Questions and Answers

Solicitation 040ADV-26-R-0029

Canon ProStream Press Installation Design Build

Questions and Answers:

1. Page 6 of 56 states the contractor will provide all utilities required to rig, anchor, and connect the chiller for the press. However, Page 9, Sections 4 (Mechanical) and 5 (Electrical), indicates this scope is optional. Please confirm that the contractor should only price this work at 65% and not include it in the initial submission as per Section 6.4?

Answer: The proposal shall include all tasks listed in the Scope of work priced as <u>Firm-Fixed Price</u>. The NOT to EXCEED (NTE) costs for tasks labeled as "Optional" "Mechanical and Electrical" are added to a Revised Attachment J-7, Cost-Price proposal. The options if and when required will be exercised during the contract period of performance. The NTE amounts are shown in attachment J-7, Cost-Price proposal.

2. Page 49 states Project Manager qualification - Certifications required: PMP or equivalent PE; however, is over 15 years of previous experience and one similar project equivalent to meet this requirement, or if PMP is completed by the end of the project, is acceptable?

Answer: In the case presented, "YES" this would be considered "acceptable" as long as all other requirements for Key Personnel are met.

3. Please confirm if a bid bond is required with the proposal.

Answer: A Bid Bond is required with the proposal.
