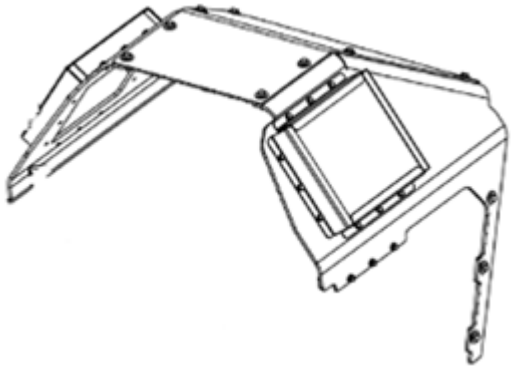
Salient Characteristics

48 SFS Overhead Gunner Protection Kit (OGPK)

RAF Lakenheath

Rev. 0003

21 July 2026



This Overhead Gunner Protection Kit (OGPK) for the Joint Light Tactical Vehicle (JLTV) must include:

-Must be installable onto current Gunner Protection on existing JLTV's manufactured by Oshkosh Defense

-Reinforced overhead structural cage and restraint system

- Must be constructed from minimum 3/8th inch steel

• Windows must be 12 in x 12 in and fitted with transparent ballistic glass

- Must rigidly bolt directly to the JLTV's pre-existing structural frame, guaranteeing the gunner's safety in a rollover

- Must include all required high-strength, vehicle-grade mounting hardware

- Must include detailed, step-by-step installation instructions

- The central design principle of this Gunner Protection Kit is to be completely unobtrusive, guaranteeing no obstruction to the weapon system, the gunner's freedom of movement, or their access to critical equipment.

- Must meet the requirement of 25 Green OGPKs and 22 Tan OGPKs to total 47 OGPKs

Delivery

Must coordinate with 48 SFS POC to deliver to **48 SFS S4 Warehouse Building #1027, RAF Lakenheath, Brandon, Suffolk, IP27 9PN**
