Performance Work Statement (PWS)

Facility and Equipment Maintenance & Repairs for DeCA Facilities, Wiesbaden

1 SCOPE.

1.1 The Defense Commissary Agency (DeCA), a United States (U.S.) Federal Government agency within the Department of Defense, provides routine and uninterrupted availability of mission-critical supermarket resources to support the military and their families in the U.S. and host nations worldwide. To effectively deliver supermarket resources in host nations, DeCA relies on locally available commercial contracted maintenance and repairs services providers to ensure the continuous, safe, and compliant operation of all building systems, infrastructure, and food-handling equipment.

1.2 The Contractor shall provide Preventive Maintenance, Emergency Maintenance, and Unscheduled Maintenance services for DeCA's Wiesbaden commissary facility and equipment in accordance with: commercial standards; host nation and European Union laws; Department of Defense, United States Army Europe (USAEUR), and United States Armed Forces Europe (USAFE) regulations; and DeCA's standards. Commercial standards shall include service bulletins and manufacturer guidance to ensure equipment operates as intended, leading to a longer lifespan and reliable performance. Hereinafter, these shall be collectively referred to as guidance. If two or more of these guidances conflict, the more stringent will be followed. The addition or removal of a new or existing facility within the host nation or equipment within a location shall not be considered an out-of-scope change. Adding or removing a facility shall be completed thru the formal MOD process.

1.3 The Contractor shall reduce the environmental impacts caused as a result of work performed under this contract by using, to the maximum extent possible, environmentally sound practices, processes, and products. The Contractor is responsible for the cleanup, removal and safe disposal of any hazardous materials or substances, to include fluorescent bulbs and refrigerants, generated during contract performance.

1.4 This contract is a non-personal services contract. The Government shall not exercise any supervision or control over the contract service providers (CSPs) performing the services herein. Such CSPs shall be accountable solely to the Contractor who, in turn is responsible to the Government.

2 KEY GOVERNMENT PERSONNEL, SYSTEM, AND SOFTWARE.

2.1 Key Government Personnel.

2.1.1 Contracting Officer (KO) is responsible for making contracting decisions, awarding contracts, negotiating terms, obligating funds, and monitoring contractor performance throughout the contract lifecycle. The Contracting Officer is also responsible for appointing and overseeing Contracting Officer's Representatives (CORs) who provides technical monitoring and guidance to the contractor.

2.1.2 Contracting Officer's Representative (COR) is responsible for monitoring the day-to-day administration of the contract, providing technical guidance, inspecting and accepting/rejecting deliverables, and documenting performance and issues. It is crucial that the COR does not make commitments affecting price, quantity, or delivery and understands they are not the contracting officer, as the latter is the only individual authorized to modify a contract.

2.1.3 Store Management are responsible for requesting new work through the Service Order Management System (SOMS), signing work certificates and completed Preventative Maintenance (PM)

check lists, coordinating store support to work, and serves as the primary point of contact for completion of work orders.

2.2 System. The Government's desired outcome is to retain a complete electronic record of WOs submitted, approved, cancelled, rejected, accepted, and invoiced and master inventory of facilities and equipment requiring maintenance services in a single system. Failure to document in the SOMS shall be considered non-performance.

2.2.1 DeCA currently uses an on-line service order management system (SOMS) to track and archive its facility and equipment maintenance. SOMS is a secure, web-based system, which will be used by the Government and the Contractor for services performed under this contract.

2.2.2 The Government reserves the right, at any time during the contract performance period, to change its service order management system. The Contractor shall transition to the new system of comparable functionality. A reasonable period for transition and training will be provided by the Government. The transition time line shall be established at the time of implementation of the new system. The transition shall be completed without additional cost to the Government. If the government fails to provide a work order processing system, then the contractor shall provide a replacement system. See Annex I for description of desired system and the data and other format and process requirements of a contractor provided work order system.

2.2.3 If any WOs are processed by any means other than use of the SOMS or other system provided by the Government, such WOs shall be uploaded, recorded and tracked in SOMS.

2.2.4 The Government will provide training to Contractor personnel upon contract award. Training will enable management and labor personnel (i.e., technicians) to properly complete and submit the required information for work orders to include uploading supporting documents. Training will explain the workflow process to ensure work does not begin prior to approval. The Government will provide this training through a one-time training session for the Contractor's key personnel and trainers upon contract award. The Contractor is subsequently responsible for training all its new and existing employees.

