CONTINUATION OF ESSENTIAL CONTRACTOR SERVICES (OCT 2010)

(a) *Definitions*. As used in this clause-

(1) "Essential contractor service" means a service provided by a firm or individual under contract to DoD to support mission-essential functions, such as support of vital systems, including ships owned, leased, or operated in support of military missions or roles at sea; associated support activities, including installation, garrison, and base support services; and similar services provided to foreign military sales customers under the Security Assistance Program. Services are essential if the effectiveness of defense systems or operations has the potential to be seriously impaired by the interruption of these services, as determined by the appropriate functional commander or civilian equivalent.

(2) "Mission-essential functions" means those organizational activities that must be performed under all circumstances to achieve DoD component missions or responsibilities, as determined by the appropriate functional commander or civilian equivalent. Failure to perform or sustain these functions would significantly affect DoD's ability to provide vital services or exercise authority, direction, and control.

(b) The Government has identified all or a portion of the contractor services performed under this contract as essential contractor services in support of mission essential functions. These services are listed in attachment I, Mission-Essential Contractor Services, See TGIs.

(c)(1) The Mission-Essential Contractor Services Plan submitted by the Contractor, is incorporated in this contract.

(2) The Contractor shall maintain and update its plan as necessary. The Contractor shall provide all plan updates to the Contracting Officer for approval.

(3) As directed by the Contracting Officer, the Contractor shall participate in training events, exercises, and drills associated with Government efforts to test the effectiveness of continuity of operations procedures and practices.

(d)(1) Notwithstanding any other clause of this contract, the contractor shall be responsible to perform those services identified as essential contractor services during crisis situations (as directed by the Contracting Officer), in accordance with its Mission-Essential Contractor Services Plan.

(2) In the event the Contractor anticipates not being able to perform any of the essential contractor services identified in accordance with paragraph (b) of this section during a crisis situation, the Contractor shall notify the Contracting Officer or other designated representative as expeditiously as possible and use its best efforts to cooperate with the Government in the Government's efforts to maintain the continuity of operations.

(e) The Government reserves the right in such crisis situations to use Federal employees, military personnel or contract support from other contractors, or to enter into new contracts for essential contractor services.

(f) Changes. The Contractor shall segregate and separately identify all costs incurred in continuing performance of essential services in a crisis situation. The Contractor shall notify the Contracting Officer of an increase or decrease in costs within ninety days after continued performance has been directed by the Contracting Officer, or within any additional period that the Contracting Officer approves in writing, but not later than the date of final payment under the contract. The Contractor's notice shall include the Contractor's proposal for an equitable adjustment and any data supporting the increase or decrease in the form prescribed by the Contracting Officer. The parties shall negotiate an equitable price adjustment to the contract price, delivery schedule, or both as soon as is practicable after receipt of the Contractor's proposal.

(g) The Contractor shall include the substance of this clause, including this paragraph (g), in subcontracts for the essential services.

Section M - Evaluation Factors for Award

Miscellaneous text in this section has been modified to:

M-1.0 GENERAL

Award will be made to the responsible, technically acceptable offeror, whose proposal, conforming to the solicitation, offers the lowest evaluated price. The Government intends to award without discussions with Offerors, but reserves the right to conduct discussions if determined to be in the best interest of the Government. Therefore, Offerors are encouraged to submit their best offer from a price standpoint. The Government intends to award one (1) contract as a result of this solicitation.

M-2.0 BASIS FOR AWARD

Price has a dominant role in source selection and technical tradeoffs will not be made. As such, no additional credit will be given for exceeding the minimum requirements. Proposals are evaluated simply as either acceptable or unacceptable.

To be eligible for award, the Offeror shall meet the following criteria:

- Offer a total evaluated price determined to be fair and reasonable by the Contracting Officer;

- Obtain a technical acceptability rating of "Acceptable";

- Be determined responsible under FAR 9.104.

