Two single gang J-Boxes mounted under the front shelf with 1\2" conduits and pull string to the stub area for data\com lines by others

Commercial through the rear wall mounted HVAC with 12,000 BTU cooling and 10,600 BTU electric heating and a 230 volt dedicated outlet.

Unit to be Primed with Heavy Duty Rust Inhibitive High Solid Primer Finished with a gloss Impact, Fade Resistant High Gloss Polyurethane 5 Mil Impact, Fade Graffiti and Chemical resistant top coat, that exceeds 3500 HR Salt Test. One Color to be selected.

Price for this booth is \$ 31,990.00 plus \$ 2,950.00 for delivery. We do not offer off-loading at the delivery site from the delivery truck or installation. Price does not include sales tax. Price is valid for 60 days.

Options:

Upgrade the glazing to 3\4" solar cool gray reflective tinted tempered dual pane insulating glass. Add \$ 2,250.00. Note: The reflective glazing is very difficult to see out of at night.

Provide perforated roll down shades that block 95% of the sunlight but can be viewed out of from inside the booth. Add \$ 3,990.00.

Delivery can usually be made within 28-30 weeks after receipt of Approved Drawings. This lead time could vary by 1-2 weeks either way depending on shop load at time of order.

This booth will ship in one piece, totally prefabricated, completely wired and painted. The booth will be delivered on a flat bed truck and will need to be off-loaded on site by others. Off-loading can be done by a forklift or crane, this booth will weigh about 4000 pounds.

The booth is designed to mount directly to a concrete pad using expansion type anchor bolts. Size of bolts to be determined by our Engineer at the time of design, but they will most likely be 5/8" x 4", designed to mount into 3000lb concrete.

Sincerely,

B.I.G. ENTERPRISES, INC.