2.2.5 The Government will review each submitted WO and cost estimate or proposal for adequacy, accuracy and reasonableness prior to approving, and will refer incomplete or inadequate submittals back to the Contractor for additional information or corrections. The Contractor shall re-submit the WO after the additional information or corrections has been completed.

2.3 Software. This requirement is not for the procurement of software. The Contractor shall use software that is compatible with the Government's software. The Government uses Microsoft Office Suite applications.

2.3.1 The Contractor shall be able to open, view, edit, and save documents received from the Government without data loss, system crashes, or decreased performance. The Contractor's software shall be capable of working with older versions enabling upgrades without losing access to existing data and applications.

2.3.2 The Contractor's documents shall be able to be opened, edited, and saved by the Government without data loss, system crashes, or decreased performance and not require extensive modification to be used by the Government's system.

2.3.3 Data corruption, system crashes, decreased performance or other issues resulting from the Contractor's software being incompatible with the Government's software shall be considered non-performance.

3 MAINTENANCE TYPES.

The Contractor shall provide Preventive Maintenance, Emergency Maintenance, and Unscheduled Maintenance services. Preventive Maintenance, Emergency Maintenance, and Unscheduled Maintenance services may result in repair, replacement or maintenance of facilities and equipment customarily used in the course of providing grocery resale products and services in supermarket facilities. For a list of types of items that are covered by this contract see Annex A. A list of items in the store that are not covered by this contract can be found in Annex B

3.1 Preventive Maintenance (PM). This service is defined as the act of performing regularly scheduled maintenance activities to help prevent unexpected failures in the future. PM encompasses services, inspections, and adjustments necessary to keep the maintained piece of equipment in proper working order. These services are initiated through work orders automatically generated in SOMS, in accordance with the uploaded PM.

3.1.1 The Contractor shall establish a PM program that identifies an inspection schedule for commissary facilities and equipment.

3.1.1.1 The Contractor shall complete a 100% inventory of facilities and equipment validating and updating the inventory list of facilities and equipment to be included in the PM program. The same inventory list will be used for Unscheduled Maintenance (UM) and Emergency Maintenance (EM) services. The current inventory can be found in Annex C. In addition to facilities and equipment, the Contractor shall inventory the refrigerant gases to include identifying type and charge for each piece of equipment included in the inventory list requiring refrigerant gases. Facilities and equipment included on the inventory list shall have a Contractor generated label attached to them at time of inventory list submission. If an inventory item is missing an inventory label, the Contractor shall produce the label and affix it to the item. The standards for labeling can be found in Annex D The Contractor shall submit the verified inventory list to DeCA within 30 days of contract award. If the contractor finds discrepancies in the inventory, then the contractor shall make corrections. The corrected inventory list procedures can be found in Annex F.

3.1.1.1.1 DeCA will review the inventory list to ensure only facilities and equipment to be covered by this requirement are on the list. DeCA will inform the Contractor of any facility or equipment not covered and the Contractor shall remove the facility or equipment from the inventory list. Additionally, DeCA will inform the Contractor of any facility or equipment omitted from or new to the inventory list. The Contractor shall add the facility or equipment immediately to the inventory list to include generating and attaching a label to the facility or equipment.

3.1.1.1.2 The Contractor shall conduct a 100% inventory on a quarterly basis and submit an updated inventory list not later than the last day of the quarter to the inventory to the COR.

3.1.1.1.3 The Contractor shall ensure Contractor generated labels are attached new equipment

The schedule shall also be annotated on the inventory sheet. The Contractor shall provide the month's PM schedule by the 1st workday of the month

3.1.1.3 The PM checklists shall meet all applicable requirements of the laws, regulations, and standards stated and shall be updated to reflect changes as they occur. DeCA's standards require the following to be added to the PM checks.

3.1.1.3.1 For refrigeration and HVAC items, the PM checklist shall include functional cleaning of components. The functional cleaning includes, but is not limited to: removing dust, dirt, and debris from condenser coils, evaporator coils, and fans; and removing dust, dirt and debris from machine and technical spaces.

3.1.1.3.2 For exhaust hoods with fire suppression, item code FI, the Contractor's checklist shall include cleaning the hood and ductwork twice a year and officially inspect once a year.

