7. The Government will evaluate Offeror's Quotes to ensure pricing is provided and is fair and reasonable for all required items identified in attachments 2 & 3 of this RFQ and meet or exceed the requested delivery dates.

   The Government will make an award representing the best interest to the Government considering: Lowest Price Technically Acceptable (LPTA). All quotes received will be ranked by aggregate price with the lowest price first. The vendor with the lowest total aggregate price will have its technical package evaluated first, with a pass/fail evaluation against the requirements identified in FAR 52.212-2 of this RFQ.

While past performance is not a formal evaluation factor for this procurement, the CO will review the Exclusions and Responsibility/Qualification Reports available within the System for Award Management (SAM) (https://sam.gov). Additionally, the Government reserves the right to review Performance and Integrity Records, available within the Contractor Performance Assessment Reporting System (CPARS) (https://www.cpars.gov/).

GSA will be responsible for contract administration, including payment and closeout. The GSA administrative point of contact is:

GSA Contracting Officer:
Melissa Martel
Office of Centralized Acquisition
Service Center 4 - Division 1
Email: melissa.martel@gsa.gov

When responding to this RFQ, complete and sign the entire package along with the required supplemental documentation and submit your Quote package as an attachment via email to Melissa Martel, Contracting Officer at melissa.martel@gsa.gov not later than the closing date of the solicitation.

A complete Quote consists of the following:
*Completed Attachment 2 – Technical Matrix Pipe Bending*
*Completed Attachment 3 – Pricing Spreadsheet_ Pipe Bending*

All quotes and supporting documentations shall be submitted via email to the GSA Contracting Officer. RFQ and supporting documentation are due NOT LATER THAN August 26, 2026 2:00pm ET.

Facsimile (fax) quotes will *not* be accepted

Mail-in quotes will *not* be accepted

ASSIST TRAINING

# HELP DOCUMENTATION

---

## Overview

This document describes how to create an ASSIST account as a contractor user, including setting up the FAS ID (if needed) and linking to the appropriate company(s). The process to register a contractor user is a self-registration process.

## Before You Begin

Make sure you have:

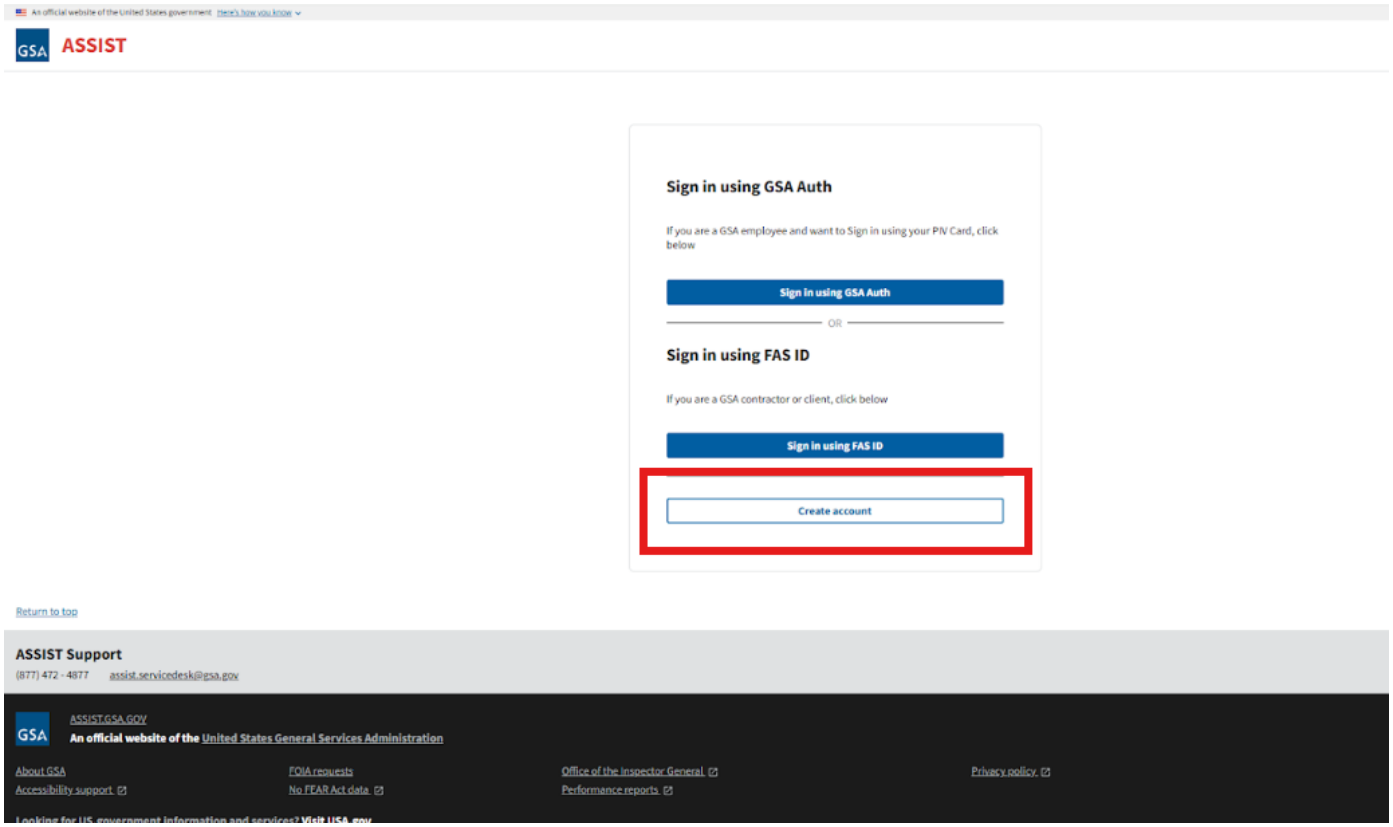
- A valid email address
- Your company name or Unique Entity Identifier (UEI)
- Basic company contact information

### Understanding FAS ID

A FAS ID is your secure login credential that works across multiple GSA applications. FAS ID ensures compliance with GSA's identity, credentials, and access management controls. It achieves this by offering multi-factor authentication and a self-service account recovery option.

