SAWS Tailored Federal Supply Class (FSC) Item List

Excluded are items specially designed for nuclear, chemical, or biological ordnance applications. Also excluded are raw materiels (powders, liquids, metals, etc.). Included are components, spares, and other ancillary items required for the use or maintenance of the items. Descriptions are utilized to assist in defining areas that may not be self-evident but are not intended to constrain scope unless specifically stated as “excluded.”

GROUP 10
Weapons

FSC 1010 Guns, over 30mm up to 75mm
Includes Breech Mechanisms; Mounts; Grenade Launchers for Integral-Cartridge Grenades, Single-Shot or Auto-Loading or Automatic-Firing; Launcher, Grenade; Brush, Cleaning, Artillery; Cleaning Kit, Gun; Mortar, 60mm

FSC 1015 Guns, 75mm through 125mm
Includes Cannon, 81mm Mortar; Elevating Mechanism Mortar; Mount, Howitzer; Cradle, Cannon; Breechblock; Tube, Cannon; Breech Mechanisms; Mounts; Rammers; Mortar 4.2 inch; Cannon, 120mm Mortar

FSC 1095 Miscellaneous Weapons
Includes Line Throwing Guns; Catapult Guns; Saluting Guns; Signal Guns; Flare Guns; Barrage Balloons; Accessories, not elsewhere classifiable, for weapons in this group; Expendable Bomb Dispensers

GROUP 12
Fire Control Equipment

FSC 1240 Optical Sighting and Ranging Equipment
Includes Range and Height Finders; Telescopic Sights; Optical Instruments Integrated with Fire Control Equipment

GROUP 13
Ammunition and Explosives

FSC 1305 Ammunition, through 30mm

FSC 1310 Ammunition, over 30mm up to 75mm

FSC 1315 Ammunition, 75mm through 125mm

Includes Pyrotechnic Cartridges and Projectiles

FSC 1320 Ammunition, over 125mm

FSC 1325 Bombs
Includes Photoflash Bombs; Bomb Clusters. Excludes: Guided Bombs converted to Guided Missiles by addition of a means of propulsion (covered under Group 14)

FSC 1330 Grenades
Includes Components; Hand and Rifle Grenades; Smoke Grenades. Excludes Firing Devices (Launchers – see FSC 1010)

FSC 1340 Rockets, Rocket Ammunition, and Rocket Components
Includes Covers, Protective Rocket Warhead; Jettisonable Rocket Launchers; Conditioning Kits and Sets, Controlled Environment; and other peculiar components not classified elsewhere

FSC 1345 Land Mines
Includes Antipersonnel Mines; Antitank Mines

FSC 1346 Remote Munitions
Munitions items/systems that are not held by the soldier but are deployed for future activation. They may be put in place separately by the soldier or delivered from vehicles or aircraft by mechanical distribution methods. They may be command controlled or may use self-initiated firing systems that do not require soldier monitoring. All items in this class can be armed/disarmed remotely. Remote Munition Items and Systems used singularly or in combination to defeat a variety of threats; Self Destruction Mechanisms; Communication Modules; Command and Control systems.

FSC 1351 Underwater Mines and Components, Explosive
Includes Loaded Cases; Boosters; Detonators

FSC 1360 Depth Charges and Components
Inert includes Inert Firing Mechanisms; Pistols without Detonators; Extenders

FSC 1367 Tactical Sets, Kits, and Outfits
A collection of items which are used for a specific purpose. Each collection must include at least one (1) item of ordnance classified in Group 13. Ordnance may be non-lethal (as defined in the Department of Defense Directive 3000.3). These sets, kits, and outfits may include such items as uniforms, weapons, body armor, and the like. By themselves, each of these components belongs in an FSC other than 1367.

FSC 1370 Pyrotechnics
Includes Flares; Signals; Fireworks; Pistol Rocket Signals; Pyrotechnic Cartridges and Projectiles; Photoflash Bombs; Pyrotechnic Rockets

FSC 1375 Demolition Materials
Includes items for construction, quarrying, and demolition work such as Dynamite and other explosives packed in cylindrical paper cartridges or in bags, Demolition Charges, Blasting Caps, Blasting Time Fuses, Detonating Cord, Demolition Firing Devices; Booby Trap Mechanisms; Bangalore Torpedoes; Inert accessories and components such as Blasting Machines, Priming Adapters, and Detonating Cord Clips. Excludes Liquid Propellant Fuels and Oxidizers; Solid Propellants encased in consumable containers, for insertion into missile propulsion systems as integral parts.

