Brand Name Justification:
☒I recommend that NASA, NASA Shared Services Center negotiate only with vendors who can provide the subject brand name from ETS Lindgren for **ETS Lindgren Model 7000-010 EMCenter Modular RF Platform and 2 HI-6023 Field Probes**. The total estimated cost of this effort is [redacted] and the estimated period of performance or lead-time for delivery is 9/30/26.

This recommendation is for the acquisition of supplies or services determined to be reasonably available from only one source/only one manufacturer. Competition is impractical for the following reasons (please answer the questions below):

1. **What are the reasons for soliciting only the suggested source/suggested brand name?** Please provide the unique characteristics of the items or services along with the supporting rationale and the market research performed to substantiate your reason for the suggested source/brand name.

   The EMI lab has an electric field measurement system that is based upon the ETS Lindgren 4 field probe system. We need ETS Lindgren hardware to continue using 2 of our electric field probes. This procurement replaces 2 failed ETS Lindgren electric field probes and field probe controller to ensure compatibility with the 2 field probes we have.

2. **What is the impact to the government if another vendor/brand is used?** Include any dollar, schedule, or compatibility impacts if possible.

   If another brand of electric field probe system, an additional 2 probes will need to be purchased at an approximate additional cost of $30k to bring the total procurement ot $100k compared to the $70k of the requested brand procurement.
