☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor [ ] is not, [ ] is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this amendment is to insert two clause, remove a clause, address Schedule of Values (SOV) for invoicing, and provide a question and response.

The awarded contractor shall submit a Schedule of Values (SOV) with each invoice. The contractor may invoice only for SOV line items that have been fully completed during the billing period.

FAR clause 52.249-10 is removed from the solicitation. Terminations for default are governed under FAR clause 52.212-4, which fully addresses termination for cause for commercial items.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

52.225-12	NOTICE OF BUY AMERICAN REQUIREMENT—CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS ALTERNATE I (MAY 2014) AND ALTERNATE II (NOV 2023)	MAY 2014

Vendor Question:
Drawing EP601 indicates that MCC-B is fed from MCC-A. MCC-A is being replaced under the solicitation. Per a previous RFI response, MCC-B is required to remain energized.

1. Please provide the temporary feed point, drawing details, and scope of work necessary to maintain power to MCC-B during the replacement of MCC-A.
2. Please confirm whether any existing loads currently fed from MCC-A are required to remain energized during MCC-A replacement. If temporary feeding of any loads is required, please provide the temporary power source, associated drawings, and scope of work.

Government Response:

1. MCC-B shall be temporarily fed from the new 400A Temporary Panel “T” as shown on Drawing ET601.
2. The Government is determining whether any existing loads served by MCC-A must remain energized during replacement. Should temporary power be required for any MCC-A loads, the contractor will be notified, and the Government will identify which loads require temporary power. The contractor shall then confirm whether those loads can be accommodated using the available capacity on Temporary Panel “T,” which currently has approximately 200A spare capacity. MCC-B is expected to draw approximately 140A, leaving an estimated 60A available for any additional temporary load requirements.
