ADDENDUM NO. 3

REQUEST FOR QUALIFICATIONS (RFQ) NOTICE NUMBER #12A2404**A&E On-Call Traffic Operation and Traffic Management Planning Services,
District 12**

The purpose of this Addendum is to provide responses to proposers' questions.

Question 1:

The RFQ notes that the interview date is scheduled for Tuesday September 29. The ITS California Annual Meeting is scheduled for that week, in Sacramento. Some of our staff, and likely those on other teams, are confirmed as speakers at that event. Would Caltrans be willing to postpone the interview until October 7 or later?

Department Response:

No changes to the interview date can be made.

Question 2:

Would it be acceptable for the Task Order Manager to have a California Traffic PE instead of a California Civil PE? Many task orders are focused on traffic operations and/or planning, where a Traffic PE would have a strong base of experience to lead the task order.

Department Response:

No, a registered traffic engineer in California cannot be substituted for a California registered civil engineer in this role.

Question 3:

Would it be acceptable for the Task Order Lead to have a California Traffic PE instead of a California Civil PE?

Department Response:

No, a registered traffic engineer in California cannot be substituted for a California registered civil engineer in this role.

Question 4:

Would it be acceptable for the Consultant Traffic Operations, Traffic Safety, and Traffic Management Planning Responsible Person to have a California Traffic PE instead of a California Civil PE?

Department Response:

No, a registered traffic engineer in California cannot be substituted for a California registered civil engineer in this role.

All other terms and conditions of the original RFQ Notice dated 08/12/2026 and any addenda are unchanged.

Please contact Kelli Cosgrove at Kelli.Cosgrove@dot.ca.gov for questions concerning this addendum.
