- A. It is mutually understood between the parties that this Agreement may have been written prior to approval of the Budget Act for the mutual benefit of both parties in order to avoid program and fiscal delays.
- B. This Agreement is valid and enforceable only if sufficient funds are made available by the Budget Act for the Fiscal Year(s) involved for the purposes of this program. In addition, this Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Legislature and contained in the Budget Bill or any statute enacted by the Legislature which may affect the provisions, terms, or funding of this Agreement in any manner.
- C. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement will be of no further force and effect. In this event, the State will have no liability to pay any funds whatsoever to the Contractor or to furnish any other considerations under this Agreement and the Contractor will not be obligated to perform any additional provisions of this Agreement.
- D. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State will have the option to either cancel this Agreement with no liability occurring to the State or offer an agreement amendment to the Contractor to reflect the reduced amount.

Reimbursement may be requested for commercial carrier fares, private car mileage, parking fees, bridge tolls, taxi, bus, or streetcar fares, and auto rental fees when substantiated by a receipt.
- b) Automobile Mileage Rate: If a Contractor uses their own or a company car for transportation, the rate of reimbursement will be **\$0.70** maximum per mile. Gasoline and routine automobile repair expenses are not reimbursable.

Mileage reimbursement covers:

- i. Gasoline
 - ii. The cost of maintenance (oil, lube, routine maintenance)
 - iii. Insurance (liability, damage, comprehensive, and collision coverage)
 - iv. Licensing and registration
 - v. Depreciation and all other costs associated with operation of the vehicle
- c) If a Contractor uses their own or a company car “in lieu of” airfare, the air coach fare will be the maximum paid by the State. The Contractor must provide a cost comparison upon request by the State.
 - d) Private Aircraft Mileage Reimbursement Rate: The reimbursement for an employee’s use of a privately owned aircraft on state business must be at the Federal General Services Administration (GSA) Privately Owned Mileage Reimbursement Rate, which is currently **\$1.75** per statute mile.
