submitted and distributed in accordance with paragraphs 2, 3 and 4 below except as specified in paragraph 5 below.

2. Format.a. Class I ECPs require the "Long Form Procedure" for documenting the change and describing the effects of the change on the suitability and supportability of the Configuration Item (CI). Class I ECPs should be limited to those that are necessary or offer significant benefit to the Government. Class I ECPs are those that affect the performance, reliability, maintainability, survivability, weight, balance, moment of inertia, interface characteristics, electromagnetic characteristics, or other technical requirements in the specifications and drawings. Class I ECPs also include those changes that affect Government Furnished Equipment, safety, compatibility, retrofit, operation and maintenance manuals, interchangeability, substitutability, replaceability, source control specifications and drawings, costs, guarantees or warranties, deliveries, or schedules. Class II ECPs are those that do not affect form, fit and function, cost, or schedule of the system CI and do not meet the other criteria described above for Class I ECPs.

b. Long Form Procedure: Class I changes to the CI require that DD Form 1692, pages 1 through 7 (as applicable), be prepared. Use of this procedure assures that all effects of the change on the CI are properly addressed and documented to the necessary detail to allow proper evaluation of the proposed change.

c. Short Form Procedure: ECPs and VECPs, which meet the requirements of Class II ECPs, shall be prepared using DD Form 1692 (page 1 only). Supplemental pages may be used with the form as necessary. The responsible Defense Contract Management Agency (DCMA) Contract Management Office (CMO) will validate data entries in Block 5 "Class of ECP", Block 6 "Priority", and Block 8 "Justification Codes."

d. The Contractor shall not manufacture items for acceptance by the Government that incorporate a known departure from requirements, unless the Government has approved an RFV. RFVs shall be prepared using DD Form 1694.

e. Each ECP and RFV shall be accompanied by a written and signed evaluation prepared by the responsible Defense Contract Management Agency (DCMA) technical representative. The DCMA written evaluation shall be considered part of the ECP/RFV proposal.

f. Classification of RFVs.

(1) Major RFVs. RFVs written against CIs shall be designated as major when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation involving health; performance; interchangeability; reliability; survivability; maintainability; effective use or operation; weight; appearance (when a factor); or when there is a departure from a requirement classified as major in the contractual documentation.

(2) Critical RFVs. RFVs written against CIs shall be designated as critical when the RFV consists of acceptance of an item having a nonconformance with contract or configuration
documentation involving safety or when there is a departure from a requirement classified as critical in the contractual documentation.

(3) Minor RFVs. RFVs written against CIs shall be designated as minor when the RFV consists of acceptance of an item having a nonconformance with contract or configuration documentation which does not involve any of the factors listed above in paragraphs f(1) or g(2), or when there is a departure from a requirement classified as minor in the contractual documentation.

g. Proposals shall include sufficient technical data to describe all changes from existing contract requirements.

h. Proposals shall include sufficient justification for making the change, including a statement of contract impact, if the change is not authorized.

i. Proposals for ECPs shall set forth a "not to exceed" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the equitable increase shall not exceed this amount.

j. Times allowed for technical decisions for ECP and RFV proposals will be worked out via mutual agreement between the Contractor and the Government.

k. Proposals for VECPs shall set forth a "not less than" price and delivery adjustment acceptable to the Contractor if the Government subsequently approves the proposal. If approved, the savings shall not be less than this amount.

l. The Contractor shall utilize DD Form 2617, "Engineering Release Record" (ERR) to release new or revised configuration documentation to the Government for approval.

m. The Contractor shall utilize DD Form 1695, "Notice of Revision" (NOR) to describe the exact change(s) to configuration documentation specified as a data requirement in the contract. The Contractor shall describe the change using sub-sections entitled "WAS" to describe the current contractual technical requirement and "IS" to describe the proposed new requirement.

