	This amendment provides the 2026 Hazardous Building Materials Survey Report for the Seed Project. Information included in the 2009 hazardous material reports has been included in the 2025 report, so the 2009 reports will not be released. There are additional buildings identified in the report that are not included in this contract; please disregard these. This amendment also attaches a spreadsheet of estimated quantities for the Seed Project. Please assume these quantities when proposing. If actual quantities differ substantially, the Government and awardee will negotiate a modification. Answers to unaddressed questions will be provided via subsequent amendment. This amendment extends the proposal due date. However, this due date may be extended again based on the date the Government issues final answers to all outstanding questions. It is the Government's intent to provide offerors approximately two weeks from the time of final answers to the time of proposal, although the Government reserves the right to alter this timeframe for any reason. Period of Performance: 09/23/2026 to 09/22/2031
