Single Source Justification (Simplified Acquisition)

Section A: General Contract Information
Contracting Activity: 502d Contracting Squadron (CONS/PKDC)
Project/Program Name: 502 LRS VM CISP (Commercial Internet Service
Purchase Request/Identification Number:
Estimated Contract Cost (including Options):

Section B: Description of the Supplies/Services Required
502 LRS is requesting commercial Internet and managed Wi-Fi services to support JBSA Logistics Readiness Squadron maintenance operations located at: -2130 Gary Ave Bldg 5008, Lackland AFB, TX 78236 - 2130 Gary Ave Bldg 5015, Lackland AFB, TX 78236 - 2566 Wilson Way, Fort Sam Houston, TX 78234 - 555 A St E, Randolph AFB, TX 78150.

Section C: Justification for Soliciting from a Single Source or Brand Name
Charter Communications Holding LLC/Spectrum currently has a connectivity infrastructure (i.e. Fiber Lines). Spectrum's lines on JBSA San Antonio bases are proprietary and only available from the service provider. The proposed services are the only known services brand that can satisfy the government's requirement and operational stability to programs is achieved by avoiding interoperability issues that could arise from using services from different providers. Attempting to use another provider's services would cause complications and would require extensive construction efforts and costs.

Section D: Efforts to Obtain Competition
A Notice of Intent (NOI) will be posted on sam.gov August 12, 2026, informing that we are intending to award a firm fixed price purchase order on a sole-source basis to Charter Communications Holding LLC for the service and installation of Commercial Internet Service.

Section E: Steps to Preclude Future Single Source or Brand Name Awards
502 LRS will continue to evaluate capabilities of other service providers through continuing market research and meeting with other vendors. Continued efforts in this regard will ensure the Government is getting the best value at a fair and reasonable price by ensuring the Government utilizes the most efficient and economical means possible.