FSC 1390 Fuzes and Primers
Includes only fuzes and primers for use in ammunition classified in FSCs 1310, 1315, and 1320. Excludes Fuzes and Primers for ammunition not classified in FSCs 1310, 1315, and 1320.

FSC 1395 Miscellaneous Ammunition
Includes Ammunition Shapes, such as Blanks, Disks, Slugs, Cups, and Rotating Bands (Shell Bands)

GROUP 14
Guided Missiles

Note: This group includes missiles (with or without warheads or explosive components) incorporating mechanisms capable of altering normal flight paths. Radar and infrared assemblies and components designed specifically for use with guided missiles are classified in the appropriate classes of this group. Excluded from this group are case sections, nose cones, flare sections, center sections, warheads, explosive components, rockets, and auxiliary components of missiles and reentry vehicles which are designed or constructed for exclusive use with or for housing of nuclear warheads and/or warhead sections. Also excluded are space vehicle nose cones and space capsules specifically designed to carry loads peculiar to space research and space travel.

FSC 1410 Guided Missiles
Includes only complete guided missiles, with or without warheads and explosive components, whether in assembled or unassembled form. End items, assemblies, parts, attachments, or accessories for use in or on guided missiles are classified in classes other than this class. Includes Complete Drones, initially designed as missiles, but converted to drone use. (Cross-reference to FSG 15)

FSC 1425 Guided Missile Systems, Complete
Includes only complete guided missile systems. Anything less than a complete system, such as individual end items, assemblies, parts, attachments, or accessories for use in guided missile systems are classified in classes other than this class. Excludes Guided Missile Subsystems.

FSC 1440 Launchers, Guided Missile Includes Airborne and Non airborne Guided Missile Launchers
Excludes Aircraft Launchers; Rocket Launchers

GROUP 15
Aircraft and Airframe Structural Components

FSC 1550 Unmanned Aircraft/Vehicle
Includes Unmanned Aircraft, Unmanned Aircraft Systems, Target Drone, Aerostat, Air Vehicle, Spinner Kit, Air Vehicle Assembly, Gimbal Pod, Ground Control, Undersea Vehicle, Drone System, Initial Spares, IR Pod, Parts Kit, Spares Package

GROUP 23
Ground Effect Vehicles Motor Vehicles, Trailers, and Cycles

FSC 2350 Combat, Assault, and Tactical Vehicles, Tracked
Includes Ammunition Laden Ground Unmanned Vehicle, Self-Propelled Air Defense Artillery Gun, Air Defense Missile System Carrier

GROUP 49
Maintenance and Repair Shop Equipment

FSC 4925 Ammunition Maintenance, Repair and Checkout Specialized Equipment
Includes specially designed maintenance, test, checkout, and repair shop specialized equipment, for maintenance and repair of ammunition items; adapters, ammunition feeders and hoppers; inspection and holding fixtures; linkers, linkers-delinkers, and delinkers to assemble and disassemble ammunition belts; surveillance ovens; explosimeters; primer firing device fixtures; mandrels; repositioning machines; gas bomb service kits; test fixtures; panels; plug assemblies; and test sets for ammunition maintenance, checkout and repair.

GROUP 51
Hand Tools

FSC 5180 Sets, Kits, and Outfits of Hand Tools
Includes sets, kits, and outfits consisting of several different items classifiable either in a single class or in several classes

GROUP 52
Measuring Tools

FSC 5220 Inspection Gages and Precision Layout Tools
Included are special inspection gages; Go and Not-Go Gages, including Plug, Ring, Snap, Thread, and Length Gages; Profile Gages; Fixture Gages; Special Inspection Gages

GROUP 69
Training Aids and Devices

Note: Included are computers (including computer assemblies, computer systems, and components) designed specifically for use as, or with training aids and devices.

FSC 6910 Training Aids Includes Mockups
Includes Cutaway Models; Scale Models; Training Films; Training Aid Maps; Navigational Training Aids; Flight Instrument Training Aids; Aircraft Instrument Training Aids; Vehicle Training Aids; Engine Instrument Training Aids; Hydraulic System Training Aids; Cutaway, Mockup, or Sectionalized Ammunition only; Training Equipment normally used in classroom training. Excludes Drill, Dummy, Exercise, Practice, or Simulated Ammunition and Weapons as they are covered under their relevant category 1305, 1310, etc.
