CLIN DESCRIPTION

CLIN 0001: Clean/Dirty Separation Lockers (Brand Name or Equal to C+P "Classic PLUS" PSA Schwarz-Wei-Spind). Must provide separate internal compartments for the hygienic separation of street clothes ("white") and work/PPE clothing ("black"). Approximately 1900 mm to 2000 mm (Height) x 600 mm (Width) x 500 mm (Depth). Heavy-duty steel body and doors. Must include protective feet or a raised base (approximately 100 mm) to protect against floor moisture. Hinged steel doors equipped with a noise-dampening or "soft-stop" mechanism. Padlock-compatible rotary latch or ergonomic safety twist-lock mechanism. Must include adequate ventilation (e.g., louvers or perforation patterns in doors or body). Body in Light Grey (RAL 7035 or equivalent standard industrial grey) and doors in Architectural Blue (RAL 2406015 or equivalent standard industrial blue). With 2-year warranty.

CLIN 0002: Freestanding Locker Room Bench. Approximately 450 mm (Height) x 1000 mm (Width) x 350 mm to 360 mm (Depth). Sturdy square steel tubing (approximately 30 x 30 mm), powder-coated or painted for corrosion resistance. Hardwood slats (e.g., Beech or equal), planned, sanded, and clear-varnished for a smooth, splinter-free finish. With 2-year warranty.

CLIN 0003: Freestanding Backrest and Coat Rail. Length of approximately 1000 mm, seat height of approximately 450 mm, and overall height accommodating a coat rail (typically 1600 mm to 1700 mm). Same construction requirements as Item 2 (square steel tubing and clear-varnished hardwood slats). Hardwood slats matching the seating surface. Integrated overhead rail equipped with a minimum of four (4) double hooks. Hooks must feature a concealed or rounded-edge design for safety (meeting the functional equivalent of DIN 7917 safety standards to prevent injury). With 2-year warranty.

CLIN 0004: Interior Painting Services. Professional preparation and painting of approximately 210 square meters of interior wall space. Must include standard site prep, including masking off fixtures /floors, minor plaster repair, and surface smoothing prior to application. Standard commercial-grade latex interior paint (color and finish to be specified at award or via site visit). The wall paint color code for the rooms is 37206 using the StoColor system.

CLIN 0005: Interior Ceiling Painting Services. Professional preparation and painting of approximately 54 square meters of interior aluminum ceiling. Must include standard site prep, including masking off fixtures, surface cleaning and prepping prior to application. Standard commercial-grade latex interior white paint. Ceiling paint with color code 9016 with silky shine (" *Seidenglanzend")* finish.

CLIN 0006: Dismantling and Reinstallation of Locker. The contractor shall provide all labor and materials necessary for professional dismantling, safe removal, and subsequent installation of locker units, with the understanding that the existing lockers being removed cover the exact footprint and location where the new locker units are to be installed. The government will provide a trash container for the disposal of the dismantled units and associated debris. The government will coordinate the pick-up and disposal of the trash container. The service includes the professional

installation of new lockers (as specified in Item 1) ensuring they are plumb, level, and securely anchored to the wall and/or floor per manufacturer guidelines. Upon completion, the contractor must remove all tools, equipment, packaging materials, and installation-related debris to leave the work area in a clean and orderly condition.

All work, including the dismantling and reinstallation of lockers as well as the associated interior painting services (Item 4 and 5) for this space, must be fully completed and finalized within fourteen (14) workdays, with all operations closely coordinated with the facility point of contact to minimize operational disruption. Clean/Dirty Separation Lockers (Brand Name or Equal to C+P "Classic PLUS" PSA Schwarz-Wei-Spind). Must provide separate internal compartments for the hygienic separation of street clothes ("white") and work/PPE clothing ("black").

ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

(a) Definitions. As used in this clause-

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means-

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html.

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

" Enterprise " means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

" Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Government's unit acquisition cost" means-

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

" Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial

number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is $5,000 or more, except for the following line items:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

____ ____

____ ____

____ ____

(ii) Items for which the Government's unit acquisition cost is less than $5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

____ ____

____ ____

____ ____

(If items are identified in the Schedule, insert "See Schedule in this table.)

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number ____.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ____.

(v) Any item not included in (i), (ii), (iii), or (iv) for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology - International symbology specification - Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that-

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology - Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall-

(A) Determine whether to-

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number; or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot, or batch number) on items requiring marking by paragraph

(c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U. S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code-

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

(1) Unique item identifier.