3. Submittal. The preferred method of submittal is digitally as a single file in Adobe Acrobat Portable Document Format (PDF). Unless otherwise specified, alternate methods of submittal shall be proposed to and authorized by the PCO prior to submittal. If the hardcopy method is requested and approved, the Contractor shall submit two (2) copies of each proposal to the responsible Administrative Contracting Officer (ACO). One (1) copy of each proposal shall be returned to the Contractor within (5) working days after receipt by the ACO, stating whether or not the proposal is in compliance with this provision. Any unresolved differences between the ACO and the Contractor concerning ECPs, VECPs, or RFVs will be submitted to the PCO for resolution.

4. Distribution.

a. Electronic Distribution. The preferred method of distribution for unclassified is through the email or DOD safe site (https://safe.apps.mil) addressed to the PCO. Classified material shall be distributed via SIPERNET or by classified email as determined by the PCO. Microsoft Word is required for use with the transmittal letter (E-mail). Required forms will be attached to the E-mail. All forms may be obtained from the Office of the Secretary of Defense Executive Services Directorate DoD Directives Division website (http://www.esd.whs.mil/DD/) via the DoD Forms menu. The forms are provided in fillable Adobe Acrobat Portable Document Format (PDF). In order to access and use the forms, the user must have the "Adobe Acrobat" software installed on their computer. Drawings may be scanned and sent as an attachment. In some cases, because of size, drawings may have to be sent as hard copies or sent under special electronic instructions provided by the PCO.

5. Alternate Format, Submittal or Distribution Process. Proposals may be prepared in a different format, submitted using a different

submittal process or distributed in a different manner than specified in paragraphs 2, 3 and 4 above, so long as the alternate approach is in accordance with a Government approved configuration management plan governed by this contract or the PCO authorizes the alternate format, submittal, or distribution process. 6. Government Acceptance. Acceptance of a proposal by the Government shall be affected by the issuance of a change order or execution of a supplemental agreement incorporating the proposal into the contract unless the PCO authorizes another method of acceptance. The Government will notify the Contractor in writing if a proposal is determined to be unacceptable.

H-2. IDENTIFICATION MARKING REQUIREMENTS
Item shall be marked per MIL-STD-130.

H-3. REVISIONS TO DRAWINGS/PART NUMBERS REQUIREMENT

If complete data package has not been previously provided, the contractor shall, at no direct cost to the Government, immediately submit applicable drawings, along with a copy of the approval change authority, to the Contracting Officer, at the office symbol and mailing address listed in the "ISSUED BY" block on page one (1) of this document. The minimum acceptable data includes the next higher assembly and the item of Supply Detail Drawings which will allow provisioning, National Stock Number assignment and updating of AMCOM's data records.
(b) The contractor hereby verifies previous contractual submission of technical data:

(c) The Government is not by this request soliciting, nor is the Government liable for cost incurred by the offeror in preparing or developing modifications, deviations, waivers, or other changes to drawings or part number(s). Furthermore, this request does not authorize changes to the drawing(s) or part number(s) for this acquisition, another contract, or for any other purpose. Offerors performing any contract awarded as a result of this solicitation must comply with the drawing(s) and specifications as set forth herein, unless this solicitation is amended or any resulting contract is modified by the Contracting Officer.
(d) All proposed part number changes shall be submitted pursuant to the requirements of the requirement entitled, " ENGINEERING CHG PROPOSAL, VALUE ENG CHG PROPOSAL, REQUEST FOR VARIANCE, ENG RELEASE RECORDS, NOTICE OF REVISION, AND SPECIFICATION CHG NOTICE PREPARATION AND SUBMISSION INSTRUCTIONS.

