FIRSTNET COMPACT RAPID DEPLOYABLE EQUIPMENT STATEMENT OF WORK

The Federal Emergency Management Agency (FEMA), Disaster Emergency Communications Division has the intent to purchasing FirstNet's Compact Rapidly Deployable (CRD) LS Plus Starlink Trays to provide additional cellular capabilities in disaster response/recovery operations.

The CRD is a deployable VSAT/Cellular node combo that provides public wifi, internet, FirstNet Band-14 access in no ATT coverage areas for First Responders. The LS Plus provides low-earth-orbit satellite connectivity for austere operations.
