**DLAD C08 DLAD PROC NOTE C08 (Oct 2025)**

**C08 Tailored Logistics Support Purchasing Reviews (FEB 2017)**
(1) From the commencement of performance of this contract until 3 years after the final contract payment, the contractor must allow the contracting officer, ACO, Defense Contract Management Agency (DCMA), Defense Contract Audit Agency (DCAA), and any other duly authorized representative of the contracting officer access to all records and information pertaining to those items or services for which the Government is relying on the contractor's purchasing system to determine that competition was obtained or to justify that prices are fair and reasonable. The contractor must maintain records subject to this clause for not less than 3 years after the contract final payment.
(2) The contracting officer may conduct reviews of purchased items or services provided under this contract regardless of dollar value that meet the criteria in paragraph (1) to ascertain whether the contractor has obtained the best value. The contractor must obtain competition to the maximum extent practicable for all purchases. Prior to purchasing any supplies or services, the contractor must solicit a competitive quotation from at least two independently-competing firms. For other than sole source items, the request for quotations must, to the maximum extent practical, solicit offers from different manufacturers or producers. If the contractor is unable to obtain quotes for competing items from two or more independently-competing firms, the contractor must retain documentation supporting its rationale for selection of the suppliers solicited and selected and its determination that the price was fair and reasonable. The contractor is responsible for maintaining this documentation for all sole source/non-competitive actions. The following price reasonableness and documentation requirements are applicable to all purchases, regardless of dollar value: (i) A price is reasonable if it does not exceed a price incurred by a prudent person in the conduct of
competitive business. The contracting officer will examine the prices with particular care in connection with buys that may not be subject to effective competition restraints. The contractor's price will not be presumed to be reasonable. If an initial review of the facts results in a challenge of a specific price by the contracting officer or the contracting officer's representative, the burden of proof must be upon the contractor to establish that the price is reasonable under the standards in FAR Subpart 15.4 and FAR 31.201-3.
(ii) The contractor must keep the documentation to a minimum, but must retain data supporting the
purchases either by paper or electronically. At a minimum, price quotations and invoices must be retained. Should the contractor receive an oral price quotation, the contractor must document who the supplier or subcontractor is by complete name, address, telephone number, price, terms and other conditions quoted by each vendor. Price quotes for supplies must be broken down by individual items, shipping costs, and any other included expenses. Price quotes for incidental services which are not pre- priced in the contract must include labor hours and costs or prices, as applicable, including the total price of the job, individual pricing for the portions of the work if applicable, materials, and all other elements of cost, overhead, and profit. This price breakdown documentation must be made for each subcontractor performing work on this contract.
(3) When applicable, if the contractor is purchasing from subcontractors or other sources and receives a discount or rebates, the contractor must immediately pass these savings to the Government in the contract price and invoice for payment. The contractor is required to use diligence in the selection of the most economical method of delivery of the product or services by selecting a best value method of delivery based on the urgency and nature of the work or product required. When labor hours are involved in the work to be accomplished and the contractor has not already pre-priced the effort to use its own labor force, the contractor must provide the labor at rates required by the contract (for example, Service Contract Act or Davis-Bacon Act rates) or at rates based on competition if mandatory rates are not required by the contract.
(4) If the contracting officer determines that the purchased product or service is unreasonably priced, the contractor must refund to the Government the amount the contracting officer determines is in excess of a reasonable price. The contracting officer must notify the contractor in writing in accordance with FAR 32.604 Demand for Payment, giving the basis for the determination and the amount to be refunded. The contractor must make the refund payment in accordance with directions from the contracting officer, and must provide proof of the refund payment to the contracting officer. The contracting officer may collect the amount due using all available means in accordance with FAR Subpart 32.6. FAR 52.232-17, Interest, is applicable to payments not made within 30 days of the demand for payment. Any disputes arising under this provision must be handled in accordance with the "Disputes" clause of this contract.

If an item part number is superseded during the term of this contract, the contractor shall advise the contracting officer immediately upon determination. after contract award, the contracting officer shall notify the contractor and the cognizant DCMA ACO. The Government will perform PVT testing at a Government-designated testing laboratory.

If the Government does not return approved samples that pass testing to the contractor, the Government will consider those samples as part of the contract quantity for payment and delivery.

*Small business concern-*

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

**L08 Use of Supplier Performance Risk System (SPRS) in Past Performance Evaluations (JUN 2024)**
(1) The Government will use the Supplier Performance Risk System (SPRS)
(https://www.sprs.csd.disa.mil/) (formerly Past Performance Information Retrieval System - Statistical Reporting (PPIRS-SR)) and may use other performance history to evaluate suppliers past performance.
(2) SPRS collects quality and delivery data on previously awarded contracts and orders from existing Department of Defense reporting systems to classify each supplier's performance history by Federal supply class (FSC) and product or service code (PSC). The SPRS application provides the contracting officer quantifiable past performance information regarding a supplier's quality and delivery performance for the FSC and PSC of the supplies the Government is purchasing.
(3) The contracting officer will use the quality and delivery classifications identified for a supplier in SPRS to evaluate a supplier's past performance in conjunction with the supplier's references (if requested). The Government will use this past performance information in accordance with the basis for award stated in the solicitation. (4) SPRS generates classifications daily for each contractor. The
SPRS Software User's Guide for
Awardees/Contractors (https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf) and the SPRS
Government User Guide (https://www.sprs.csd.disa.mil/pdf/SPRS_Government.pdf) provide instructions for accessing SPRS classifications.
Contractors have access to SPRS for their own classifications only. Suppliers are encouraged to review their own classifications; the SPRS reporting procedures and classification methodology detailed in the SPRS Software User's Guide for Awardees/Contractors
(https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf); and the SPRS Evaluation Criteria