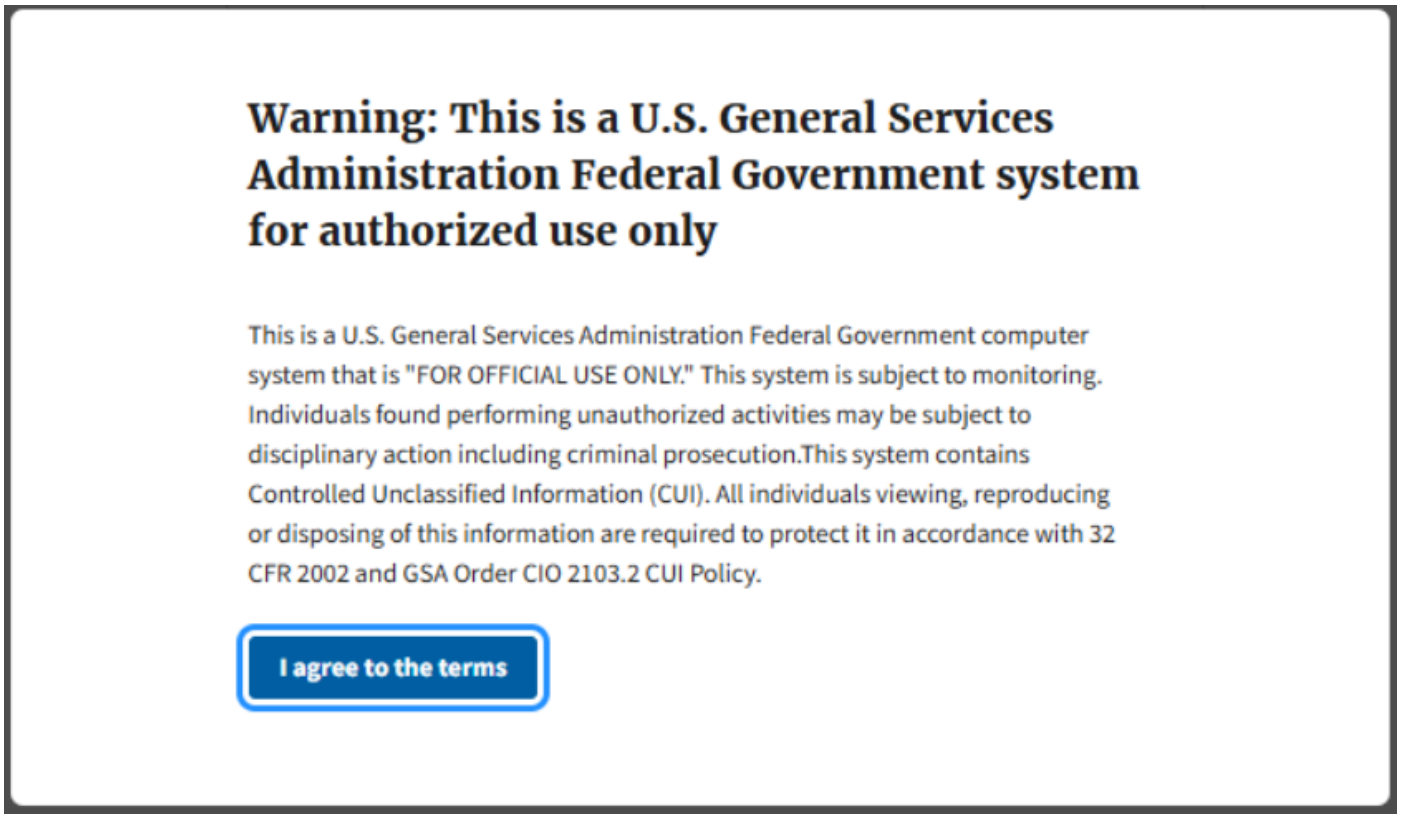
### Step 1. Access the ASSIST Login Page

Navigate to the ASSIST Homepage and select the '**Create account**' button.

