## 4. Statutory Authority Permitting Other Than Full & Open Competition

**This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1**

## 5. Rationale Justifying Use of Cited Authority

**A/RMC** 3

**Acquire, for the second or subsequent time, directly from the actual manufacturer.**

**A/RMSC** B

**This part must be acquired from/repaired by a source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing/repair knowledge are not available to permit acquisition from/repair by other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. If one source is available, A/RMCs 3, 4, or 5 are valid. If at least two sources exist, A/RMCs 1 or 2 are valid.**

**This acquisition will be solicited to**

Mission Systems - Davenport, Inc. (99251) Per JDRS/ASE, this item has been deemed a Critical Safety Item (CSI), thus limiting qualified sources. The acquisition of the item listed above will be solicited to Mission Systems - Davenport, Inc. (99251) 3261129-0104 because they are currently the only capable source listed on Source Controlled Drawing #901-325-601 owned by Boeing Aerospace Company (77272) with the technical data required to manufacture, test and certify this item prior to unit delivery and is the sole approved manufacturing source identified in JDRS CIM record. All alternate sources must qualify IAW the DCA's procedures, as approved by NAVAIR/NAVSUP WSS Source Development Department prior to contract award. Since the Navy does not possess sufficient rights to information such as drawings, specifications, and/or test equipment/procedures, a full and open competitive solicitation cannot be supported. NAVSUP-WSS must procure the item though Mission Systems - Davenport, Inc. (99251).

## 6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

**The proposed contract action was synopsized on the government-wide point of entry on** 12/10/2025

**and as a result** No other sources expressed an interest in the solicitation.

**Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows**

The latest configuration has been checked and all records (ITIMP, JDRS/ASE, etc.) have been properly aligned, identified, and documented. This item has been deemed a Critical Safety Item, thus limiting qualified sources, and is on Source Controlled Drawing #901-325-601 owned by Boeing Aerospace Company (77272) listing only Mission Systems - Davenport, Inc. (99251) as an approved source. Per JDRS, Mission Systems - Davenport, Inc. (99251) is the only approved source at this time. The Government does not possess sufficient rights in the technical data to distribute them to potential new suppliers of the item. Any additional sources would have to be approved by Boeing Aerospace Company (77272) and added to the approved sources listed on the drawing. The available technical data is insufficient for the development of new sources. Source Development Department files indicate no Source Approval Request (SAR) has been received from any party interested in becoming an approved source. Mission Systems - Davenport (99251) is the only approved source at this time.

## 7. Determination of Fair And Reasonable Cost

**The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.**

## 8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS will continue to encourage vendors with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also, future requirements will be advertised on the government-wide point of entry.