All proposals will be evaluated for compliance with the terms, conditions, and requirements set forth in the solicitation. An offer that is rated as "Unacceptable" in technical acceptability may be deemed to be an indication of an inherent lack of technical competence, or indicative of a failure to comprehend the complexity and risk of the proposed work, and may therefore render an Offeror's proposal to be unacceptable or ineligible for award.

M-3.0 EVALUATION FACTORS

Proposals will be evaluated using the factors listed below in no particular order of importance. Proposals are evaluated for acceptability, but not ranked using the non-price factors. In order to be considered awardable, an "Acceptable" rating in every nonprice factor must be achieved.

Evaluation factors for award:

- Factor 1 - Price, Lowest total price

- Factor 2 - Technical Acceptability (Non-price factor)

Determination of responsibility is not an evaluation factor, however, an Offeror's financial profile may be assessed to forecast possible risk and to ensure all awardee have adequate financial resources to perform the contract or ability to obtain them [see FAR 9.104-1(a)]. In addition, an Offeror must be registered in the System for Award Management (SAM) at https://www.sam.gov. Determination of Contractor Responsibility or Non-Responsibility will be assessed using the information available in SAM.gov and Federal Awardee Performance and Integrity Information (FAPIIS). The Offeror must be determined responsible within the definition of FAR 9.104 "Standards" to be eligible for award. Additionally, as indicated in Section L-3.0 paragraph E, the Government will confirm that Offerors outside Japan have the ability to operate and do business in Japan as prescribed under DFARS clause 252.225-7042. Offerors who do not provide proof of authorization to do business in Japan will be determined non-responsible and will not be eligible to
receive an award.

Factor 1 - PRICE, LOWEST TOTAL PRICE

The Government will not evaluate price adjectivally or assign strengths or weaknesses to the price proposal. The Government will evaluate proposals for award purposes by adding the proposed price for all CLIN(s) which will determine the total evaluated price. The Government will analyze the total evaluated price in accordance with FAR 13.106, to determine fair and reasonable pricing.

Factor 2 - TECHNICAL ACCEPTABILITY

Technical acceptability will be determined by evaluating the total number of proposed labor hours (prime and subcontractor) and proposed material and other costs. The technical acceptability will be rated as either "acceptable" or "unacceptable". To be determined technically acceptable, the number of labor hours and material and other costs proposed by the offeror must be sufficient to reflect an understanding of, and ability to complete, the scope of work.

WARNING - If the Government determines that an offeror's proposal is technically unacceptable because the proposed number of labor hours or the proposed material or other costs are too high or low, the Government may exclude the proposal from further consideration for award.

The Government will evaluate the proposal against the technical requirements using the ratings and descriptions outlined in Table M-1.

Table M-1. Technical Acceptable/Unacceptable

Rating Method

Adjectival Rating	Description
Acceptable	Proposal meets the requirements of the solicitation.
Unacceptable	Proposal does not meet the requirements of the solicitation.

The type of work that comprises ship repair, and the conditions under which it is performed, require that contracting is limited to companies or firms that are fully capable of conducting all aspects of shipboard work or boat/craft repair. Master Ship Repair Agreement (MSRA) holders are previously determined to possess the facilities, management, organization and production capabilities to perform an entire complex repair and alteration package. On the other hand, Agreement for Boat Repair (ABR) holders are firms who have demonstrated managerial capabilities to schedule and to control boat /craft repairs.

To ensure the US Navy receives satisfactory repair effort to Navy ships, boats and crafts, this solicitation have a positive qualification requirement for an Offeror to possess a current and active USN MSRA or ABR issued by the U.S. Navy or NAVSUP FLCY. As indicated in Section L-3.0 paragraph D, the Government will confirm the Offeror's existing MSRA/ABR certification or its plan to become an MSRA/ABR holder. The Government will evaluate the planned approach to obtain an MSRA/ABR or confirm the Offeror's existing MSRA/ABR certification. Any Offeror who do not possess an active MSRA or ABR, or does not agree to execute a master agreement (MSRA/ABR) before award of a job order, will be rated as technically unacceptable and will not be eligible to receive an award.
