THIS IS A SOURCES SOUGHT NOTICE ONLY. THIS IS NOT A REQUEST FOR PROPOSAL. THERE WILL NOT BE A SOLICITATION, SPECIFICATIONS, OR DRAWINGS AVAILABLE AT THIS TIME.

The purpose of this sources sought notice is to determine if there are commercially available and interested suppliers capable of performing the services pertaining to the following and as detailed in Attachment 2 – KMC Controls (KMC) controllers Spec Sheet:

1. KMC Controls (KMC) controllers

    a. Manufacturer – KMC Controls (Attachment 2)

        i. Product – KMC Controls (KMC) controllers

        ii. Requirement – The KMC Controls (KMC) controllers will be configured and programmed using government-licensed KMC software. Programmable building controllers include, but are not limited to, general purpose controllers, unitary controllers, VAV controllers, expansion modules, BACnet routers, and distribution modules. The requirement to use KMC Conquest BACnet Digital Controls software to program KMC Conquest BACnet Digital Controls brand name commercial equipment does not restrict who can install, commission, test, maintain, or operate the controllers and there are several known sources who can provide such services.

The Government is not obligated to and will not pay for any information received from potential sources as a result of this synopsis.