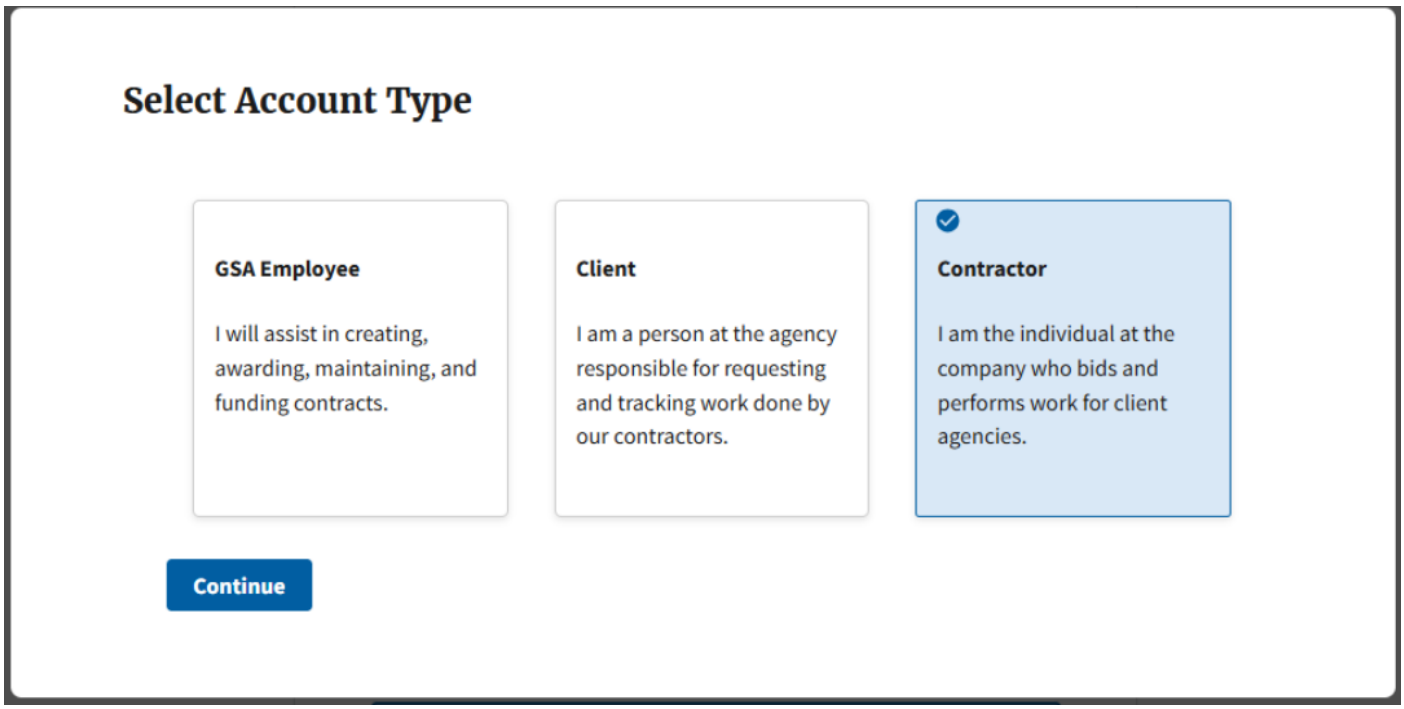


## Step 2. Accept Terms

Review the system notice and select the '**I agree to the terms**' button.



## Step 3. Select the 'Contractor' Account Type and then click 'Continue'

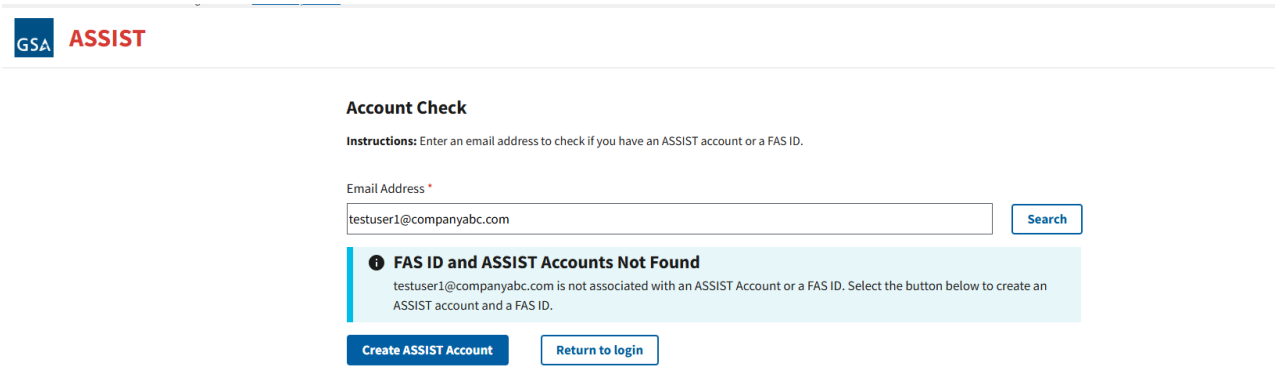


## Step 4. Enter your email address on the Account Check page

Once you have entered your **email address**, select the '**Search**' button. ASSIST will check if you already have:

- An ASSIST account
- A FAS ID

**Note:** The validation process for a contractor user's account yields four potential account check messages, each leading to a specific registration path.



## Step 5. Registration Path

Based on the results of the Account Check, ASSIST will guide the user through the appropriate registration process:

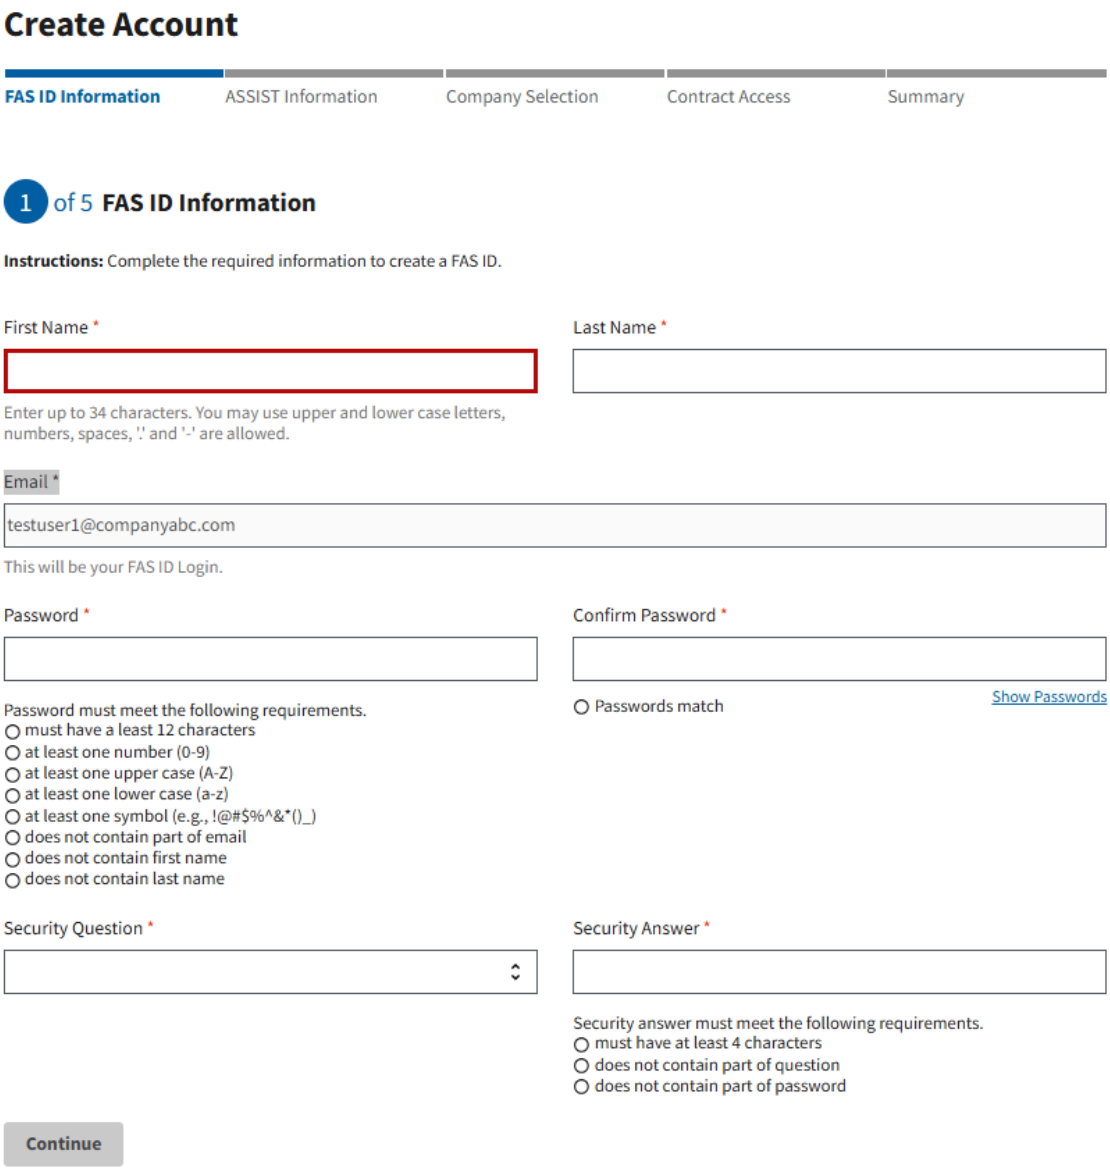
1. **If you have BOTH a FAS ID and ASSIST account:**
    - Log in with your FAS ID
    - No ASSIST registration needed
2. **If you have NEITHER:**
    - Create a FAS ID
    - Complete the ASSIST registration process
3. **If you have a FAS ID but no ASSIST account:**
    - Complete the ASSIST registration process
    - The user's existing FAS ID will be linked to their ASSIST account
4. **If you have an ASSIST account but no FAS ID:**
    - Create a FAS ID
    - It will be linked to your ASSIST account

