MEMORANDUM FOR RECORD

FROM: 126 ARW/MSC

SUBJECT: Site Visit Minutes — Install, Bird Netting and Curtains – W50S7S26Q0014

1. A site visit was conducted on 28 July 2026 at the 126th CES Classroom (Bldg 5002) for bird netting and abatement project. The following were in attendance:

   [see vendor sign-in sheet]

2. The Contracting Officer then walked through the key sections of the solicitation, highlighting the following key points:

   - The project will be subject to the Service Contract Labor Standards (SCA).
   - Under RFO 52.212-1 (Instructions to Quoters), vendors are now required to explicitly acknowledge all amendments as part of their quote submission.
   - Under RFO 52.212-2 (Evaluation), the methodology for Factor 1 (Technical Capability / Experience) was updated to state that vendors who attend the site visit will receive a boost in their technical rating.

3. Following the briefing, vendors were able to inspect the area. It was pointed out that the primary species of bird occupying the storage building (5018) was the barn swallow, which is protected under Federal and State Law (Migratory Bird Treaty Act). Nests must remain undisturbed until the young have left. This pushes the start date back for B5018 until at least October 2026. Quotes must reflect this.

4. The meeting concluded with a reminder that all technical questions were requested to be submitted in writing to the Contracting Officer. Answers would be provided through an amendment to the solicitation.
