00010	R/V Parke Snavely Aluminum Hull Bottom Plating Repairs Provide all labor, supervision, materials, tools, equipment, transportation, and incidental services necessary to complete the R/V Parke Snavely aluminum hull bottom plating repairs in accordance with the Statement of Work. Product/Service Code: J019 Product/Service Description: MAINT/REPAIR/REBUILD OF EQUIPMENT- SHIPS, SMALL CRAFT, PONTOONS, AND FLOATING DOCKS				

This is a combined synopsis/solicitation for commercial services prepared in accordance with FAR Part 12 and supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotations are being requested and a separate written solicitation will not be issued.

1. Requirement Description

The U.S. Geological Survey (USGS), Pacific Coastal and Marine Science Center, requires aluminum hull bottom plating repairs to the Government-owned research vessel R/V Parke Snavely in accordance with the attached Statement of Work.

The contractor shall provide all labor, supervision, materials, tools, equipment, transportation, welding consumables, safety equipment, permits, inspections, documentation, warranty, and incidental services necessary to complete the required repairs.

a. All information submitted in response to this solicitation is voluntary. The Government will not pay for any information requested or compensate quoters for costs incurred in preparing or submitting a quotation. Materials submitted to the Government for review will not be returned.

b. This acquisition is conducted under FAR Part 12, Acquisition of Commercial Products and Commercial Services.

c. The solicitation and incorporated provisions and clauses are those in effect through Federal Acquisition Circular 2026-01, effective March 13, 2026.

d. NAICS Code: 336611 - Ship Building and Repairing.

e. Small Business Size Standard: 1,300 employees.

f. This acquisition is a total small business set-aside.

g. The Government anticipates award of one firm-fixed-price contract.

h. Award will be made on an all-or-none basis. Partial quotations will not be accepted.

i. A site visit will be available. Site-visit scheduling information is provided in the solicitation.

2. Quote Submission Instructions

The quotation shall:

a. Provide a total firm-fixed price inclusive of all labor, supervision, materials, aluminum plating, welding consumables, tools, equipment, transportation, mobilization, insurance, permits, inspections, documentation, warranty, cleanup, and incidental costs necessary to complete the requirement.

b. Demonstrate compliance with the Statement of Work and provide the information required by the evaluation criteria.

c. Identify the proposed welding process, filler material, key personnel qualifications, relevant aluminum vessel-repair experience, performance schedule, and any proposed subcontractors.

d. Identify any assumptions, exclusions, or exceptions to the solicitation requirements.

e. Provide the quoter's Unique Entity Identifier (UEI)**.**

f. Include warranty information for materials and workmanship.

g. Remain valid for a minimum of 30 calendar days after the quotation due date.

h. Be submitted by email to Contracting Officer Joel Berberena at joel_berberena@ios.doi.gov by the date and time stated on the Standard Form 18.

1. Background

The U.S. Geological Survey (USGS) vessel R/V Parke Snavely, a 2008 Armstrong 34' aluminum catamaran, requires hull plating repairs due to corrosion and pitting concentrated primarily in the starboard engine bay and adjacent forward compartment. Corrosion resulted from epoxy coating failure, which trapped salts between the coating and the aluminum plating. The port engine bay exhibits limited pitting, and the transom shows no signs of damage. The vessel is currently on the hard in Santa Cruz, CA, with trailer repairs ongoing, limiting mobility for offsite work. Timely repairs are essential to restore the hull's structural integrity and return the vessel to safe operational status in support of USGS coastal and offshore research operations.

2. Scope of Work

The Contractor shall provide all labor, supervision, materials, tools, equipment, transportation, and incidentals required to complete the hull plating repairs. All work must follow aluminum vessel repair best practices and the procedures detailed in this SOW. No repairs outside this SOW may be carried out without written authorization from the Contracting Officer.

3. Required Tasks

A. Removal of Corroded Plating

The Contractor shall remove corroded or pitted hull sections located in the main engine bays and forward starboard compartment. This includes four 52-inch by 8-inch panels and four 26-inch by 8-inch panels, totaling approximately 17.3 square feet.

B. Installation of New Aluminum Plating

Replacement plating shall be fabricated from 5086 aluminum. Replacement plating shall match the thickness of the existing original hull plating unless otherwise approved in writing by the Contracting Officer.

Plates shall be beveled, tacked flush, and full-penetration welded using appropriate alloy wire and shielding gas. To minimize heat-related distortion, only one linear section shall be replaced at a time.

C. Inspection & Documentation

The Contractor shall inspect adjacent hull areas for corrosion, document repairs, maintain photographic evidence of removed and replaced sections, and compile an itemized materials and work summary. Additional repairs discovered must be documented and submitted for review before proceeding.