(2) Unique item identifier type.

(3) Issuing agency code (if concatenated unique item identifier is used).

(4) Enterprise identifier (if concatenated unique item identifier is used).

(5) Original part number (if there is serialization within the original part number).

(6) Lot or batch number (if there is serialization within the lot or batch number).

(7) Current part number (optional and only if not the same as the original part number).

(8) Current part number effective date (optional and only if current part number is used).

(9) Serial number (if concatenated unique item identifier is used).

(10) Government's unit acquisition cost.

(11) Unit of measure.

(12) Type designation of the item as specified in the contract schedule, if any.

(13) Whether the item is an item of Special Tooling or Special Test Equipment.

(14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

(1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.

(2) Unique item identifier of the embedded subassembly, component, or part.

(3) Unique item identifier type.**

(4) Issuing agency code (if concatenated unique item

identifier is used).**

(5) Enterprise identifier (if concatenated unique item identifier is used).**

(End of clause)

252.232-7006	Wide Area WorkFlow Payment Instructions.	2023-01

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) *Definitions.* As used in this clause-

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document type" means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing.* The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access.* To access WAWF, the Contractor shall-

(1) Have a designated electronic business point of contact in the System for Award Management at https://www.sam.gov; and

(2) Be registered to use WAWF at https://wawf.eb.mil/ following the step-by-step procedures for self-registration available at this web site.

(d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at https://wawf.eb.mil/

(e) *WAWF methods of document submission.* Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) *WAWF payment instructions.* The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) *Document type.* The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items-

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

Receiving Report and Invoice Combo (Supplies)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

N/A

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2)) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]

(3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Alternate I. As prescribed in 229.402-70(a) and (a)(2), use the following clause, which adds a paragraph (d) not included in the basic clause:

TAX RELIEF-ALTERNATE I (APR 2020)

(a) Prices set forth in this contract are exclusive of all taxes and duties from which the United States Government is exempt by virtue of tax agreements between the United States Government and the Contractor's government. The following taxes or duties have been excluded from the contract price:

NAME OF TAX: **Value Added Tax (VAT)**	RATE (PERCENTAGE): **19%**

(b) Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available. The Contractor's invoice shall list separately the gross price, amount of tax deducted, and net price charged.

(c) When items manufactured to United States Government specifications are being acquired, the Contractor shall identify the materials or components intended to be imported in order to ensure that relief from import duties is obtained. If the Contractor intends to use

imported products from inventories on hand, the price of which includes a factor for import duties, the Contractor shall ensure the United States Government's exemption from these taxes. The Contractor may obtain a refund of the import duties from its government or request the duty-free import of an amount of supplies or components corresponding to that used from inventory for this contract.

(d) Tax relief will be claimed in Germany pursuant to the provisions of the Agreement Between the United States of America and Germany Concerning Tax Relief to be Accorded by Germany to United States Expenditures in the Interest of Common Defense. The Contractor shall use Abwicklungsschein fuer abgabenbeguenstigte Lieferungen/Leistungen nach dem Offshore Steuerabkommen (Performance Certificate for Tax-Free Deliveries/Performance according to the Offshore Tax Relief Agreement) or other documentary evidence acceptable to the German tax authorities. All purchases made and paid for on a tax-free basis during a 30-day period may be accumulated, totaled, and reported as tax-free.

COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (DEC 2019)

(a) Definitions. As used in this provision, "covered defense telecommunications equipment or services" has the meaning provided in the clause 252.204-7018, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services.

(b) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered defense telecommunications equipment or services".

(c) Representation. The Offeror represents that it [ ] does, [ ] does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

(End of provision)

252.204-7017	Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation.	2021-05		

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) Definitions. "Covered defense telecommunications equipment or services," "covered mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at https://www.sam.gov for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [ ] will [ ] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will

provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

The Quoter must complete all required representations, certifications, and clauses incorporated in this solicitation to include:

- FAR 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations-Representation. (Deviation 2026-O0038)

- DFARS 252.204-7016, Covered Defense Telecommunications Equipment or Services

- DFARS 252.204-7017, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services - Representation

INFORMATION TO EVALUATION OF AWARD

FACTOR 1 - TECHNICAL

The Government will award a single contract pursuant to the Evaluation Methodology stated in FAR Provision 52.212-2. The Quoter shall provide a technical volume, exclusive of all pricing information, consisting of the following:

GEOGRAPHIC PERFORMANCE REQUIREMENT

This requirement requires on-site performance within Germany. Quoters shall demonstrate their capability to perform all required work within Germany, including removal and disposal of existing equipment, minor repair services, and installation of new equipment at a U.S. Government facility.