H-4. DEFENSE PRIORITY AND ALLOCATIONS SYSTEM (DPAS) RATED AWARDS
Defense Priorities and Allocations System (DPAS) Rated Awards (JUNE 2025)
A DPAS rated order indicates the priority the contractor must give to the performance of the award. There are two priority ratings: "DX" and "DO". All "DX" rated orders have equal priority with each other and take preference over "DO" rated orders and unrated orders. All "DO" rated orders have equal priority with each other and take preference over unrated orders. (see 15 CFR 700.11 and DoDM 4400.1-M).
Mandatory Contractor Performance Scheduling
A contractor must schedule operations, including the acquisition of all needed production items, in a timely manner to satisfy the delivery requirements of each DPAS rated order. Additionally, contractors are required to use DPAS rated orders with their U.S. suppliers to obtain items needed to fill rated orders (15 CFR 700.15). Contractors may also use DPAS rated orders to obtain replacements of inventoried items used to fill rated orders (see 15 CFR 700.17(b)). Modifying production or delivery schedules is necessary only when required delivery dates for a rated order cannot otherwise be met. Since "DX" indicates the highest rated order, the manufacturer will schedule its production before processing other lower or unrated orders. "DX" rated orders must be given production preference over "DO" rated orders and unrated orders if necessary to meet required delivery dates, even if this requires the diversion of items being processed or ready for delivery against unrated orders. Similarly, "DO" rated orders must be given preference over unrated orders. If an accepted rated order of equal priority status conflicts with
other accepted rated orders of equal priority status, the contractor must prioritize the rated orders in the sequence in which the rated orders are to be delivered or performed (see 15 CFR 700.14).
Contractor Acceptance of a DPAS rated order:
[Contractors receiving an award that includes a DPAS rating shall advise DLA via the post award mailbox (DLAHSVPostAwardTeam@dla.mil) , if they cannot perform in accordance with the requirements of the applied DPAS rating. When rejecting an order in full, communication to the contracting officer must include a detailed reason for rejection. If the order can be fulfilled at a later date, the contractor must provide, a) the earliest possible delivery date, b) a detailed reason why the awarded delivery date cannot be met (e.g. reason should not simply state a production delay) and, c) an offer to accept the order based on that date. Contractors must advise DLA within fifteen (15) working days after receipt of a "DO" rated order, and within ten (10) working days after receipt of a "DX" rated order if they cannot perform in accordance with the DPAS rating. Contractors that do not contact DLA are self-attesting that they acknowledge receipt

of the award and will conform to the DPAS rating requirement. If the prescribed response time has passed and the contractor learns that shipment or performance will be delayed, the contractor is still required to notify DLA immediately.
Special Priority Assistance:
Preferential scheduling is a must for DPAS rated orders (see 15 CFR 700.14). If a contractor learns that a shipment or performance will be delayed after the allotted response time has passed or any other issue arises that will affect deliveries during the duration of the contract, the contractor is required to notify DLA immediately through the use of Form BIS-999, Special Priorities Assistance (SPA). Deviations from schedules cannot be approved without the completion and submission of this form. Once submitted, DLA and its customers will discuss the SPA for approval. The Department of Commerce requires an approved BIS-999 prior to reprioritizing DPAS rated orders and its schedules (See 15 CFR 700.50). Please contact DLA post award for any SPA questions or concerns.

