3. Apex Pinnacle is being added as an approved source for potential cost savings and additional competition. Apex being added as an approved source allows them to quote prices directly from the OEM as opposed to quoting from an authorized distributor and paying passthrough costs. Additionally, adding more approved sources could promote competition which may lower costs from other authorized distributors in order to remain competitive.

4. On July 14th, 2026, Apex Pinnacle provided an authorization of distribution letter from American Industrial Heat Transfer, the OEM. Apex Pinnacle was approved as a source and added on July 20th, 2026 by Product Specialist [redacted]

5. The remainder of the original J&A remains unchanged.

As the Contracting Officer, I hereby certify that this addendum is accurate and complete to the best of my knowledge and belief.