3.1.1.3.3 For ventilation systems, the procurement and the replacement of the filters is part of the PM service.

3.1.1.3.4 For fire extinguishers, the PM service includes all required inspections and certifications (stickers).

3.1.1.3.5 for all PM inspections, the inspection checklist shall have the item's manufacturer name, model number, serial number, and DeCA bar code, refrigerant F-gas, and F-gas charge (if they exist). If any of these data points disagree with the current inventory, the contractor shall include the discrepancy on the month's PM finding report.

3.1.1.4 For each task identified per each piece of equipment in the PM program, the Contractor shall follow the identified intervals of performance shown in the Exhibits by numeric identifier. The most common intervals are:

1 = Annual	6 = Bi Monthly	12 = Monthly
2 = Semi Annual	11 = Monthly minus more complex Annual inspection	26 = Bi Weekly
4 = Quarterly		52 = Weekly

3.1.2 The PM program shall include documenting PM services in SOMS.

3.1.2.1 The Contractor shall establish PM work order requests in accordance with the PM schedule prior to performing the PM service.

3.1.2.2 The Contractor shall perform the identified tasks according to the work order request and shall record observations, improper operational findings, corrective actions taken, and corrective actions recommended.

3.1.2.3 The Contractor shall provide copies of the completed checklists to store management within three days of completion of the tasks for Government review and signature.

3.1.2.4 The Contractor shall post copies of signed checklists and any supporting documentation to SOMS within seven days of completion and close out the work order.

3.1.2.5 The Contractor may invoice for PM services only after services are accepted in SOMS.

3.1.3 Monthly, the Contractor shall, as part of the PM program, create a consolidated list of recommended corrective actions (any identified issues that cannot be corrected through the PM service) from all the month's completed PM services. This list, also known as PM findings, shall be provided to the store management and COR. The list is due by the 7th day of the following month.

3.1.4 The PM program shall include a walk-through of the entire facility the first full week of each month. The Contractor shall report additional repairs, replacement, or maintenance, observations and conditions of non-PM facility fixtures (e.g., walls, floors, ceilings) identified. The contractor shall include the identified needed repairs as part of the monthly PM findings.

3.2 Unscheduled Maintenance (UM). This service is defined as maintenance activities or repairs triggered by unexpected equipment failures or issues that pose an immediate threat to safety, property, or operations. It requires immediate attention and action to mitigate risks and restore functionality. These services will be initiated by the Government.

3.2.1 The Contractor shall provide an estimate in SOMS to include supporting documents and photos within 14 days of receipt of SOMS work order with "proposal requested" status. This estimate shall be provided to DeCA at no cost.

3.2.1.1 The estimate shall be a firm fixed price and include contract labor, materials, and sub-Contractor services.

3.2.1.2 The estimate shall be in sufficient detail to enable the Government to determine the estimate is fair and reasonable. Multiple revised estimates may be necessary to come to agreement on a fair and reasonable price.

3.2.2 The Contractor shall not incur costs for the UM services until the SOMS work order status changes to "request for services" status.

3.2.3 The Contractor shall complete UM services within 45 calendar days of "request for service". If UM services cannot be complete within 45 calendar days due to reasons beyond the Contractor's control, then the Contractor shall inform the COR and annotate the reason on the SOMS work order.

3.2.4 The Contractor may invoice for UM services only after services are accepted in SOMS.

3.3 Emergency Maintenance (EM). This service is defined as maintenance activities triggered by unexpected equipment failures or issues that pose an immediate threat to safety, property, or operations. It requires immediate attention and action to mitigate risks and restore functionality. Unlike UM, EM services are ones that are necessary to stop a potential loss of life, personal safety or health, loss of refrigeration, loss of product, or facility security. These services are initiated by the Government.

3.3.1 The Contractor shall establish and maintain emergency response call telephone number. This telephone shall be manned 24 hours a day 7 days a week. EM services are initiated as a result of the Government calling the Contractor's emergency response telephone. The contractor shall provide this number at least 7 days before the start of maintenance services (UM/PM/EM).

3.3.2 The Contractor shall dispatch qualified personnel to the location requiring the EM service only if the request meets the DeCA's emergency criteria. See Annex E.

3.3.2.1 Contractor personnel shall arrive on site within three hours of the call.

3.3.2.2 The Contractor shall assess the issue and determine if the EM services will cost more than €3,000.00. The cost shall be a firm fixed price and include contract labor, materials, and sub-Contractor services. If the COR is unreachable, the Contractor shall perform the minimum work necessary (mitigating repair) to stabilize the emergency situation and prevent further damage or loss, and then await formal direction before proceeding with the full repair.