## Step 6. Create Your FAS ID (if prompted)

If you **do not have a FAS ID**, you will need to complete the FAS ID Information page by entering:

- First Name
- Last Name
- Email address (pre-populated from the account check process)
- Password/Confirm Password
- Security Question & Answer

Select '**Continue**'.

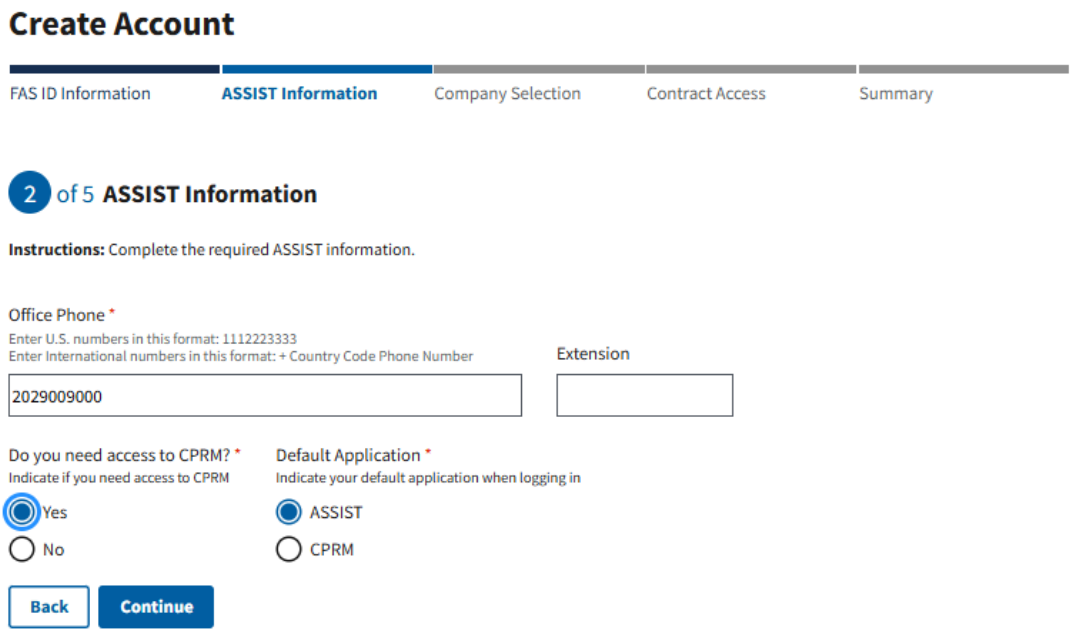


## Step 7. Enter ASSIST Information

Complete the **ASSIST Information** page by providing:

- Office Phone
- Extension (optional)
- Answer the CPRM Question
- Default application (if prompted)

Select '**Continue**'.



