and Services
PME	Professional Military Education
PM-NOC	Prime Minister- National Operations Center
PMO	Provost Marshall Office or Program Management Office
PMO	Project Management Office
PMSA	Property Management System analysis
POC	Point-of-Contact
POI	Program of Instruction
POL	Petroleum, Oil, and Lubricants
POM	Program Objective Memorandum
POP	Performance Oriented Packaging

POP	Period of Performance
POTUS	President of the United States
PPBES	Planning, Programming, Budgeting, and Execution System
PPC	Production Planning and Control
PPE	Personal Protective Equipment or Program (or Project) Planning Estimate
PPI	Procurement Package Input
PPP	Power Projection Platform
PPR	Program (or Project) Planning Request
PPS	Project Planning Scope
PR	Problem Report
PRON	Procurement Request Order Number
PRP	Property Reallocation Plan
PRR	Property Reallocation Report
PRS	Performance Requirements Summary
PRT	Provincial Reconstruction Teams
PSA	Port Support Activity
PWS	Performance Work Statement
PX	Post Exchange
QA	Quality Assurance
QAR	Quality Assurance Representative
QASAS	Quality Assurance Specialist Ammunition Surveillance
QASP	Quality Assurance Surveillance Plan
QC	Quality Control
QCP	Quality Control Plan or Program
QD	Quantity Distance
QDR	Quality Deficiency Record
R&D	Research & Development
R&U	Repair and Utilities
RA	Requiring Activity
RAS	Regionally Available Support
RC	Reserve Components (U.S. Army Reserve)
RCC	Regional Contracting Center
RCS	Reserve Component Support
RCSS	Reserve Component Support Services or Stocks
RDD	Required Delivery Date
RDECOM	Research Development and Engineering Command
RDT&E	Research, Development, Test & Evaluation
REG	Regulation
REO	Regional Embassy Office
REPSHIP	Report of Shipment
REQVAL	Requisition Validation

RFI	Request for Information or Released for Issue
RFP	Request for Proposal
RIA	Rock Island Arsenal
RIC	Routing Identifier Code
RICC	Reportable Item Control Code or Rock Island Contracting Center
RLB	Re-locatable Building
RLL	Regional LOGCAP Lead
RM	Resource Manager
RMP	Regional Management Plans
RO	Requisitioning Objective
ROE	Rules of Engagement
ROM	Rough Order of Magnitude
ROP	Reorder Point
RoR	Relief of Responsibility
RO-RO	Roll-On-Roll-Off
ROTC	Reserve Officer Training Corps
ROWPU	Reverse Osmosis Water Purification Unit
RPAT	Redistribution Property Accountability Team
RPO	Radiological Protection Officer
RRT	Regional Reconstruction Teams
RSC	Reserve Support Center
RSM	Resolute Support Mission
RSOI	Reception, Staging, Onward-movement & Integration
RSY	Retro Sort Yard
RTCH	Rough-Terrain Container Handler
S&RTS	Stevedore and Related Terminal Services
S&S	Supply and Services
SA	Secretary of the Army , Situational Awareness or Stockage Authorization
SAAS	Standard Army Ammunition System
SAEDA	Subversion and Espionage Directed Against the U.S. Army
SAMS	Standard Army Maintenance System
SAMS-I	Standard Army Maintenance System-Installation
SAP	Satellite Accumulation Point
SAPM	Satellite Accumulation Point Manager
SARSS	Standard Army Retail Supply System
SARSS-O	Standard Army Retail Supply System-Objective
SASMO	Sustainment Automation Support Management Office
SASO	Small Arms Serialization Officer
SB	Supply Bulletin
SCP	System Change Package
SDDC	Surface Deployment and Distribution Command