Due to the requirement for on-site performance, coordination with installation personnel, equipment removal/disposal, and compliance with all applicable German and U.S. installation requirements, Quoters must demonstrate the capability to perform all required work within Germany.

Subfactor A: Product Description:

The Quoter shall provide a technical quotation sufficient to determine the ability to meet the entire requirement as specified in the specification (see Specifications attachment to be considered technically acceptable. Technical quotation shall include a narrative explaining an approach that addresses all aspects of the minimum requirements and meets the salient characteristics. This narrative must include an estimated schedule for completion and delivery, as well as detailing the proposed warranty, and service capabilities. The narrative shall be specific, detailed, and clearly demonstrate that the Quoter has a thorough understanding of the requirement for the accomplishment of this effort.

Additionally vendors shall also provide the best delivery Leadtime as part of this subfactor and must demonstrate they have the ability to perform all required work within Germany.

Subfactor B: Supplier Performance Risk:

The Quoter shall submit their Commercial Government Entity (CAGE) code with the quoter for verification of vendor risk in accordance with the Provision at DFARS 252.204-7024, Notice of the Use of the Supplier Performance Risk System (SRPS).

FACTOR 2 - PRICE

Quoters are instructed to complete the Pricing Schedule for CLIN 0001 - 0005 with the extended price of the items quoted to meet the requirement salient characteristics for the lockers with benches and the removal/installation of new equipment. Price shall include delivery.

Paragraph (b) - Period for Acceptance of Quotes - is tailored to read: The Quoter agrees to hold the prices in its quote firm for 90 calendar days from the date specified in this solicitation for receipt of quotes. A written notice of award or acceptance of a quote, mailed or otherwise furnished to the successful Quoter within the time for acceptance specified above, shall result in a binding contract without further action by either party. Before the quote's specified expiration time, the Government may accept a quote (or part of a quote), whether there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Paragraph (d) Contract Award - The Government intends to evaluate quotes and make award(s) on initial quote submissions. Therefore, the quoter's initial quote should contain the Quoter's best terms from a price and technical standpoint. Quoters are cautioned that the Government does not intend to hold formal communications, clarifications, and/or discussions with quoters, as prescribed in FAR Part 15. This procurement is being conducted using Simplified Acquisition Procedures in accordance with FAR Part 12. As such, the Government has broad discretion to fashion suitable evaluation procedures, inclusive of determining whether to permit quoters to revise their quotes and /or address any material failures in such submissions if determined to be in the best interest of the Government.

The completion and submission to the Government of the above items listed in this Provision will constitute the quote. The quote shall communicate the Quoter's unconditional assent to the terms and conditions in this solicitation, including any attachments and documents incorporated by reference. The Quoter's failure or refusal to agree to any of the terms and conditions of this solicitation or the Quoter's imposition of additional conditions or any material omission in its quote may constitute a deficiency which will make the quote unacceptable to the Government.

This request does not permit the Government to pay any costs incurred in the preparation and submission of your quote or in making any necessary studies for the preparation thereof, or for any visit the Contracting Officer may request for the purpose of clarification of the quote or for revisions provided in response to communications.

SITE VISIT

A one-time site visit for this requirement will be held:

DATE: 23 July 2026

TIME: 9:00 AM CET

LOCATION: Lucius D. Clay Kaserne 65205 Wiesbaden, Germany

Prospective contractors should visit the site to ascertain pertinent local conditions as prescribed by RFO clause 52.237-1 "SITE VISIT". Interested vendors shall inform Ms. Nancy Tagu, nancy.n.tagu.ln@army.mil and Mr. Aaron Ritter, aaron.m.ritter.civ@army.mil of their intent to attend the site visit and include the full names of all attendees no later than 14:00 hrs. Central European Time (CET) on 22 July 2026. Only two (2) from each vendor may attend the site visit. Site visit attendees are required to be at the main gate of Clay Kaserne no later than 08:55 of the scheduled date. The meeting point for the site visit is the Visitors Center on the right side of the main entrance to Clay

Kaserne. All attendees must present their identification card or passport and car registration to gain entry. Security guards may perform body search and/ or vehicle inspections.