## Step 8. Select Your Company

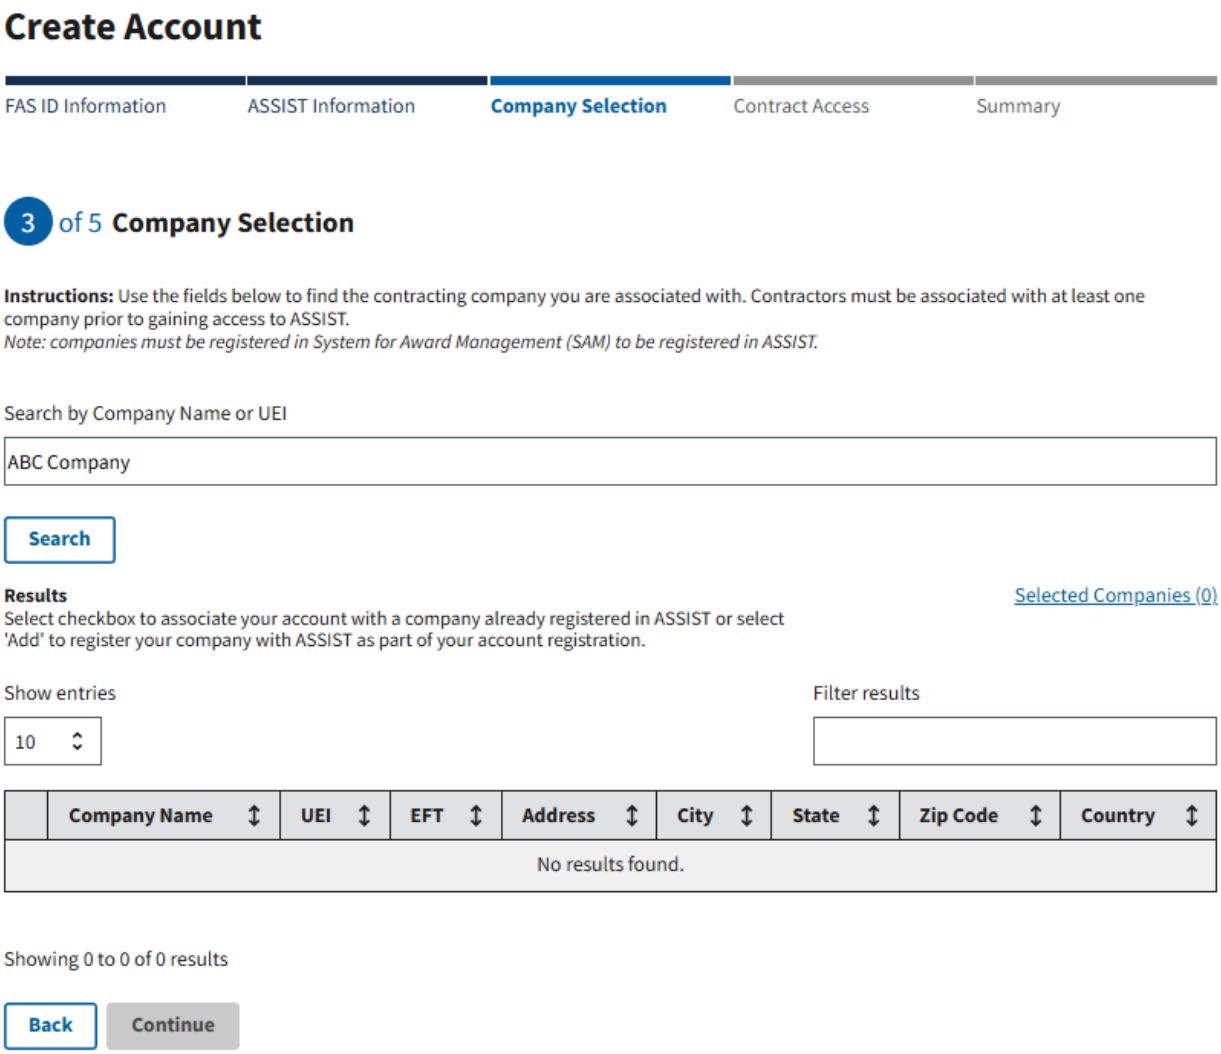
Enter your **Company Name or UEI** and select '**Search**'. Then select one or more companies (if registered) **OR** select '**Add**' if your company is not listed/registered. Please note, only companies with an active registration profile in SAM.Gov will appear in the search results. If you cannot find your company in the search, please verify that the company has an active entity profile in SAM.

The search results are presented as follows:

- Companies with a checkbox **are** registered in ASSIST.
- Companies with an 'Add' button **are not** registered in ASSIST.

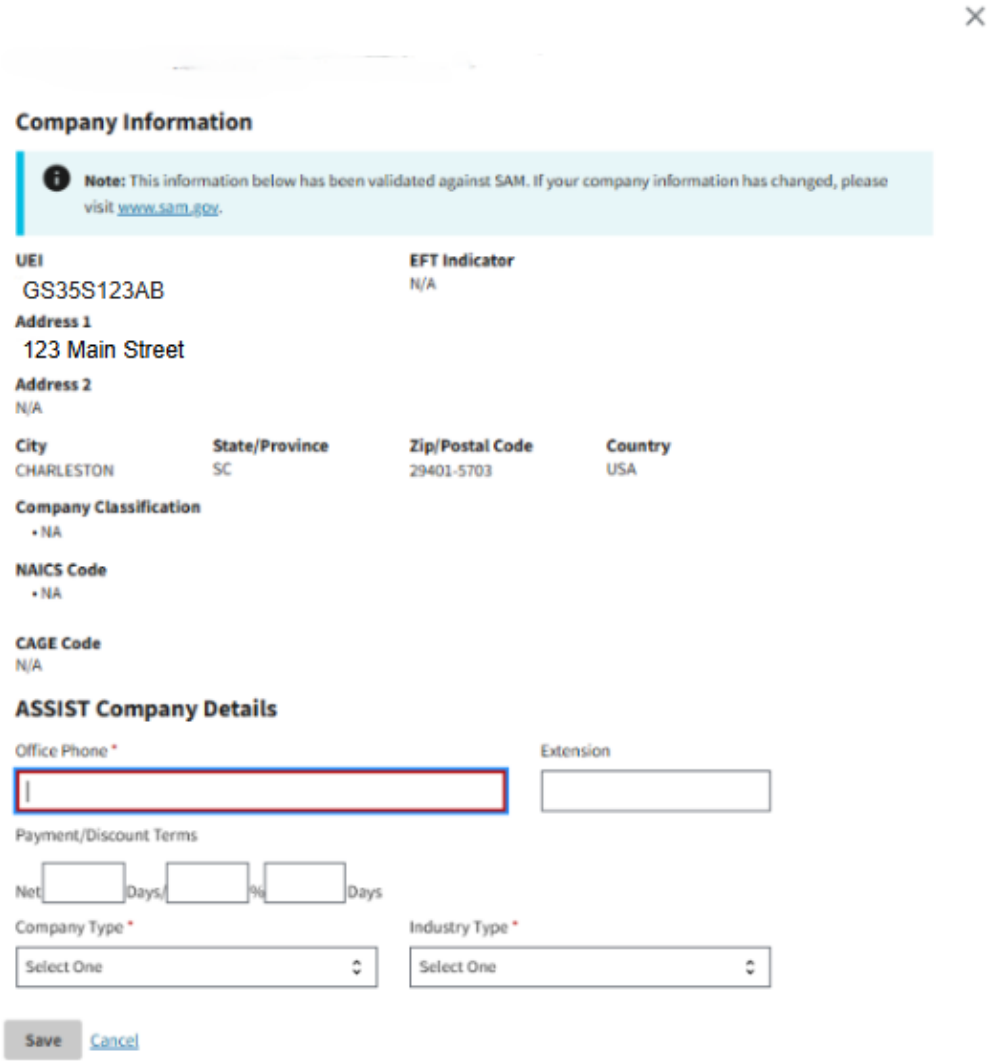
**Note:** Once you have selected the registered company or companies and click 'Continue,' the "Contractor Company Access" window will open, moving you to step 10.