SDDCTEA	Military Surface Deployment and Distribution Command Transportation Engineering Agency
SDS	Safety Data Sheet * Formally known as a Material Safety Data Sheet
SEDRE	Sea Emergency Deployment Readiness Exercises
SF	Standard Form
SICA	Secondary Inventory Control Activity
SIGINT	Signal Intelligence
SIMS-X	Selected Items Management System, Expanded
SIPR	Secure Internet Protocol Router
SITREP	Situation Report
SJA	Staff Judge Advocate
SJA	Strategy Justification and Approval
SME	Subject Matter Expert
SO	Stockage Objectives
SOCCENT	Special Operations Command Central
SOFA	Status of Forces Agreement
SOP	Standing Operating Procedure(s)
SOS	Source of Supply
SOTF	Special Operations Task Force
SOUTHCOM	United States Southern Command
SOW	Statement of Work
SPBS-R	Standard Property Book System (Redesigned)
SPCCP	Spill Prevention Control and Countermeasures Plan
SPLC	Standard Point Location Code
SPO	Special Purchase Order
SPOD	Sea Port of Debarkation
SPOE/D	Sea Port of Embarkation/Debarkation
SPOT	Synchronized Pre-Deployment & Operational Tracker
SRA	Specialized Repair Activity or Stock Record Account
SRD	Source Requirement Document
SRY	Sort Re-sort Yard
SSA	Supply Support Activity
SSC	Small Scale Contingencies
SSOP	Sustainment & Stability Operation Program
SSSI	Strategic Security Solutions International
STAMIS	Standard Army Management Information System
STANFINS	Standard Financial System
STARFIARS	Standard Army Financial Inventory Accounting and Reporting System
STARPUBS DDN	Standard Army Publications Defense Digital Network
STX	Situational Training Exercise
SWA	South West Asia
SWEA	South West Expansion Area

SWMC	Solid Waste Management Complex
TAA	Total Army Analysis
TAC	Transportation Account Code
TACO	Theater Administrative Contracting Officer
TACOM	Tank and Automotive Command
TAMMS	The Army Maintenance Management System
TAPS	Terminal Applications Processing System
TARDEC	Tank and Automotive Research, Development and Engineering Center
TASMG	Theater Aviation Sustainment Maintenance Group
TASS	Trusted Associate Sponsorship System
TB	Technical Bulletin or Tactical Base
TBD	To Be Determined
TCAIMS	Transportation Coordinator's Automated Information for Movements System
TCMD	Transportation Control and Movement Document
TCN	Transportation Control Number or Third Country National
TDA	Table of Distribution and Allowances
TDR	Transportation Discrepancy Report
TDY	Temporary Duty
TE	Technical Exhibit or Technical Evaluation
TEC	Training Event Code
TEM	Technical Evaluation Meeting
TEP	Technical Execution Plan
TEP	Technical Engineering Plan
TEU	Twenty-foot container Equivalent Unit
TF	Task Force
TFOP	Theater Force Opening Package
TI	Technical Inspection
TIG	Tungsten-Inert-Gas
TISA	Troop Issue Subsistence Activity
TK4	In Transit Data Card (MILSTAMP/MILSTRIP)
TLF	Team LOGCAP Forward
TM	Technical Manual
TMDE	Test, Measurement and Diagnostic Equipment
TMP	Transportation Motor Pool
TMRs	Transportation Movement Requests
TO	Transportation Office/Officer or Task Order
TOC	Tactical Operations Center
TOE	Table of Organization and Equipment
TPE	Theater Provided Equipment
TPFDD	Time-Phase Force and Deployment Data
TPFDL	Time Phased Force Deployment List

TPFT	Total Package Fielding Team
TRADOC	Training and Doctrine Command
TRANSCOM	Transportation Command
TS	Top Secret
TSA	Theater Storage Area
TSC	Training Support Center, Theater Sustainment Command or Theater Support Command
TSN	Technical Support of Negotiations
TTG	Transportation Terminal Group
UAE	United Arab Emirates
UCA	Un-definitized Contract Action
UCMJ	Uniform Code of Military Justice
UCO	Un-definitized Change Order
UEL	Unit Equipment List
UGR	Unitized Group Rations
UIC	Unit Identification Code
UIT	Unique Item Tracking
ULLS	Unit-Level Logistics System
UME	Unit Maintained Equipment
UMMIPS	Uniform Materiel Movement and Issue Priority System
UMNCO	Unit Movement Non-Commissioned Officer
USA	U.S. Army
USACE	United States Army Corps of Engineers
USAF	U.S. Air Force
USAPC	U.S. Army Petroleum Center
USAR	U.S. Army Reserve
USARC	United States Army Reserve Command
USAREUR	U.S. Army Europe
USC	United States Code
USFK	United States Forces Korea
USN	United States Navy
USU	Unit Supply Update
VCO/VCNCO	Vehicle Control Officer/Vehicle Non-Commissioned Officer
VIP	Very Important People/Person
VMR	Volume Move Request
WARCO	Installation Warranty Coordinator
WARNO	Warning Order
WAWF	Wide Area Workflow
WMD	Weapons of Mass Destruction
WMSP	Worldwide Management and Staffing Plan
WTCA	Water Terminal Clearance Authority
WWRC	World-Wide Requirements Conference

Annex E - Definitions, Acronyms & Abbreviations
