NASA is seeking general understanding and capability statements from all interested parties for market research purposes. Interested firms having the capabilities necessary to meet the requirements described in the Statement of Work (SOW) should submit a response following the prompt structure outlined below. Responses must be no more than 10 pages (single-spaced, 12-point font, Times New Roman) in Microsoft Word (preferred) file format.

Section 1 - Company Information: Provide the following information regarding your firm: (a) CAGE Code, name and address of responding company, respondent points of contact (including phone number and email), size of the business, average annual revenue for past three (3) years and average number of employees for last three (3) years; (b) type of business and number of years in business: indicate large, small, small disadvantaged, 8(a), women-owned, veteran-owned, service-disabled-veteran owned, and HUBZone small businesses; (c) Affiliate information: parent company, joint venture partners, potential teaming partners, Prime Contractor (if potential Subcontractor) or Subcontractors (if potential Prime Contractor); (d) Indicate if your interest is as a potential Prime Contractor or Subcontractor and; (e) provide information regarding your firm's facility security clearance status.

Section 2 - General Understanding: Based on the draft SOW described in this RFI, provide your understanding of the contemplated requirement, including principal performance challenges, key success factors, major interfaces, and dependencies.

Section 3 - Capability Statement: Provide a capability statement describing your firm's relevant capabilities for work of similar size, scope, complexity, and mission criticality performed within the last three years. Additionally, include any successes in implementing innovations particularly those which resulted in cost savings.
