Instructor/ student ratio (max)	1:20	1:15	1:15	1:15	1:15	1:20	1:20	1:20	1:20	1:20

Notes

1. "Leadership" training is for USACE leadership to become familiar with basic system operation and leader-level tools
2. "Construction" training is a continuous 3-day course focused on in-depth system utilization for USACE Construction users
3. "PM" training is for USACE project managers
4. "ENGR" training is for USACE engineering users
5. "Familiarization" training is for general USACE end users that do not fit into a different training category
6. "Familiarization + Design Review" training is for USACE and external personnel that perform reviews in the system
7. "External Construction Contractor" training is for external construction contractors
