L.12 GENERAL INSTRUCTIONS FOR PROPOSALS

(a) Proposals shall meet all aspects of this solicitation, including adequate information to enable the evaluation team to fully assess capability to perform contract requirements.

(b) Clarity: The proposal shall be clear and concise. The proposal shall include sufficient detail for effective evaluation and substantiation of all information. The proposal shall contain all necessary information, all required documentation, and be complete in all respects. The Government's evaluation will be based on the actual material presented and not based on what is implied. The proposal shall not simply rephrase or restate the Government's requirements but shall provide convincing rationale to address how these requirements will be met.

(c) Consistency: The Offeror shall ensure that the price proposal is consistent with the technical proposal in all respects since the price proposal may be used as an aid to determine the offeror's understanding of the technical requirements. Inconsistencies may be viewed by the evaluation team as a lack of understanding.

(d) Stand-alone Volumes: Each volume of the Offeror's proposal shall be submitted on a stand-alone basis so that its content can be evaluated by the Government without having to cross-reference to other volumes. **Information required by the solicitation to be included in a designated volume that is not found in that volume will be assumed to have been omitted from the designated volume and will not be evaluated.**

1. Proposal Volumes - The offeror shall **electronically** submit proposal in four separate volumes that include a Past Performance Volume - I, Oral Presentation/Technical Approach Volume - II, Price Volume - III, and Business Volume - IV and comply with the proposal organization, electronic submission requirements, page limitations, format, and other requirements/instructions as specified in the solicitation. The Government will evaluate proposals as set forth in Section M of this solicitation.

i. Volume I - Past Performance Proposal

ii. Volume II - Oral Presentation/Technical Approach Proposal

iii. Volume III - Price Proposal

iv. Volume IV - Business Proposal

2. All information contained in the proposal that an Offeror considers "Proprietary Information" shall be labeled **"Proprietary Information, Source Selection Information--See FAR 2.101 and 3.104."**
