Description/Specifications/Statement of Work

STATEMENT OF WORK - SITE RITE 9 ULTRASOUND SYSTEM

1.1 Overview
This document outlines the request to provide a direct replacement for our outdated vascular access ultrasound system. The current lifecycle equipment, a Site Rite 8 is years past its manufacturer-supported life cycle and presents significant repair and patient safety risks. Should this sole unit fail, the Vascular Access Team would lose all capability for ultrasound-guided placement of advanced intravenous lines, forcing a disruption in service.
Following a market analysis, it has been determined that competing systems do not meet our comprehensive clinical requirements. The requested Site Rite 9 is the only system fully compatible with our current supplies and meets all performance criteria.

The following items are requested for purchase:

SiteRite(TM) 9 Ultrasound System (9770800)
Magnetizer 9770811)

1.2 Objective

The objective is the delivery and installation of one (1) Site Rite 9 Ultrasound System to replace the end-of-life Site Rite 8. This action is critical to ensure the Vascular Access Team can continue its mission of providing safe and effective bedside placement of advanced venous lines, including Peripherally Inserted Central Catheters (PICCs). This new equipment is the only solution that satisfies all technical requirements while leveraging our existing supply chain.

The performance capabilities of the required equipment must include:

-High-frequency linear transducer optimized for clear and precise vascular imaging.

-Real-time vessel assessment tools, including calculation of the vein-to-catheter ratio.

-Integrated catheter tracking technology for real-time guidance.

-Catheter tip position verification via intracavitary electrocardiogram (IC-ECG/3CG) to confirm final placement and obviate the need for a confirmatory chest X-ray.

-Automated features including Vessel Auto-Detection and Voice Command.

-A single, consolidated platform for managing all patient data, imaging, and verification.

-Integrated teaching aids and educational modules.

1.3 Scope

The contractor will deliver and install hardware and software in collaboration with Womack Logistics, specifically Equipment Management and Medical Maintenance, and the Womack Information Management Division (IMD). Installation will include verification of all system functions, including confirmation of interoperability or a compliant data transfer process with MHS Genesis. The vendor will furnish the following:

Core System and Probe:

SiteRite(TM) 9 Ultrasound System (P/N: 9770800)

Tip Confirmation Components:

SiteRite(TM) 9 Ultrasound Cue(TM) Magnetizer (P/N: 9770811)

All associated hardware, software, cables, and power supplies required for full system functionality.

-Shipping

-Installation

1.4 Location

The equipment will be delivered to the following address:

Womack Army Medical Center
ATTN: Property Management Branch
4-2817 Rock Merritt Avenue
Fort Bragg, NC, 28310

The installation and primary location of use will be with the Vascular Access Team as a mobile unit, based out of the Hematology/Oncology Clinic within Womack Army Medical Center.

1.5 Timeframe

Purchase of the equipment should be immediate. The current Site Rite 8 system is past its operational life cycle, and any malfunction would result in a complete loss of this critical clinical capability.

1.6 Schedule

Delivery should occur no later than 30 days after purchase. Installation should occur no later than 60 days from purchase to allow the equipment to be inventoried by the Property Book Office and technically inspected by Medical Maintenance. Installation should not take more than two business days. The Vascular Access Team is available for coordination between 0730-1600 M-F, with the exception of federal holidays.

1.7 Deliverables

Deliverables shall be one (1) complete and functional Site Rite 9 Ultrasound System, including all components as specified in Section 1.3 Scope, installed and fully operational.

1.8 Standards

The ultrasound system shall meet all manufacturer specifications for performance and patient safety. The system must provide a means to upload or transfer patient and procedure data into MHS Genesis, either through direct network integration, printing and scanning, or another compliant data export function.

1.9 Workforce Requirements

Software and network installation will require support from WAMC IMD to ensure the system is compliant with network security and can interface with MHS Genesis. The hardware installation will require assistance from Medical Maintenance for in-processing the equipment onto the hand receipt, verifying all components are present, and providing oversight during installation. A nurse from the Vascular Access Team will be the primary operator of this system.

1.10 Payment Terms

Payment will be made after receiving equipment and invoice acceptance through Wide Area Workflow (WAWF).

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (FEB 2026) (DEVIATION 2026-O0038)

(a) *Definitions*. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [*Offeror must select one*] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.
