GARRISON DAM NFH-ROOF REPAIR
140FGA26Q0054
08/04/2026

1. **Hatchery Building Roof Area**
   - The SOW states that the Hatchery Building roof is **approximately 2,300 square feet**. However, the Pictures and Maps document appears to highlight the entire Hatchery Building, and the Government Price Schedule states **"Replace Hatchery Bldg. Roof." Hatchery Building is approximately 11,200 square feet. The 6-Stall Garage Building is approximately 2300 square feet.**
   - Could you please confirm whether the scope is to replace the **entire Hatchery Building roof** or only an approximately **2,300-square-foot portion**? Replace the entire roof
2. **Sturgeon Building Scope**
   - The SOW describes the work as **repairing** the Sturgeon Building roof, including repairing deteriorated wood rafters as needed and installing D-rib metal roofing. Correct, we are in the process of rehabilitating or replacing the Sturgeon Building. This project is only a stop-gap to get us to rehab or replace.
   - Lastly, could you please clarify whether the Government requires **repair of the existing roof** or a **complete roof replacement** for the Sturgeon Building, which is **approximately 7,000 square feet**? This is only for a repair of the existing roof.
