Q/A:
Q1: Will you provide shapefiles of project areas and individual tree locations post award?
A1: Yes, shapefiles of everything shown on the contract area map can be shared, additionally, the Forest has individual points for the large trees, > 12" dbh. Points for the small diameter trees is not available.

Q2: Any Work Restrictions that affect time available to work?
A2: Primarily PAL levels will affect work activities. Work activities need to be completed between sunrise and sunset, daylight hours. Work on Sundays and federal holidays by agreement with COR.

Q3: Are forest products required to go to a mill or biomass facility?
A3: No, there are no large forest products processing facilities within an economical distance of the project area. Contractor can dispose of products as they see fit as long as it follows contract stipulations of chipping oak species prior to removal.

Q4: Is Cellu-treat required?
A4: Cellu-treat is required on live and recently dead conifer stumps (still retaining needles). Contractor is responsible for obtaining any permitting required from County Agricultural Commissioner's (CAC) Office for obtaining and applying cellu-treat and for monthly reporting to the CAC. Additionally, Contractor shall maintain daily use logs of cellu-treat applications on a unit basis and report to COR at end of each month for internal agency reporting purposes.

Q5: If stream crossing on ephemeral or unclassified channel needed is that okay?
A5: Yes, a crossing can be installed at a agreed upon location and with agreed upon materials. Agreement is in place PRIOR to constructing and use.

Q6: Can Alternative methods be proposed?
A6: Yes, please follow solicitation guidance for proposing alternative work methods.