**Quick Tips:** Users can refine the displayed results using the filter options. Additionally, to see all selected companies in one place, click the "**Selected Companies**" hyperlink.



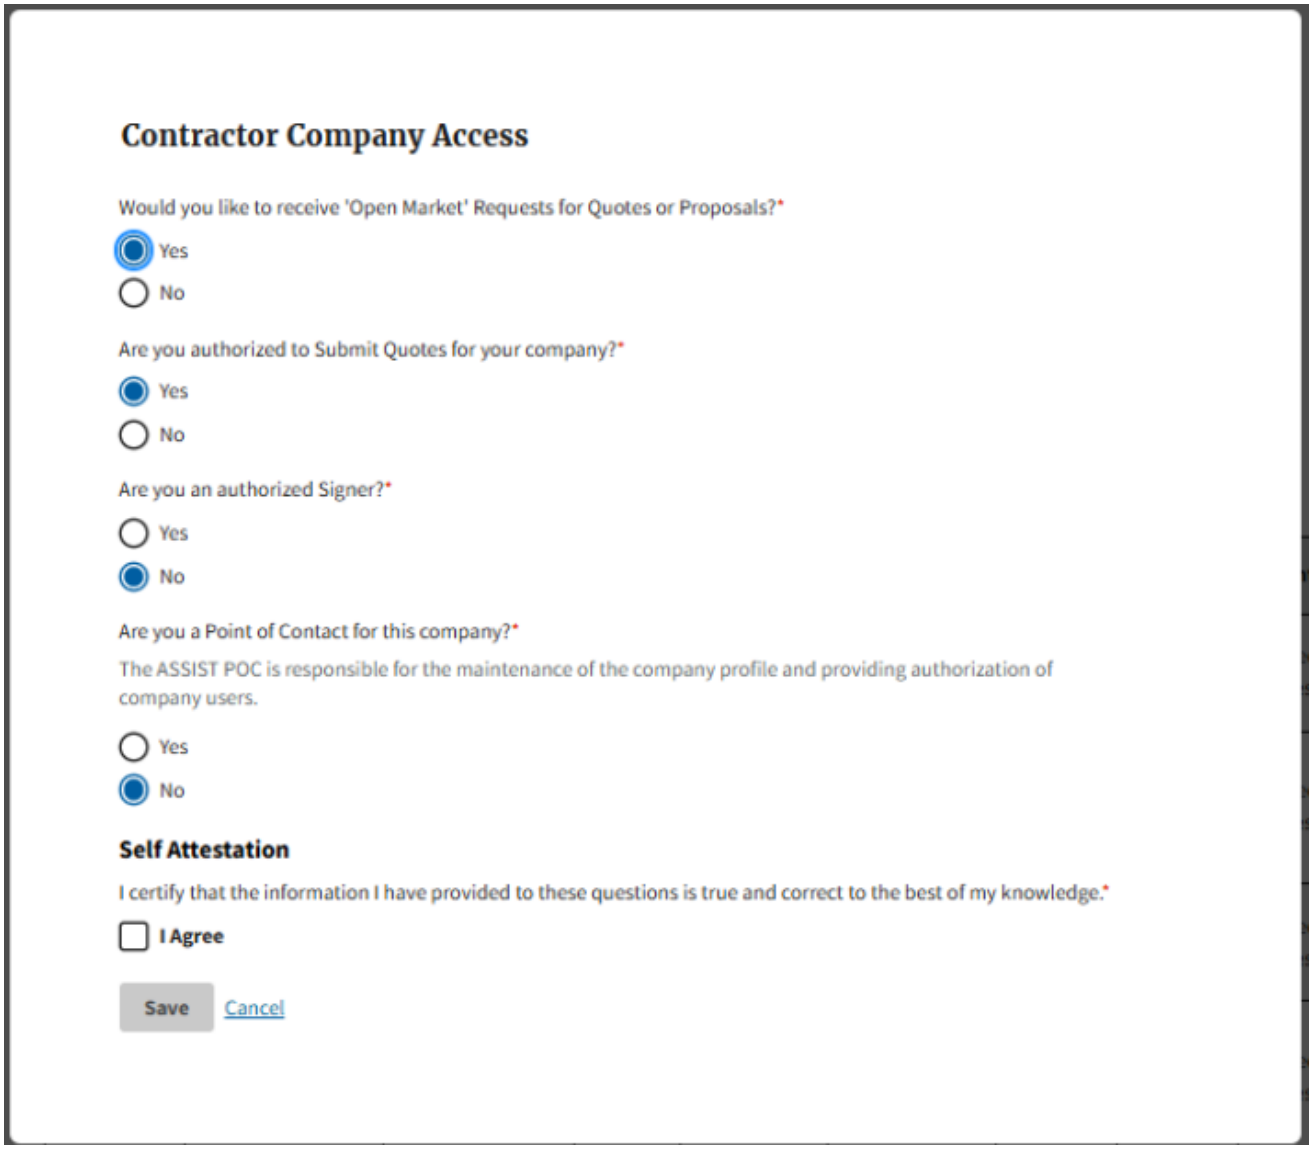
## Step 9. Complete Company Details (if registering a new company)

Select the '**Add**' button if your company is **not registered.** Complete the required fields under the **ASSIST Company Details** section on the Company Information page and select '**Save**' when complete.