52.237-1 Site Visit. Site Visit (Apr 1984) 1984-04

Offerors or quoters are urged and expected to inspect the site where services are to be performed and to satisfy themselves regarding all general and local conditions that may affect the cost of contract performance, to the extent that the information is reasonably obtainable. In no event shall failure to inspect the site constitute grounds for a claim after contract award.

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Factor 1 - Technical

Subfactor A: Product Description

Subfactor B : Supplier Performance Risk System (SPRS)

Factor 2 - Price

(b) *Options:* N/A

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

Addendum to Evaluation - Commercial Product and Commercial Services

Evaluation Methodology - The Government will award a contract resulting from this solicitation u tilizing FAR Part 12, Acquisition of commercial products or commercial services. The Technical rating will be based on an "Acceptable" / "Unacceptable" basis. A quote is un-awardable at any price if the Technical factor or any of the subfactors receives a rating of "Unacceptable." Award will be made to the responsible Quoter who submits an quote that (1) conforms to the requirements of the solicitation; (2) receives a rating of "Acceptable" on the Technical evaluation factor; and (3) that submits the quote with the lowest Total Evaluated Price (TEP), provided that the TEP is fair and reasonable. The Government reserves the right to award no contract at all.

Ratings	Description
Acceptable	The quotation clearly meets the minimum requirements of the solicitation
Unacceptable	The quotation does not clearly meets the minimum requirements of the solicitation

The following shall be used to evaluate quotes:

FACTOR 1 - Technical:

Subfactor A - Product Description: The rating will be based on an "Acceptable or Unacceptable" basis. The following definitions will be used to assign the rating:

The Government will also evaluate the quoter's ability to perform the required on-site services within Germany. Quoters shall demonstrate they possess the necessary capability, resources, and logistical capability to complete delivery, removal/disposal, repair, and installation activities at the designated location. Failure to demonstrate the ability to perform within Germany may result in the quotation being determined technically unacceptable.

Acceptable: The quote provides the proposed Lockers and benches Make, Model, and technical information, demonstrating full compliance with the minimum requirements outlined in the specifications. Additionally, the submission includes the required details regarding delivery, warranty, service, and spare parts availability, as well as all documentation specified in the Addendum to FAR 52.212-1.

Unacceptable: The quoter does not include all the documentation as required in the Addendum to 52.212-1 (such as failing to address delivery, warranty, service, or spare parts availability), and it

can not be determined that the proposed Product meets the salient characteristics and all aspects of the minimum requirements.

Subfactor B - Supplier Performance Risk

The Government will consider Risk in accordance with the Provision at DFARS 252.204-7024, Notice on the Use of the Supplier Performance Risk System, as supplemented by this criterion. The Government will consider Supplier Risk as described in the Provision. The Government will NOT consider Item Risk or Price Risk as described in Provision. For purposes of this Risk assessment, the Government will only consider information contained in the Supplier Performance Risk System (SPRS). Any questions or concerns the Quoter has concerning its SPRS risk assessments should be addressed as described in paragraph (d) of DFARS 252.204 7024.

The rating will be based on an "Acceptable or Unacceptable" basis. If the Quoter does not receive an "Acceptable" rating for this factor, the quoter may not be evaluated any further and the Quoter may be eliminated from further consideration for award.

Acceptable: Quoter has a Supplier Risk Score of Green, Purple, Blue, or Black. Quoters without a Supplier Risk Assessment in SPRS will be treated as neutral which is considered acceptable.

Unacceptable: Quoter has a Supplier Risk Score of Yellow, Red, or Grey.

FACTOR 2 - PRICE

Price will be evaluated as follows:

(1) Completeness: The Government will review the pricing submissions for completeness and compliance with solicitation Provision FAR 52.212-1.

(2) Unbalanced Pricing: The Government may determine that an quoter is unacceptable if the prices are significantly unbalanced.

(3) Fair and Reasonableness: The Quoter's price will be evaluated in accordance with FAR 12.204.

(a). The realism of proposed prices will NOT be evaluated. If only one quoter is received in response to this solicitation, the Government will follow the procedure at DFARS 213.500-70.
