STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	This amendment is to add the Vendor Q&A. No other changes have been made and all terms and conditions remain the same. ------- ALL VENDORS SUBMITTING A QUOTE MUST PROVIDE CONFIRMATION THAT THEY ARE QUALIFIED AND ACTIVE HOLDERS OF THE LAND MANAGEMENT INTEGRATED RESOURCES (LMIR) BLANKET PURCHASE AGREEMENT. OFFERORS SHALL FURNISH APPROPRIATE DOCUMENTATION OR OTHER VERIFIABLE EVIDENCE DEMONSTRATING THEIR ELIGIBILITY UNDER THE LMIR BPA PRIOR TO PARTICIPATING IN THIS REQUEST FOR QUOTE. This is a Special Notice issued in accordance with USDA procurement policy under the Contracting Desk Book. The Department of the Interior's Wildland Fire Programs Office of Acquisition & Property Mgmt. intends to utilize the Land Management Integrated Resources (LMIR) Blanket Purchase Agreement (BPA) to support requirements for the Bureau of Land Management (BLM). The Government intends to competitively award a contract for broadcast herbicide treatment for approximately 1,358 acres of public lands within the Spokane District, Bureau of Land Management. The treatment area is located in the Airport pasture of the Fishtrap allotment, northeast of Sprague, WA. This area is highly susceptible to frequent wildfires due to its proximity to Interstate 90 and the high density of noxious weeds and invasive annual grasses. These treatments aim to mitigate wildland fire risk by reducing the horizontal and vertical continuity (Rate of Spread) and fuel loadings (ton/ac) of noxious weeds and invasive annual grasses and improve habitat for fire resilient native plant communities. The treatment area consists of one unit to be treated with the herbicide imazapic (Plateau) for the control of invasive annual grasses. The treatment area is a relatively flat parcel with terrain variation ranging from 2,000'-2,100'. There are topographical Continued...

	and unique features on the east side of the unit that may inhibit the use of ground-based broadcast application methods. The LMIR BPA is a national, multiple award contracting vehicle that encompasses a broad range of land management related services, including but not limited to: Professional Services, Fuels Reduction Treatment, Natural Resources Restoration, Engineering, and Project Management. The BPA is available for use by all Forests, Grasslands, and federal agencies. This is not a solicitation. This notice serves only to announce the Government's intent to issue a competitive BPA Call Order. It does not constitute a request for quotes, proposals, or any submission of information in response to this notice. This procurement is restricted to LMIR BPA awardees. Only those contractors already holding an active LMIR BPA are eligible to receive and respond to the forthcoming Call Order. Currently, 88 businesses are eligible under this BPA. The Call Order request for quotation (RFQ) will be issued directly via email to all LMIR BPA holders. Any amendments or updates to the RFQ will likewise be distributed via email to those same BPA recipients. This requirement will be competitively awarded under the existing LMIR BPA, which is continuously solicited on the Government Point of Entry (GPE) at SAM.gov. The Government will not provide feedback, debriefings, or evaluations regarding responses to this notice. However, the LMIR BPA is an open, continuous BPA, allowing new interested contractors to submit proposals for BPA inclusion throughout the life of the BPA. Information regarding the LMIR BPA can be found by searching "Contracts" at sam.gov under Solicitation Number 12363N23Q4023. Period of Performance: 09/01/2026 to 10/31/2026 Continued...