## Step 10. Set Company Access

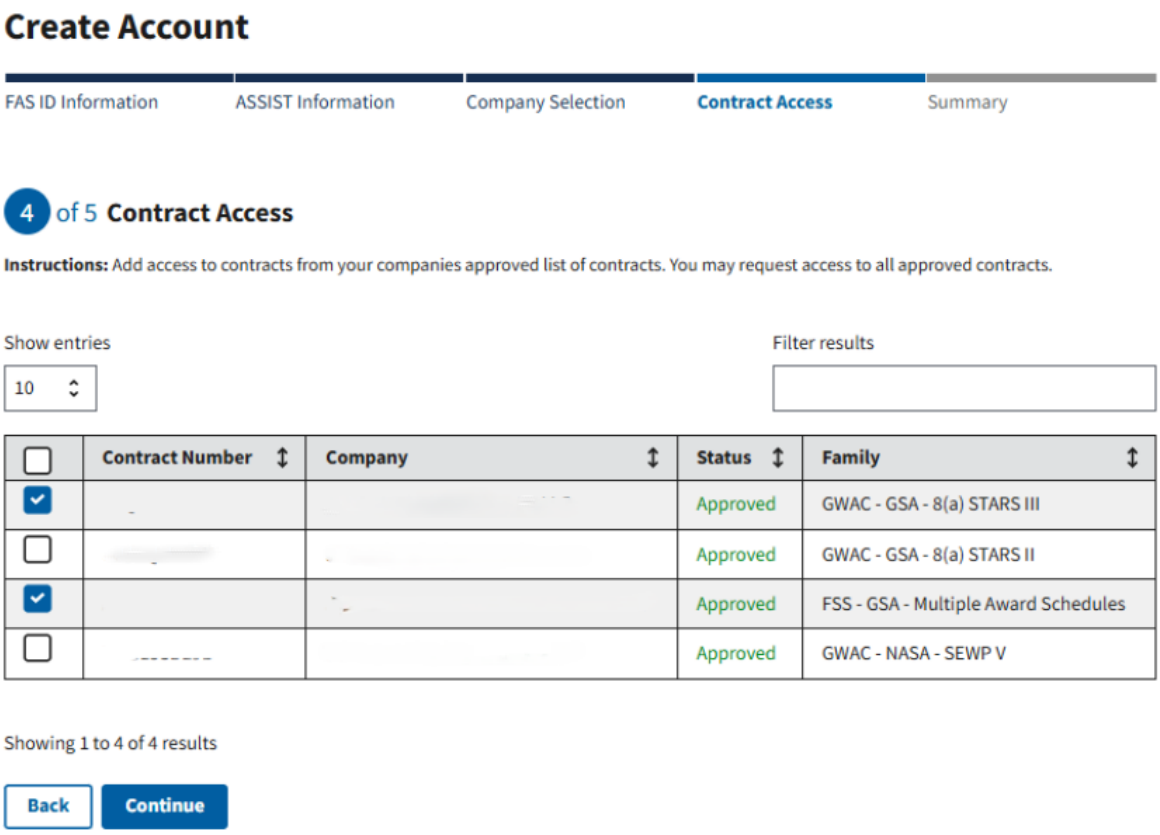
Answer **all the company access questions**, check the **Self Attestation** box and select '**Save**'.



## Step 11. Select Contract Access

Review the list of **available contracts**, **select none, one or more contracts** (if applicable), and then select '**Continue**'. If needed, use the filter to narrow results.

