SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The purpose of this Amendment is as follows:

a. To provide answers to the following clarification questions:

Contractor Question: Could you please confirm whether any drawings or additional specifications are available for the required 1-1/2" metal nitrogen hose assemblies, particularly regarding the hose construction and JIC end connections?
Government Answer: There are no additional dimensional material, pressure-rating, testing, or certification requirements beyond those already identified in the standard Product Description.

Contractor Question: For P/Ns 2207, 2208, and 2209, please confirm the required hose material/construction, JIC fitting size/type, and end configuration. Specifically, please confirm whether “FXF JIC EE” denotes female JIC fittings on both ends and whether there are any additional dimensional, material, pressure-rating, testing, or certification requirements beyond those identified in the Product Description and Amendment 0001.
Government Answer: Yes, we confirm that 'FXF JIC EE' denotes Female JIC (37° Flare) swivel fittings on both ends ('FXF'), and that the fittings on both ends are of the exact same (equal) dash size ('EE'). There are no additional dimensional, material, pressure-rating, testing, or certification requirements beyond those already identified in the standard Product Description. Please refer to Amendment-0002 as well.
