Technician	Collington, Wayne	**Work Function**	Equipment Specialist	**Phone**		**Code**	N5221.ES
Buyer	Fiocca, Sabrina	**Work Function**	Contract Specialist	**Phone**		**Code**	APAB.42

2. Description of the Action Being Approved

Description Negotiation and award of a contract through other than full and open competition.

3. Description of Supplies/Servies

This J&A covers the acquisition of the following

☑ Spares ☐ Repair/Overhaul ☐ Modification ☐ Management ☐ Piece Parts ☐ Data Report

Nomenclature	CONTROL PANEL,RADIO	**Quantity**	21
NSN	7RH 5999 016690029 CB	**Cage Code**	
P/N	760-1000-400	**Unit Price**	[redacted]
Option	N	**Option %**	**Days**
Estimated Value	[redacted]		

Ship To

Period of Performance: Expected Final Delivery Date 11/06/2027

4. Statutory Authority Permitting Other Than Full & Open Competition

This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1

5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC C

This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing/repair knowledge by the qualified source(s) require acquisition/repair of the part from the approved source(s). The approved source(s) retain data rights, manufacturing/repair knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application. If one source is approved, A/RMCs 3, 4, or 5 are valid. If at least two sources are approved or if data is adequate for an alternate source to qualify in accordance with the design control activity's procedures, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

TELEPHONICS CORP 78711 Per JDRS, this item has been deemed a Critical Application Item (CAI), thus limiting qualified sources. The acquisition/repair of the item listed above will be solicited to TELEPHONICS CORP 78711 because they are currently the only capable source with the technical data required to manufacture, test and certify this item prior to unit delivery and is the sole approved manufacturing source identified in JDRS. All alternate sources must qualify IAW the DCA's procedures, as approved by NAVAIR/NAVSUP WSS Source Development Department prior to contract award. Since the Navy does not possess sufficient rights to information such as drawings, specifications, and/or test equipment/procedures, a full and open competitive solicitation cannot be supported. NAVSUP-WSS must procure the item from TELEPHONICS CORP 78711.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

The proposed contract action was synopsized on the government-wide point of entry on 07/11/2025

and as a result Transaero, Inc. expressed an interest via email on 01/16/2026 and have been invited to submit a Source Approval Request to Source Development. They've been notified of the following: Award of a contract for a current solicitation may continue based on fleet logistics support needs. If evaluation of the source approval request cannot be processed in time to meet these needs, award will be made to a currently approved source. The source approval request will be processed for consideration against future requirements. Qualification by any method does not guarantee future contracts but does allow competition with other qualified sources when requirements arise.

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

The latest configuration has been checked and all records (ITIMP, JDRS/ASE, etc.) have been properly aligned, identified, and documented. This item has been deemed a Critical Application Item, thus limiting qualified sources. Per JDRS, TELEPHONICS CORP 78711 is the only approved source at this time. The data necessary to solicit this item from sources other than TELEPHONICS CORP 78711 is not physically available and is uneconomical to obtain. The available

technical data is insufficient for the development of new sources. Source Development Department files indicate no Source Approval Request (SAR) has been received from any party interested in becoming an approved source. Telephonics (78711) is the only approved source at this time.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS will continue to encourage vendors with the expertise to manufacture/repair the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also, future requirements will be advertised on the government-wide point of entry. For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