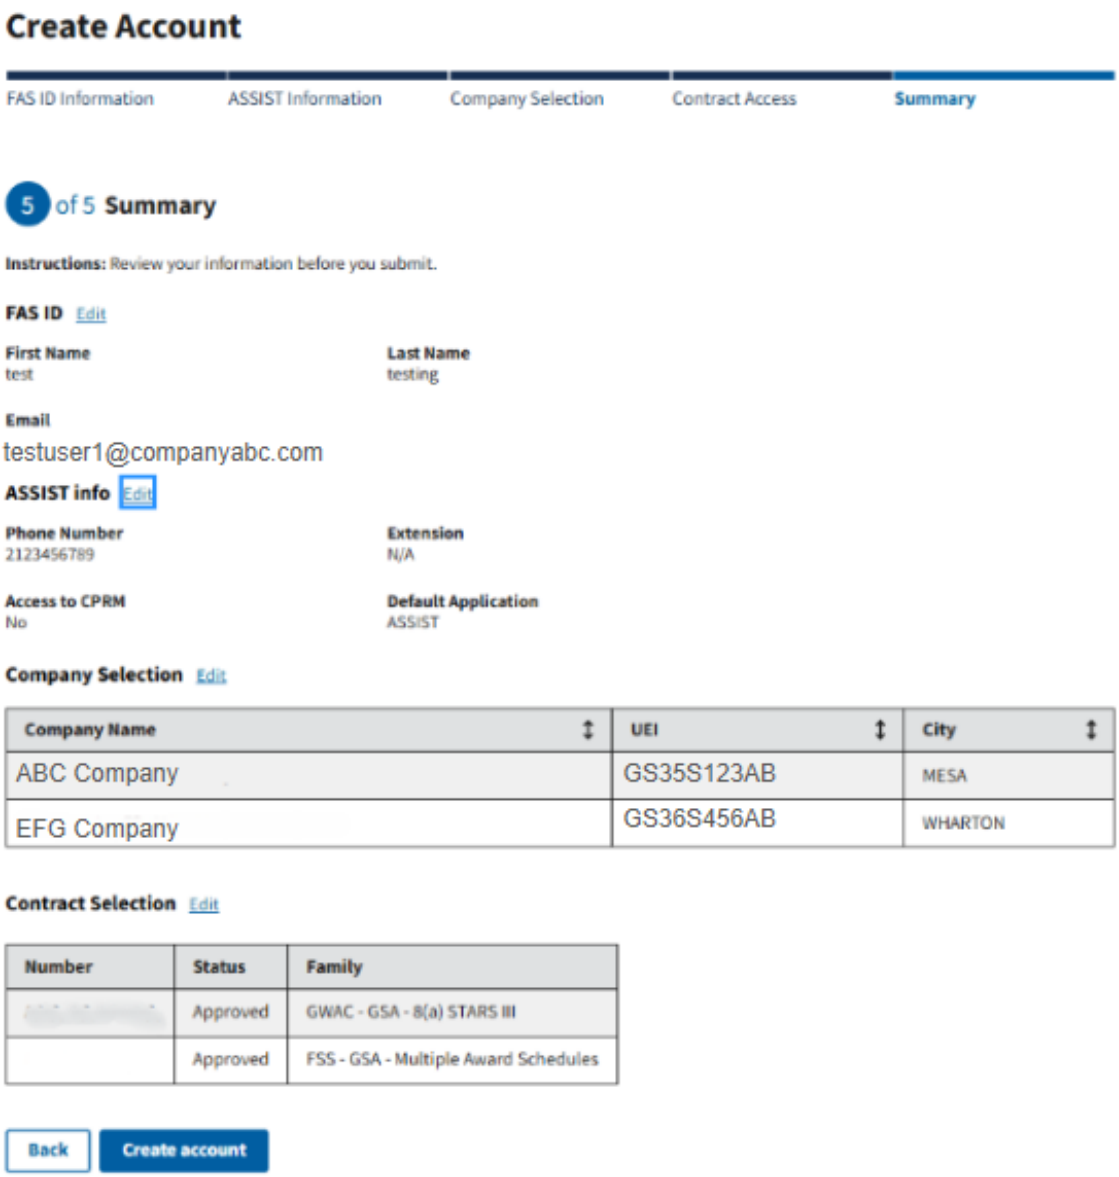
**Note:** You can select multiple contracts across companies.



## Step 12. Review Summary

Before finalizing registration, users should thoroughly review **all** entered information and then select the '**Create account**' button to submit.

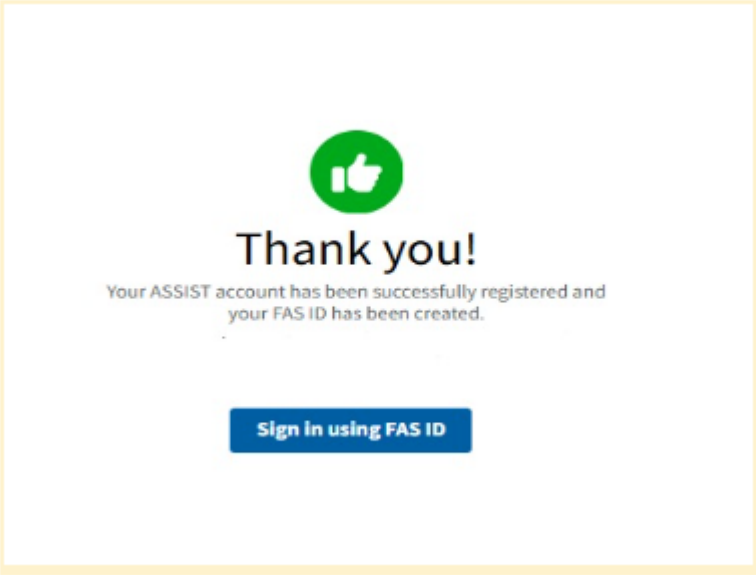
**Note:** Depending on the registration path determined during the Account Check, the user may be able to edit their selections for FAS ID Information, ASSIST Information, Company and Contract.



## Step 13. Registration Complete

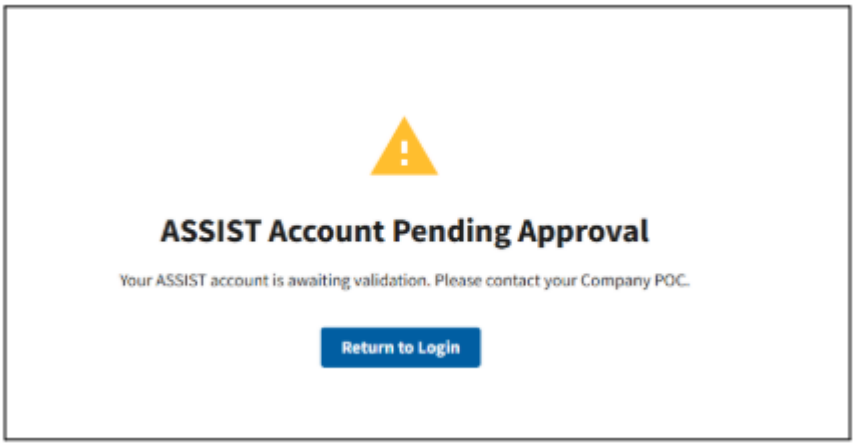
Upon completion of the registration process, users will see a confirmation screen. If the **user's email matches the Company POC's email address as reported in SAM.Gov**, then the registration will be auto-approved.

**Successfully registered confirmation message:**



If the **user's email address does not match the Company POC's email address**, the registration status is set to pending approval and the Company POC is notified. The Company POC will need to review and approve the user's account before access is granted.

**'Pending Approval' Status confirmation message:**



# Definitions

- **Contractor User** - a contractor user is a person who is an employee at a contractor company (Industry Partner) that does business with the GSA.
- **Contractor Company** - a contractor company is the company that the contractor user works for. A contractor company is distinguished by having a Unique Entity Identifier (UEI) number. For large corporations, there may be multiple contractor companies registered in ASSIST to capture each UEI number. Contractor users can be registered to multiple contractor companies.