3.3.2.2.1 If EM services will cost more than €3,000.00, the Contractor shall contact the COR for guidance and direction before continuing. If the COR is unreachable, the Contractor shall perform the minimum work necessary (mitigating repair) to stabilize the emergency situation and prevent further damage or loss, and then await formal direction before proceeding with the full repair.

3.3.2.2.2 If EM services will cost less than or be equal to €3,000.00, the Contractor shall either correct the issue or make a mitigating repair.

3.3.2.3 The Contractor shall brief the store management on what was completed, additional work needed, and any mitigating requirements prior to departure.

3.3.2.4 The Contractor shall complete remaining work to bring the system back to fully operational within 45 calendar days. If EM services cannot be complete within 45 calendar days due to reasons beyond the Contractor's control, then the Contractor shall inform the COR and annotate the reason on the SOMS work order.

3.3.2.5 The Contractor shall document EM services in SOMS.

3.3.3 The Contractor may invoice for EM services only after services are accepted in SOMS.

3.4 Service Times. PM, EM, and UM services may be performed during any time the facilities are occupied by DeCA personnel. PM and UM repairs that interfere with normal sales operations may be performed at times other than normal sales operating hours. EM services will be performed at any time they are required (24/7), to include Saturdays, Sundays, and European Regional and Federal, and US Federal holidays.

3.4.1 The hours a DeCA facility is occupied varies by location. The Contractor shall coordinate with on-site store management. Hours occupied include local legal require for regular hours (i.e., Monday through Friday 7:30 AM to 4:00 PM daily).

3.4.2 The normal sales operations hours vary by location. The normal sales hours are posted and are the hours authorized patrons may be present in the facility.

3.5 Recommendations. The Contractor shall recommend any additional facility or equipment maintenance or repairs identified during the performance of PM, EM or UM, with the goal of minimizing emergency maintenance, preventing recurring issues, and operating in an energy efficient and cost-effective manner. The recommended list of additional repairs shall be included in the monthly PM findings list.

3.6 Repair by Replacement (RBR). Repair by replacement is a maintenance strategy where a broken part or component is replaced with a new one to fix an item, rather than repairing the original part. The Government reserves the right to require replacement in lieu of repairs via issuance of a separate Task Order.

3.6.1 RBR will be processed thru SOMS and follow the same procedures with a few exceptions. The offer shall be a more in-depth cost proposal and include schedule, materials, and labor. The approved cost proposal shall dictate the schedule.

(End of clause)

252.247-7023 Transportation of Supplies by Sea. **(Oct 2024)**

TRANSPORTATION OF SUPPLIES BY SEA-BASIC (OCT 2024)

(a) *Definitions.* As used in this clause-

"Foreign-flag vessel" means any vessel that is not a U.S.-flag vessel.

"Ocean transportation" means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in 33 CFR 2.24.

"Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

"Supplies" means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

"U.S.-flag vessel" means either a vessel belonging to the United States or a vessel of the United States as that term is defined in 46 U.S.C. 116.

(b) If the transportation of supplies by sea is anticipated under this contract, the Contractor shall-

(1) Notify the Contracting Officer and Maritime Administration (MARAD) at *Cargo.Marad@dot.gov*-

(i) Within 3 business days after contract award; or

(ii) Immediately prior to the shipment departure date necessary to meet delivery schedules, whichever is earlier; and

(2) Include in the notification-

(i) A statement of the Contractor's intent to transport supplies by sea;

(ii) The contract number; and

(iii) The task-order or delivery-order number, when applicable.

(c)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if-

(i) This contract is a construction contract; or

(ii) The supplies being transported are-

(A) Other than commercial products; or

(B) Commercial products that-

(1) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it subcontracts for f.o.b. destination shipment);

(2) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations; or

(3) Are commissary or exchange cargoes transported outside of the Defense Transportation System in accordance with 10 U.S.C. 2643.

(d) The Contractor and its subcontractors may request, via the Contracting Officer, a waiver of the requirement to use a U.S.-flag vessel, or identification of any available U.S.-flag vessels, if the Contractor or a subcontractor sufficiently explains that-

(1) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or

(2) U.S.-flag vessels are otherwise not available.