H-5. WOOD PACKING MATERIALS REQUIREMENTS (AVN & MSL) A. Wood packaging material (WPM) means wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frame and cleats. The definition excludes materials that have undergone a manufacturing process, such as corrugated fiberboard, plywood, particleboard, veneer, and oriented strand board (OSD).
B. All Wood Packaging Material (WPM)) acquired by DOD must meet requirements of International Standards for Phytosanitary Measures (ISPM) 15, "Guidelines for Regulating Wood Packaging Materials International Trade." DOD shipments inside and outside of the United States must meet ISPM 15 whenever WPM is used to ship DOD cargo.
(1) All WPM shall comply with the official quality control program for heat treatment (HT) or kiln dried heat treatment (KD HT) in accordance with American Lumber Standard Committee, incorporated (ALSC) Wood Packaging Material Program and WPM Enforcement Regulations (see http://www.alsc.org/).
(2) All WPM shall include certification/quality markings in accordance with the ALSC standard. Marking shall be placed in an unobstructed area that will be readily visible to inspectors. Pallet markings shall be applied to the stringer or block on diagonally opposite sides of the pallet and be contrasting and clearly visible. All containers shall be marked on a side other than the top or bottom, contrasting and clearly visible. All dunnage used in configuring and/or securing the load shall also comply with ISPM 15 and be marked with an ALSC approved DUNNAGE stamp.
C. Failure to comply with the requirements of this restriction may result in refusal, destruction, or treatment at entry. The Agency reserves the right to recoup from the Contractor any remediation costs incurred by the Government.
D. Replacement Preservative for Pentachlorophenol
If packaging requirements of this contract specify the use of wood products and a preservative is required, Pentachlorophenol, commonly referred to as "Penta" or "PCP" is prohibited. Replacement preservatives are 2 percent copper naphthenate, 3 percent zinc naphthenate or 1.8 percent copper 8 quinolinolate.
(1) Heat Treatment: Boxes/pallets and any wood used as inner packaging made of non-manufactured wood shall be heat-treated. All non-manufactured wood used in packaging shall be heat treated to a core temperature of 56 degrees Celsius for a minimum of 30 minutes. The box/pallet manufacturer and the manufacturer of wood used as inner packaging shall be affiliated with an inspection agency accredited by the board of review of the American Lumber Standard Committee. The box/pallet manufacturer and the manufacturer of wood used as inner packaging shall ensure traceability to the original source of heat treatment.
(2) Marking: Each box/pallet shall be marked to show the conformance to the International Plant Protection Convention Standard. The quality mark shall be placed on both ends of the outer packaging, between the end cleats or end battens: on two sides of the pallet. Foreign manufacturers shall have the heat treatment of non-manufactured wood process verified in accordance with their National Plant Protection Organization's compliance program. In addition, wood used as dunnage for blocking and bracing shall be ordered with ALSC certified marking for dunnage or the markings may be applied locally at two foot intervals.

EVALUATION FACTORS FOR AWARD

This document incorporates one or more provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a provision may be accessed electronically at these addresses:

For FAR clauses: https://www.acquisition.gov/

For DFARS clauses: https://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html

Section M Evaluation
Evaluation Criteria

.Minimum technical requirements. To be technically acceptable and thus, eligible for award, a proposal must conform to ALL solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements provided within all sections of this solicitation and/or within its attached addenda. Proposals receiving a technical rating of "Unacceptable" will be ineligible for award.

2. Price. In addition to meeting the solicitation's technical and quantity increment or range requirements above and cost and pricing requirements below, the Government will evaluate a proposal's pricing for reasonableness. Evaluation of a proposal's pricing will not obligate the Government to order the estimated quantities or to distribute orders in the manner evaluated. The Government may reject a proposal as "Unacceptable", if its pricing is determined to be materially unbalanced.

3. Cost and Pricing Data. Offerors must provide all cost or pricing information required by FAR 15.4. Failure of a proposal to provide cost or pricing information required by FAR 15.4 will result in said proposal being deemed Unacceptable, and thus, ineligible for award.

Basis of Award

Lowest Priced Technically Acceptable (LPTA). In acquisitions in which more than one proposal is received, proposals will be evaluated using the Lowest Priced Technically Acceptable (LPTA) evaluation procedure to make a best value award decision. In these situations, the Government will award to the offeror which submits a technically acceptable proposal, with the lowest overall price. Because the Government intends to make an award based on the initial proposals, offerors are encouraged to make their best offers, initially; however, if deemed necessary, the Government reserves the right to enter discussions.

(b) Technical Acceptability. To be technically acceptable, a proposal must conform to ALL solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements provided within the solicitation or within its attached addenda. Proposals receiving a technical rating of "Unacceptable" will be ineligible for award."
