As the Original Equipment Manufacturer (OEM) of the item, Sikorsky (Cage Code 78286) owns all rights to the technical data, specifications, and drawings required for its manufacture. The item to be procured is complex and must meet critical operational and reliability requirements, the achievement of which require unique production techniques and extensive and/or sophisticated testing. The Government does not own or possess any rights to the technical data, specifications, and drawings required to manufacture the item and it has been determined that it is uneconomical to purchase them. The item is the only one approved by the USCG's Aircraft Configuration Control Board for use on the MH-60T helicopter. In addition, USCG Aviation Engineering has assigned the item an Acquisition Method Code (AMC) of 3.