4. Materials and Replacement Parts

All new materials must be marine-grade and suitable for aluminum-hulled vessels. OEM-equivalent materials must be used unless alternatives receive prior approval. Removed materials shall be retained until final acceptance.

5. Deliverables

The Contractor shall provide a final repair report, photographs, and warranty documentation.

6. Inspection and Acceptance

Government inspection and acceptance will occur after all repairs and documentation are complete and satisfactory.

7. Schedule

Within period of performance.

8. Warranty

The Contractor shall provide a standard commercial warranty for all materials and workmanship.

9. Place of Performance

All work shall be performed on-site in Santa Cruz, California at the USGS Marine Facility yard.

END STATEMENT OF WORK

Local Clauses

DOI-AAAP-0028 V4 Electronic Invoicing and Payment Requirements - Internet Payment Platform (IPP) (February 2021)

Payment requests must be submitted electronically through the U.S. Department of the Treasury's Invoice Processing Platform System (IPP).

"Payment request" means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions - Commercial Products and Commercial Services included in commercial item contracts.

The IPP website address is: https://www.ipp.gov.

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice: Final repair report, repair photographs, itemized materials and work summary, warranty documentation, and Government acceptance documentation.

The Contractor must use the IPP website to register, access, and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact, as listed in SAM, will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis within 3-5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its quotation.

GS0231 Technical Liaison -Technical Clarification (DEC 2024)

(a) The performance required herein shall be subject to the technical clarification of the Technical Liaison (TL) as identified below. As used herein, "technical clarification" is defined as communication to help the contractor fully understand the requirements.

(b) The Technical Liaison is not delegated any Contracting Officer's Representative responsibilities.

(c) The Technical Liaison may not modify the requirements in any way. All modifications must be authorized by the Contracting Officer.

(d) The contractor shall immediately notify the Contracting Officer, in writing, if they believe the Technical Liaison is directing work outside the requirements of this contract. The contractor may not be reimbursed for any work outside the requirements of this contract.

(e) The Technical Liaison assigned for this contract is:

[redacted]

[redacted]

USGS Pacific Coastal and Marine Science Center
2831 Mission Street
Santa Cruz, CA 95060

(f) Only the Contracting Officer may designate a new Technical Liaison.

GS0301 General Requirements (JUL 2001)

The contractor shall furnish all facilities, labor, supervision, materials, tools, equipment, transportation, and incidentals necessary to perform the aluminum hull bottom plating repairs in accordance with the terms and conditions herein and the specifications set forth in Attachment 1, Statement of Work - USGS Vessel R/V Parke Snavely Aluminum Hull Bottom Plating Repairs.

GS0350 Conformance with Environmental Management Systems (JUL 2018)

a) The Contractor's work under this contract shall conform with all operational controls identified in the applicable agency, organization, or facility environmental management system (EMS) and provide monitoring and measurement information as necessary for the Government to address environmental performance relative to the environmental, energy, and transportation management goals.

b) In the event the Contractor identifies an environmental nonconformance or noncompliance associated with the work under the contract, the Contractor shall notify the Contracting Officer immediately. The Contractor will be required to take corrective and/or preventative actions at the direction of the Contracting Officer in the form of a contract modification and in coordination with the EMS Site Coordinator.

c) The Contractor shall ensure that their employees are aware of the roles and responsibilities identified by the EMS and how these requirements affect the work performed under this contract.

d) Whether on-site contractor personnel shall complete EMS training is at the discretion of the Contracting Officer, appropriate for the type of work under the contract, at no cost to the Contractor. Notification of the training schedule will be provided by the Contracting Officer's Representative in coordination with the facility-level EMS Coordinator.

GS0919 Legal Holidays (JUN 2021)

The following legal holidays are observed by this Government agency:

New Year's Day	January 01
Martin Luther King's Birthday	3rd Monday in January
Presidents Day	3rd Monday in February
Memorial Day	Last Monday in May
Juneteenth National Independence Day	June 19JUN
Independence Day	July 04
Labor Day	1st Monday in September
Columbus Day	2nd Monday in October
Veterans Day	November 11
Thanksgiving Day	4th Thursday in November
Christmas Day	December 25

When a holiday falls on Saturday or Sunday, it is observed on the adjacent Friday or Monday, respectively.

In addition to the holidays listed above, the contractor agrees to observe leave days or closures designated by Federal Statute, Executive Order, or Presidential Proclamation.

GS0925 Unscheduled Closures - Fixed Price (MAR 2003)

a) The USGS facility where contractor employees are working may occasionally be closed temporarily and federal employees dismissed, such as for inclement weather, holiday early closings, power outages, or other emergencies.

In these cases, the Contracting Officer or COR will advise the contractor whether any of the contractor's activities on Government facilities are considered critical and require continued performance. In most cases, the Contractor will be required to dismiss employees at Government facilities who are performing noncritical tasks after federal employees are dismissed.

b) If the unscheduled closure causes an increase in the cost of contract performance or if any contract term or condition is affected by the closure, the Contractor may request an adjustment pursuant to Clause FAR 52.242-17 Government Delay of Work.

