(a) Provisions

52.212-1 Instructions to Offerors—Commercial Products and Commercial Services Aug 2025 (DEVIATION 25-21) (effective November 28, 2025)

(a) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. As a minimum, offers shall include—

(1) The solicitation number;

(2) The name, address, telephone number of the Offeror;

(3) The Offeror's Unique Entity Identifier (UEI) and, if applicable, Electronic Funds Transfer (EFT) indicator;

(4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;

(5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and

(6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) *Period for acceptance of offers.* The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) *Late submissions, modifications, revisions, and withdrawals of offers.*

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.

(2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received Page 51 of 465 and may be accepted.

(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government

processes resume.

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) *Contract award (not applicable to Invitation for Bids).* The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) *Debriefings.* If a post award debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

(3) The overall ranking of all Offerors when any ranking was developed by the agency during source selection.
(4) A summary of the rationale for award.

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful Offeror.

52.212-2 Evaluation—Commercial Products and Commercial Services Aug 2025
(DEVIATION 25-21) (effective November 28, 2025)

Evaluation Factors. The provision at FAR 52.212-2 Evaluation of Commercial Items is not applicable to this solicitation. In lieu of this provision, quotes will be evaluated in accordance with FAR 12.203 based on the criteria listed below. Award will be made to the lowest priced, technically acceptable offeror representing the best value to the Government.

Technical Acceptability: Technical Acceptability will be evaluated to determine an overall rating of "acceptable" or "unacceptable". Technical Acceptability will be evaluated on the ability of the offeror to provide new manufactured commercial items, filling out "attachment 1- schedule" to completion, filling out "attachment 2 - acknowledgement certification" to completion and meeting the delivery lead times of 90 -120 days.

Price: The contractor shall provide pricing as requested in the Schedule of Supplies. Any quantity price discounts and discounts for prompt payment should be included in this section. The offeror's quotation will be evaluated using one or more of the techniques defined in FAR 12.204, in order to determine if it is fair and reasonable.

Delivery/Lead Time: The contractor shall indicate the number of days after receipt of order (ARO) that the materials will be delivered to Elizabeth City, NC. The USCG requires delivery of items Ninety (90) days after receipt of the order (ARO). However, early and/or partial deliveries are desired and will be accepted.

First Article Testing and Approval

First Article Submission and Evaluation: Upon award of the purchase order, the Government will order one First Article unit for testing and evaluation. The Government shall evaluate the First Article in accordance with Attachment 5, the approved test plan, to ensure it conforms to all contract specifications and requirements.

Notification and Disposition: The Contracting Officer shall provide written notification to the Contractor of the approval, conditional approval, or disapproval of the First Article.

(a) Approval: Upon receipt of written approval of the First Article, the Government shall issue a modification for the production units. Quantity will be specified within modification.

(b) Disapproval: In the event the First Article is disapproved, the Government shall be under no obligation to procure the production units, and no further orders shall be placed under this purchase order.
