

Q&A #2 Event ID: 40119, RFO – 10853473

1. Regarding the referenced RFO, we have been unable to acquire new yellow switch lites for quite a while. We only have turquoise and blue. Would you be open to one of those colors? The other option would be refurbished but I can see from the Q&A document you send that you want new.

A. Items must be new/unused.

For the color, the yellow in the item description is in relation to the reference item number and is not a requirement. Any color of console is acceptable for submission.
