REQUEST FOR PROPOSAL (PRIMARY)
ADDENDUM # 2
SOLICITATION # 10221453

NOTICE TO PROSPECTIVE BIDDERS
AUGUST 26, 2026

To All Prospective Bidders:

- I. DWR received the following question(s) for Request for Proposal # 10221453 Digital Output and Finishing Services.

Q1. Our company has an ongoing production relationship with another print shop located approximately 7 minutes from our facility. We regularly share production capabilities between the two businesses. For example, they utilize some of our in-house equipment and services, while we regularly utilize their printer and flatbed router. Both facilities are located approximately 20 minutes from DWR Headquarters. If we identify this print shop as a subcontractor/production partner in our proposal, would DWR allow the equipment located at their nearby facility to satisfy any portion of the required equipment listed under the Proposing Firm Minimum Qualifications? If so, would DWR be able to include both facilities as part of the on-site inspection?

A1. We will allow for this arrangement as long as it does not interfere with production deadlines. The Contractor and subcontractor need to specify on the form GSPD-05-105 Bidder Declaration how each one will be fulfilling the tasks required in the Scope of Work. Additionally, the Contractor and subcontractor will also need to collectively fulfill the equipment list in Section B.3.a., Proposing Firm Minimum Requirements on pages 4-5 of the solicitation. If the proposal passes Phases One and Two Evaluations, then we can perform Phase Three: On-Site Inspection at both facilities.
