Addendum to RFO 52.212-1 - Instructions to Offerors-Commercial Items

Proposal Preparation Instructions:

A. Proposals must be submitted by email to tyree.ross@us.af.mil and martelangelo.surop@us.af.mil. The solicitation number, and name of offer must be in the subject line (Example: FA469026R0006 - OFFER NAME). Emails postmarked after the solicitation has closed will be late proposals and will be processed in accordance with RFO 52.212-1(c).

B. The offeror agrees to hold the prices in its offer firm for 120 calendar days from the date specified for receipt of offers.

C. To assure timely and equitable evaluation of the proposal, the offeror must follow the instructions contained herein. The proposal must be complete, self-sufficient, and respond directly to the requirements of this solicitation. The response shall consist of three (3) separate parts; Part I - Price Proposal, Part II - Technical Proposal, and Part III - Past Performance Information. Note that .zip files are not an acceptable format for the Air Force Network and will not go through our email system.

D. Upon examination of the initial offers, the contracting officer will review this determination and if, in the contracting officer's opinion, adequate price competition exists, no additional data will be requested and certification under RFO 15.403-3 will not be required. However, if at any time during this competition the contracting officer determines that adequate price competition no longer exists; offerors may be required to submit other than certified cost and pricing data to the extent necessary for the contracting officer to determine the reasonableness and affordability of the price.

E. The Government intends to evaluate offers and make an award without interchanges but reserves the right to conduct interchanges with one, some, all, or none of the offerors in response to the solicitation. Offerors may be given the opportunity to clarify certain aspects of their written proposals (e.g., defining the relevance of the offeror's technical information and adverse past performance information to which an offeror has not previously had an opportunity to respond) or to resolve minor clerical errors.

In addition, explain corrective actions taken in the past, if any, for substandard performance and any current performance problems such as cost overruns, extended performance periods, numerous warranty calls etc.

(b) The Government utilizes the Past Performance Questionnaire (Attachment 4) as a primary instrument for evaluating current and historical performance. The offeror retains exclusive, non-delegable responsibility for the dissemination and progress monitoring of these questionnaires. Offerors must ensure that a minimum of two (2) completed questionnaires are transmitted directly from the source to the Government no later than the proposal submission deadline. To maintain the integrity of the evaluation, questionnaires submitted via the offeror will not be accepted. All completed forms must be directed to tyree.ross@us.af.mil.

Past Performance Questionnaire will be used by the Government to obtain present/past performance information. The offeror shall send out and track the completion of Past Performance Questionnaires. The responsibility to send out and track the completion of the Past Performance Questionnaire rests solely on the offeror and shall not be delegated to any other entity.

(c) Performance Surveys: The government will evaluate the quality and extent of offeror's performance deemed relevant to the requirements of this RFP. The government will use information submitted by the offeror and any other sources of information available to the Government to assess past performance. Provide a list of no more than five (5) of the most relevant contracts performed for Federal agencies and commercial customers within the last three (3) years. Relevant contracts include services performed that are deemed recent, are similar in scope and magnitude of the effort and complexities this solicitation requires, based on technical factors and price factor of the current requirement.
