60 FSS/FSWO – Ski and Snowboard Equipment

I. Background:

60 FSS/FSWO requires items identified in Para II to comply with DAFI 34-101 19.26.1. The ski/snowboard equipment are items needed to provide activities which form the foundation of the outdoor recreation program and units use as a part of teambuilding and maintaining resilient, ready Airmen and Guardians. 60 FSS/FSWO is in critical need of new ski and snowboard equipment. Their current inventory of equipment is outdated and has been in use for a significant amount of time, which has led to reduced performance and safety concerns. The outdated equipment also lacks the technological advancements that have been made in recent years, making it difficult for us to provide our customers with the best possible experience.

II. Requirement. This is a **Sole-Source** requirement requesting equipment manufactured by **HEAD**.

The contractor shall provide the following:
