Postaward Small Business Program Rerepresentation (Feb 2026) (Deviation 2026-O0038)

(a) Definitions. As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at https://www.sba.gov/document/support--table-size-standards.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

Evaluation Factors for Award

ADDENDUM 52.212-2

The Government intends to award a Firm-Fixed-Price contract to the responsible offeror whose quote, conforming to the solicitation, is determined to represent the best value to the Government, price and other factors considered.

Evaluation Factors

All offers will be evaluated based on the following three factors:

1. Technical Acceptance

2. Lead Time in Total Project Completion TIme

3. Price

Basis for Award

The award will be made on the basis of a best-value tradeoff. For offerors determined to be technically acceptable, the government will conduct a tradeoff between Lead Time and Price. Lead Time is a more important factor than Price. The government is willing to award to a higher-priced offeror if their quote offers a more favorable lead time that is determined to be worth the additional cost. Only offerors that are rated "Acceptable" under the Technical Acceptance factor will be considered for award.

Technical Acceptance

This factor will be evaluated on an "Acceptable" or "Unacceptable" basis. To be rated "Acceptable," the offeror must demonstrate a complete understanding of and capability to meet all requirements outlined in the Statement of Need (SON) dated 3 June 2026. Failure to meet any of the requirements will result in the offer being rated "Unacceptable" and removed from further consideration.

Offerors must provide a detailed narrative demonstrating how they will meet each of the requirements outlined in the SON.

Lead Time

This factor evaluates the total time proposed by the offeror to deliver a fully operational system to the Government to include installation and delivery.

To be rated favorably, the proposed timeline must clearly integrate and account for all of the following milestones:

- Physical delivery of the equipment.
- Complete installation and utility connections.
- Completion of operator training as specified in Section 5 of the SON.

Offerors must propose a Total Project Completion Time in calendar days, measured from the date of contract award to completion of installation. Proposed timelines will be evaluated for compliance with the Statement of Need (SON), including all unit specific completion requirements. Shorter lead times will be considered more favorable.

Price

The price factor evaluates the total proposed price for fulfilling all requirements of the SON.

- Offerors shall provide a total, Firm-Fixed-Price (FFP) for all parts, materials, equipment, transportation, installation labor, and operator training services required to complete the project.
- The Government will evaluate the total price for fairness and reasonableness. Offerors should offer pricing consistent with pricing offered to their most favorable commercial customers.

Issuing a written notice of award or acceptance to the successful vendor within the specified acceptance period outlined in the quote will establish a legally binding contract without requiring additional steps from either party. The Government reserves the right to accept a quote (or part of a quote) before the vendor's specified expiration time, even if negotiations occur after its receipt, unless a written notice of withdrawal is received prior to award.

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price/approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

Technical Acceptability

___

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