(c) Contractor performance at locations that are not affected by the unscheduled closure will not be subject to this clause.

GS1131 Unilateral Deobligation of Unexpended Funds (MAY 2013)

The contractor shall submit all invoices under the award no later than 90 calendar days after the period of performance has expired, unless a request for extension has been submitted to the Contracting Officer. After 120 days has passed since the expiration of the performance period, the government reserves the right to issue a unilateral modification deobligating any unexpended funds, and to initiate closeout procedures.

GS1338 Notice to the Government of Delays (JUL 2001)

In the event the contractor encounters difficulty in meeting performance requirements, or when it anticipates difficulty in complying with the contract delivery schedule or date, or whenever the contractor has knowledge that any actual or potential situation is delaying or threatens to delay the timely performance of this contract, the contractor shall immediately notify the contracting officer and the COR (if one has been designated), in writing, giving pertinent details. This data shall be informational only in character. Notice under this provision shall not be construed as a waiver by the Government of any delivery schedule or date or of any rights or remedies provided by law or under this contract.

GS1346 Compliance with Occupational Safety and Health Act -- Government-Owned (APR 2003)

Performance of work hereunder shall comply with the provisions of the Occupational Health and Safety Act of 1970, as amended (OSHA). If, at any time during the performance of this contract, the Government-furnished facilities and/or equipment do not conform to OSHA standards, the contractor must so notify the Contracting Officer, in writing, including a recommendation of the corrective action needed.

GS1348 Accident Reporting (APR 2003)

If an accident occurs on Government-controlled facilities, a report must be provided to the Contracting Officer's Representative and the Contracting Officer within 48 hours. An accident is defined as an event which causes injury, illness, or loss or damage to Government-owned or private property. The contractor will cooperate with any ensuing Government accident investigation.

GS1364 Non Personal Services - Supervision of Contractor Employees (SEP 2017)

a. This contract is a “nonpersonal services contract” as defined in FAR 37.101. It is therefore understood and agreed that the contractor and/or the contractor’s employees:
(1) shall perform the services specified herein as independent contractors, not as employees of the Government;
(2) shall request clarification in writing from the Contracting Officer if the Contractor finds it necessary with respect to the scope of services to be performed or the manner in which the services are to be performed hereunder;

(3) shall be responsible for their own management and administration of the work required and bear sole responsibility for complying with any and all technical, schedule, or financial requirements or constraints attendant to performance of this contract;
(4) shall be free from supervision, direction, or control by any Government employee with respect to the manner or method of performance of the services specified, but
(5) shall comply with general direction of the Contracting Officer, or duly authorized representative, pursuant to the Government's right and obligation to inspect, accept, or reject the work as necessary to ensure accomplishment of the contract objectives; and
(6) shall not at any time during the contract period be employees of the U.S. Government.

b. The contractor's employees and subcontractors must make clear, in dealings with the public, Federal employees, or other contractors, that they are not Federal employees. To minimize possible confusion, contractors and subcontractors are not permitted to wear clothing or other items, apart from an official identity credential, bearing the name, logo, or seal of the U.S. Geological Survey while performing work under this contract.

GS1440 Wage Determination Applicable (JUL 2001)

In the performance of this contract, the contractor shall comply with the requirements of U.S. Department of Labor Wage Determination Number **2015-5649, Revision No. 26, dated May 13, 2026**. The wage determination is incorporated into this solicitation and resulting contract and can be obtained at sam.gov.

GS2101 Inquiries (NOV 2020)

Offerors are instructed to contact only the Contracting Officer, Joel Berberena, at joel_berberena@ios.doi.gov, for information about any aspect of the solicitation. Prospective offerors are cautioned against contacting Government technical personnel in regard to this solicitation prior to award of this procurement. If such a contact occurs and is found to be prejudicial to competing offerors, the offeror making such a contact may be excluded from award consideration. Questions should be worded so as to avoid disclosing quotation strategies or proprietary solutions. Questions and answers will be provided to all offerors being solicited.

GS2110 Appointments for Site Visits (JUL 2001)

FAR 52.237-1, Site Visit, provides that quoters are urged and expected to inspect the site where services are to be performed and to satisfy themselves regarding conditions that may affect contract performance. Quoters are encouraged to attend one of the scheduled site visits by contacting the individual identified below. Attendance is not required as a condition of quotation submission or award.

Site visit location:
USGS PCMSC Marine Operations Facility
2831 Mission Street
Santa Cruz, CA 95060

Site visit point of contact: Pete Dal Ferro

To RSVP email the contracting officer Joel Berberena, at joel_berberena@ios.doi.gov
RSVP no later than July 28, 2026, at 12:00 p.m. Pacific Time.