(e) The Contractor must submit any request for use of foreign-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, however, if a DoD waiver is not approved prior to the shipper's sailing date, this will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum-

(1) Type, weight, and cube of cargo;

(2) Required shipping date(s) and required delivery date(s);

(3) Special handling and discharge requirements;

(4) Loading and discharge points;

(5) Name of shipper and consignee;

(6) Prime contract number; and

(7) A documented description of current, diligent efforts made to secure U.S.-flag vessels, including points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted. Copies of quotes will suffice for this purpose. Copies of telephone notes, emails, and other relevant communications will otherwise be considered for this purpose.

(f) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and MARAD at *Cargo.Marad@dot.gov*, Attention: Military Team, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

(1) Prime contract number;

(2) Name of vessel;

(3) Vessel flag of registry;

(4) Date of loading;

(5) Port of loading;

(6) Port of final discharge;

(7) Description of commodity;

(8) Gross weight in pounds and cubic feet if available;

(9) Total ocean freight in U.S. dollars; and

(10) Name of the carrier.

(g) If this contract exceeds the simplified acquisition threshold, the Contractor shall provide with its final invoice under this contract a representation that to the best of its knowledge and belief-

(1) No ocean transportation was used in the performance of this contract;

(2) Ocean transportation was used and only U.S.-flag vessels were used for all ocean shipments under the contract;

(3) Ocean transportation was used, and the Contractor had received a prior-approved waiver for U.S.-flag vessels for all foreign-flag ocean transportation; or

(4) Ocean transportation was used and some or all of the shipments were made on foreign-flag vessels without the written consent of DoD. The Contractor shall describe these shipments in the following format:

	ITEM DESCRIPTION	CONTRACT LINE ITEMS	QUANTITY
	____	____	____
TOTAL	____	____	____

(h) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

(i) If the Contractor did not anticipate transporting any supplies by sea at the time of contract award and, therefore, did not provide the notification required by paragraph (b) of this clause, but prior to shipment of supplies, the Contractor learns that supplies will be transported by sea, the Contractor shall-

(1) Provide the notification required by paragraph (b) of this clause to the Contracting Officer and MARAD as soon as it is known that supplies will be transported by sea; and

(2) Comply with all the terms and conditions of this clause.

(j) *Subcontracts*. In the award of subcontracts, for the types of supplies described in paragraph (c)(2) of this clause, including subcontracts for commercial products, the Contractor shall flow down the requirements of this clause as follows:

(1) The Contractor shall insert the substance of this clause, including this paragraph (j), in subcontracts that exceed the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

(2) The Contractor shall insert the substance of paragraphs (a) through (f) of this clause, and this paragraph (j), in subcontracts that are at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation. (Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions.* As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [*Offeror must select one*] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.

(a) *Submission of offers*. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. As a minimum, offers shall include-

(1) The solicitation number;

(2) The name, address, telephone number of the Offeror;

(3) The Offeror's Unique Entity Identifier (UEI) and, if applicable, Electronic Funds Transfer (EFT) indicator;

(4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;

(a) Information needed to demonstrate the offeror can meet the requirement to be at the store within 3 hours of receiving an emergency call.

(b) Information needed to demonstrate the offeror can satisfactorily perform in accordance with the performance work statement and have the internal workforce to meet 70 percent of the tasks. Provide list of personnel by trade and skill, annotating whether personnel are internal or subcontractor.

(c) Offerors must complete A.15.01.03.10 Solicitation Attachment 1 Pricing Worksheet.

(5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and

(6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) *Period for acceptance of offers*. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) *Late submissions, modifications, revisions, and withdrawals of offers*.

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.

(2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) *Debriefings*. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

(3) The overall ranking of all Offerors when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award.

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful Offeror.

(6) Reasonable responses to relevant questions posed by the debriefed Offeror as to whether the agency followed source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities.

252.204-7024 Notice on the Use of the Supplier Performance Risk System. **(Mar 2023)**

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM (MAR 2023)

(a) *Definitions*. As used in this provision-

"Item risk" means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

"Price risk" means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

"Supplier risk" means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at *https://piee.eb.mil/*, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

(1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.

(2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.

(3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at *https://www.sprs.csd.disa.mil/reference.htm*. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. The method to challenge a rating generated by SPRS is also provided in the user's guide. SPRS evaluation criteria are available at *https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf*.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation 2026-O0038) (Tailored) (Feb 2026)

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Technical

Past Performance

Price

To be considered for award the price schedule must match the pricing from A.15.01.03.10 Solicitation Attachment 1 Pricing Worksheet.

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
