Attachment 1
U.S. Customs and Border Protection
Sole Source Determination
For Actions Not Exceeding the SAT

Date: __7/31/2026___ PR Number: __20156733__

1. Identification of the agency and the contracting activity:

The Department of Homeland Security (DHS), U.S. Customs and Border Protection (CBP), Air and Marine Operations, prepared this justification for an exception to fair opportunity related to the renewal of CorpTen software products and support.

2. Nature and/or description of the item/service being procured and anticipated cost:

This procurement of services to upgrade and maintain Corpten Unitrac, Autofind, and Evolution software for a total value of approximately [redacted]
Evolution Tech Sup & Software Maintenance: [redacted]
UniTrac Annual Maint, AMOC System: [redacted]
UniTrac Annual Maint, COOP System: [redacted]
The software will cover a 12-month period. UniTrac is CorpTen's proprietary software that allows two-way communication between multiple satellite, cellular and radio frequency providers.

3. Authority to award a sole source order:[1]
(Check the authority below based on the procurement procedures being followed)

_____ RFO Subpart 8.4/GSAR 538.7104-3(a)
_____ RFO 12.102(a)
_____ RFO 13.101(b)
___X_____ RFO 16.507-6

4. Sole Source Determination Rationale: *(Check one and explain below):*

For RFO Subpart 8.4, Part 12 and Part 13 procurements, check one of the following:
_____ Only one source reasonably available.
_____ Urgent and compelling circumstances exist.
_____ Exclusive licensing agreement exists.

[1] In this document, citations to RFO Parts 8, 12, 13, and 16 are citations specifically to Federal Acquisition Regulation (FAR) Class Deviation 25-20 for FAR Part 8, FAR Class Deviation 25-21 R1 for FAR Part 12, FAR Class Deviation 26-01 R1 for FAR Part 13, and FAR Class Deviation 26-04 R1 for FAR Part 16, which were issued as part of the Revolutionary FAR Overhaul (RFO), which was implemented in response to Executive Order 14275, *Restoring Common Sense to Federal Procurement*, signed April 15, 2025.

_____ Item peculiar to one manufacturer. If this requirement applies to a portion of the procurement, please identify that portion.

_____ Industrial Mobilization

_____ Other. Explain:

For RFO Subpart 16.5 procurements, refer to the exceptions to fair opportunity at RFO 16.507-6(b) and check one of the following:

_____ The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

_____ Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.

_____ The order must be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order. If the contracting officer uses the logical follow-on exception, the rationale must describe why the relationship between the initial order and the follow-on is logical (e.g., in terms of scope, period of performance, or value).

_____ It is necessary to place an order to satisfy a minimum guarantee.

____X____ Item peculiar to one manufacturer. If this justification applies to a portion of the procurement, please identify that portion. For an order in excess of $40,000, CBP intends to provide this justification and supporting documentation along with the solicitation to all contract awardees pursuant to RFO 16.507-7(c). *(*Rename this document a "Justification for Brand Name Exception to Fair Opportunity" if RFO 16.507-7 applies.)*

Explanation of the rationale cited:

CorpTen is the only provider for Unitrac, Evolution, and Autofind software maintenance and technical support, including updates and patches, as Unitrac, Evolution and Autofind are proprietary systems, developed for electronic satellite tracking. Failure to award contract to CorpTen, could result in a systems failure of the Electronic Tracking servers, which could not be resolved by the IT personnel on site. This would result in loss of tracking of overt and ability to fullfill its Homeland Security Mission.