Available date(s) and time(s):
Site Visit 1: Wednesday, July 29, 2026, at 9:00 a.m. Pacific Time.
Site Visit 2: Thursday, July 30, 2026, at 12:00 p.m. Pacific Time.

1452.228-70 Liability Insurance - Department of the Interior (JUL 1996)

(a) The Contractor shall procure and maintain during the term of this contract and any extension thereof liability insurance in form and amounts satisfactory to the Contracting Officer.

(b) The Contractor shall furnish evidence of such insurance to the Contracting Officer before commencing work under the contract. The Contractor shall provide evidence of insurance containing an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the Contractor gives written notice of cancellation or change as required by the Contracting Officer.

(c) The types and minimum limits of insurance required are:
(1) Workers' compensation and employer's liability: as required by Federal and State law; employer's liability minimum of $100,000.
(2) Comprehensive general liability: $500,000 per occurrence.
(3) Automobile liability: $200,000 per person; $500,000 per occurrence for bodily injury; and $20,000 per occurrence for property damage.

(d) The Contractor shall require subcontractors to maintain insurance required by the Contracting Officer and shall provide evidence of subcontractor insurance upon request.

52.222-42 Statement of Equivalent Rates for Federal Hires (May 2014)

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR Part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

This statement is for informational purposes only and is not a wage determination.

Employee class	Monetary wage
Welder, Combination, Maintenance	$44.97 per hour
Sheet-Metal Worker, Maintenance	$44.97 per hour
Rigger	$44.97 per hour
Laborer	$24.05 per hour
Painter, Maintenance	$43.26 per hour
General Maintenance Worker	$41.55 per hour

Solicitation Provisions

52.252-1 Solicitation Provisions Incorporated by Reference (Feb 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The Offeror is cautioned that the listed provisions may include blocks that must be completed by the Offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the Offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this address: https://www.acquisition.gov/far-overhaul/far-part-deviation-guide

52.252-5 Authorized Deviations in Provisions (Nov 2020)

The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

Provision	Description	Date / Deviation
52.203-18	Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements - Representation	Jan 2017 [DEVIATION]
52.204-7	System for Award Management - Registration	Nov 2024 [DEVIATION]
52.204-16	Commercial and Government Entity Code Reporting	Jul 2016 [DEVIATION]
52.209-2	Prohibition on Contracting with Inverted Domestic Corporations - Representation	Nov 2015 [DEVIATION]
52.209-11	Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction Under Any Federal Law	Feb 2016 [DEVIATION]
52.212-1	Instructions to Offerors - Commercial Products and Commercial Services	Sep 2023 [DEVIATION]
52.219-1	Small Business Program Representations	Feb 2024 [DEVIATION]
52.240-90	Security Prohibitions and Exclusions Representations and Certifications	Nov 2025 [DEVIATION]

52.237-1 Site Visit (Apr 1984)

Offerors or quoters are urged and expected to inspect the site where services are to be performed and to satisfy themselves regarding all general and local conditions that may affect the cost of contract performance, to the extent that the information is reasonably obtainable. In no event shall failure to inspect the site constitute grounds for a claim after contract award.

52.212-2 Evaluation—Commercial Products and Commercial Services (Nov 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible quoter whose quotation conforms to the solicitation, is technically acceptable, and offers the lowest evaluated price.

The following factors will be evaluated:

1. Technical Capability

Technical Capability will be evaluated on an acceptable/unacceptable basis.

To be rated acceptable, the quotation must demonstrate an adequate approach for completing all Statement of Work requirements, including removal of corroded aluminum plating, fabrication and installation of 5086 aluminum replacement plating, full-penetration welding, heat-distortion control, inspection, photographs, final reporting, and warranty.

The quotation shall identify the proposed welding process, key personnel qualifications, proposed schedule, and any subcontractors.

2. Relevant Experience

Relevant Experience will be evaluated on an acceptable/unacceptable basis.

The quoter shall provide at least one example of comparable structural aluminum vessel hull repair or similar marine aluminum welding work, including the customer, scope, date, and point of contact.

3. Schedule

Schedule will be evaluated on an acceptable/unacceptable basis.

The quotation must demonstrate the ability to complete all work and required documentation within the period of performance.

4. Price

Price will be evaluated for reasonableness.

The evaluated price will be the total firm-fixed price, including all labor, supervision, materials, tools, equipment, transportation, site work, insurance, permits, documentation, warranty, and incidental costs.

Award will be made to the lowest-priced quotation rated acceptable under all non-price factors.

(b) Options. Not applicable.

(c) A written notice of award or acceptance of a quotation furnished to the successful quoter shall result in a binding contract.

END OF CLAUSES, AND SOLICITATION PROVISIONS
